Steve –

Please find attached the sampling plans referred to in Liz's approval document below. These sampling plans reflect the DEQ's recommendations to resolve issues with the subject plans. Please contact us if you would like to discuss alternative changes to the plans.

Thank you,

Al

Subject: Dow MAS - Final Approval with Modifications for Additional 2013 Work - MID 000 724 724
Importance: High

Steve,

The Department of Environmental Quality (DEQ), Office of Waste Management and Radiological Protection (OWMRP), has completed review of the Additional Work Proposed for 2013, Midland Area Soils Project (2013 Additional Work), which is dated September 17, 2013. In addition, we have reviewed the proposed modification to the 2013 Additional Work that is dated October 7, 2013. The DEQ granted partial approval of this work on September 25, 2013, so that Dow could begin contacting residents for sampling access.

The DEQ is granting final approval with modifications of the 2013 Additional Work in accordance with the conditions of the approved June 1, 2012, Interim Response Activity Plan Designed to Meet Criteria for Midland Area Soils and as described in the September 17, 2013, memo and October 7, 2013, modification.

The following sampling plans need to be modified and are not yet approved. A separate email with figures that show the necessary modifications to the sampling plans for these locations will be sent by my staff shortly.

- 337 Lemke Street
- 3119 Beech Street
- 833 Waldo Avenue
- 2209 Swede Avenue
- 401 Waldo
- 505 East Carpenter

Should you have any questions regarding this approval, please contact Ms. DeLores Montgomery, Chief, Hazardous Waste Section (HWS), OWMRP, at 517-284-6565 or montgomeryd1@michigan.gov; or Mr. Al Taylor, HWS, OWMRP, at 517- 284-6573 or taylora@michigan.gov; or at DEQ/OWMRP, P.O. Box 30241, Lansing, Michigan 48909-7741; or you may contact me.
