Affordable Care Act Forums:

What health insurance changes can families anticipate from the Affordable Care Act? Michigan F2FHIEC will be hosting an Affordable Care Act Forum:

June 14, 2012
1:00 PM – 3:00 PM

Traverse Area Association of Realtors

Traverse Area Association of
Realtors conference room
852 S. Garfield Avenue
Traverse City, MI 49686

This two-hour session will offer practical, basic information about anticipated changes in accessing health insurance benefits, the requirement to buy health insurance (sometimes known as the "individual mandate"), who will be eligible for financial help to pay premiums, what will be covered through health insurance, and purchasing health insurance through an exchange. In addition, we'll talk about Medicaid expansion under the Affordable Care Act and the issues currently being decided by the United States Supreme Court. The Power Point presentation, handouts, and discussion are designed to supplement what you already know about this law. An interactive approach and conversation will be used to share information based on the needs of participants.

Kathy Neville will be the presenter and facilitator for this session. Since 1987, she has worked as an insurance advocate for families with children with developmental disabilities and other special needs who are seeking in-home services and supports through private insurance or publicly funded resources. She works under contract with the publicly funded mental health system.
