This conference has been developed to build a shared understanding of the direction of long-term care and provide information on important initiatives in the field. We expect over 500 attendees, including consumers, advocates, providers, and policy-makers. We plan to:

1) Promote awareness of Michigan's implementation plans for the Medicaid Long-Term Care Task Force Report
2) Develop a shared understanding of long-term care economic challenges and opportunities
3) Provide information on national perspectives for long-term care reform
4) Share information on promising practices in long-term care arising from national and state initiatives, including Michigan's Real Choice Systems Change Grants

State & federal perspectives on long-term care issues

- **Janet Olszewski**, Director, Michigan Department of Community Health (invited)
- **Jackie Garner,** Region V Director, Centers for Medicare and Medicaid Services (invited)
