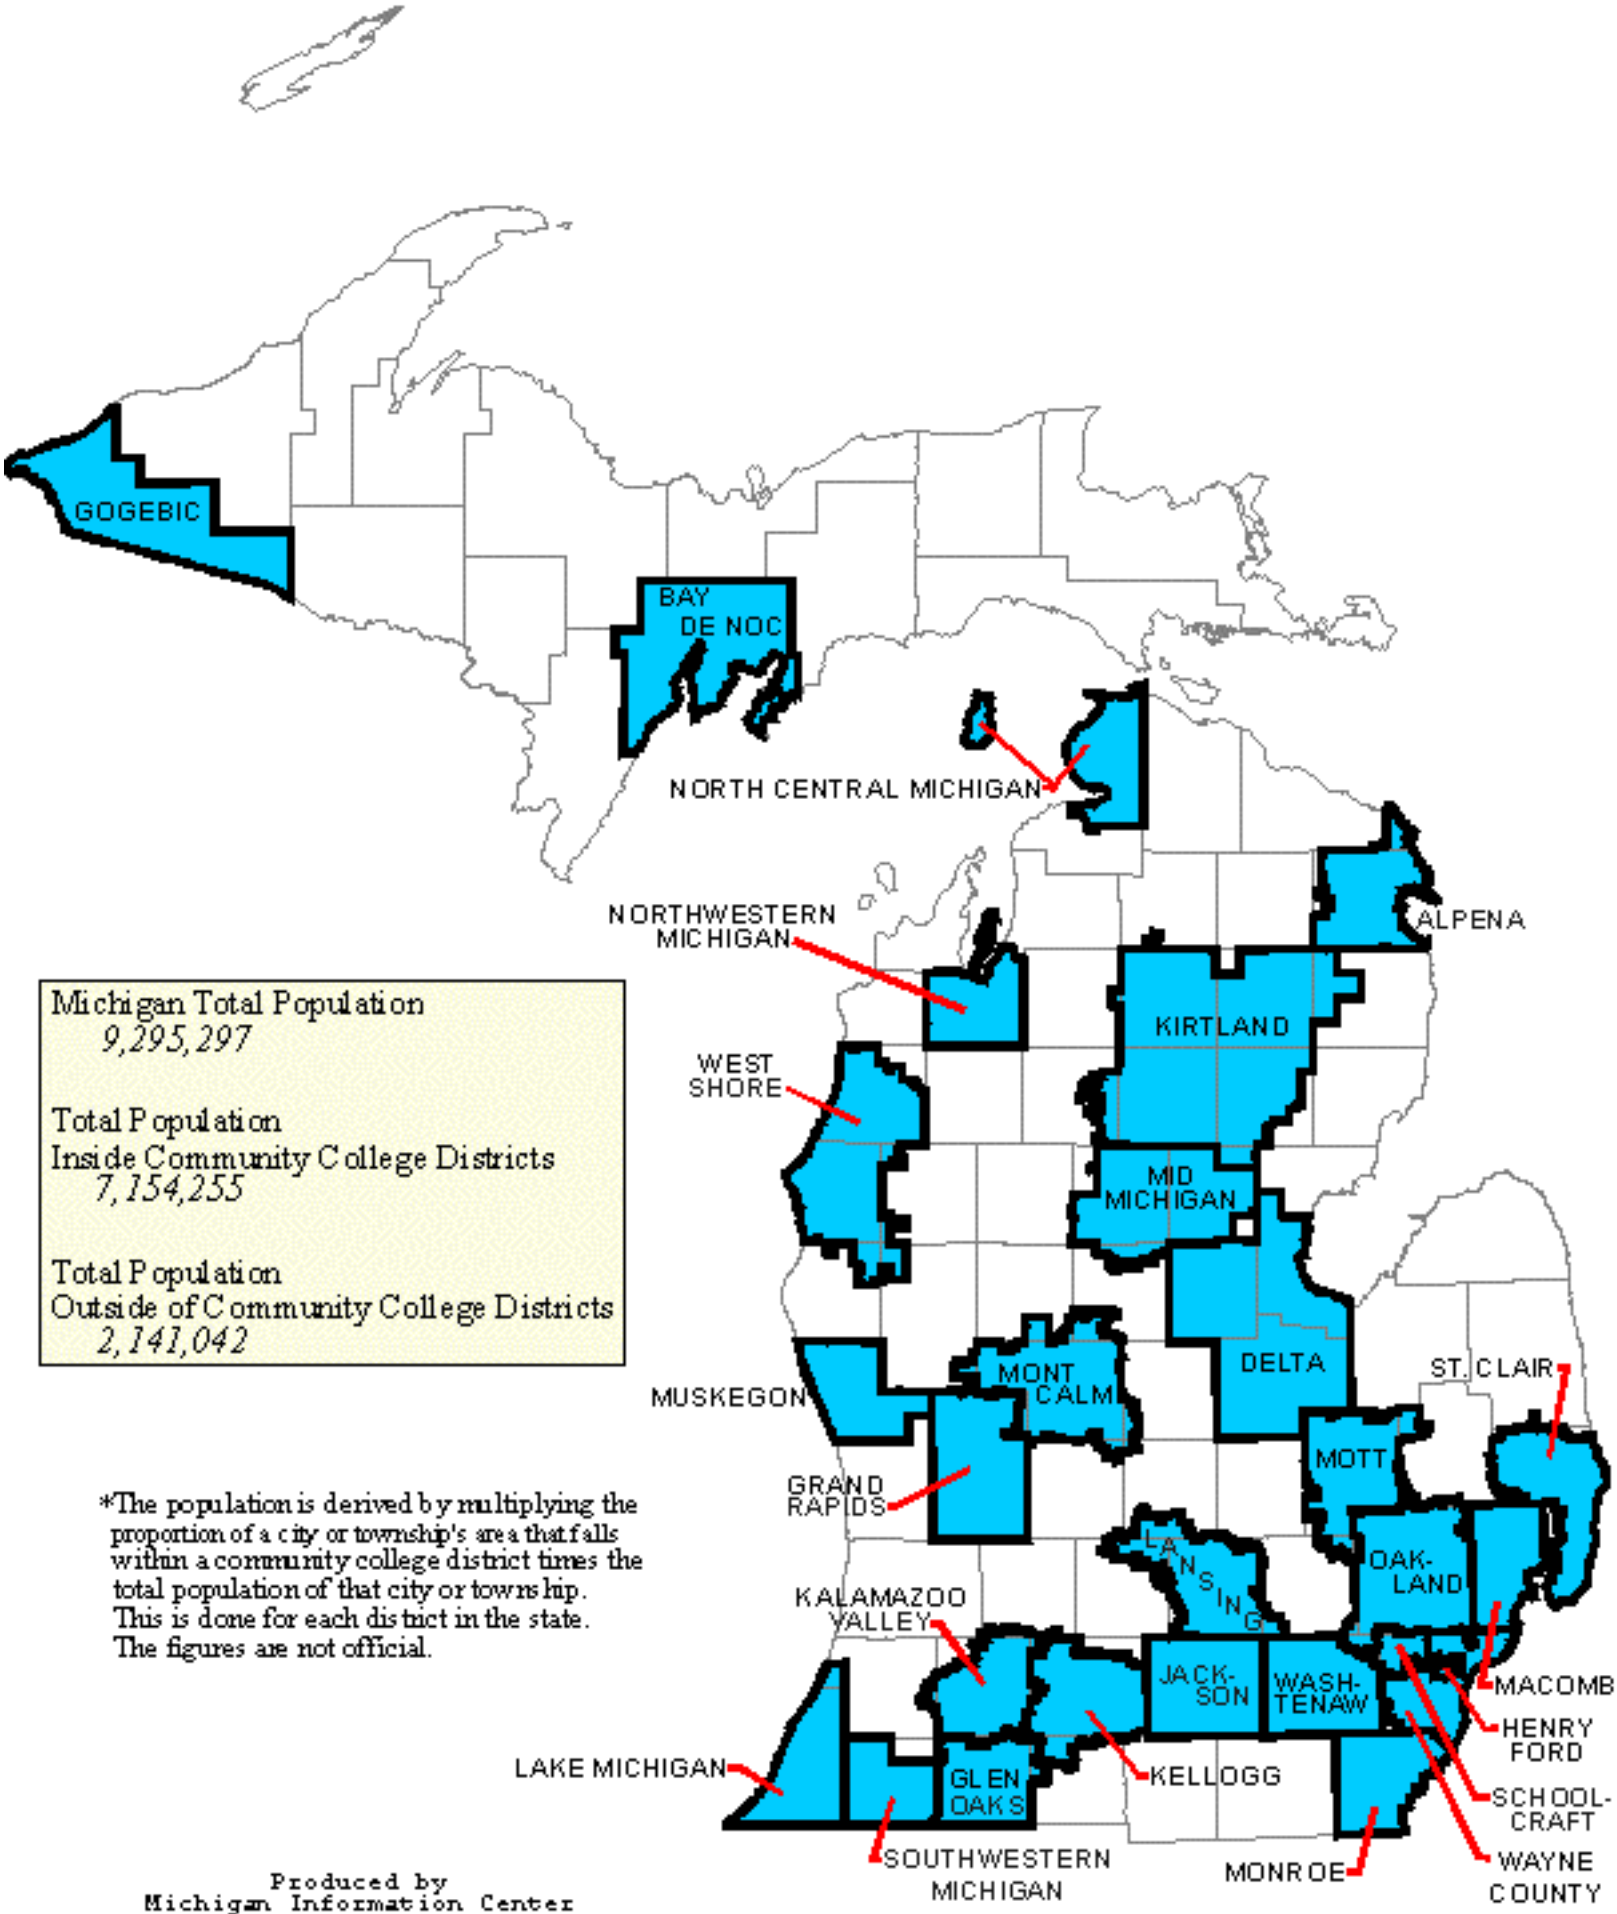
# MICHIGAN COMMUNITY COLLEGES



Michigan Total Population
*9,295,297*

Total Population
Inside Community College Districts
*7,154,255*

Total Population
Outside of Community College Districts
*2,141,042*

*The population is derived by multiplying the proportion of a city or township's area that falls within a community college district times the total population of that city or township. This is done for each district in the state. The figures are not official.
