MICHIGAN
Medication Emergency Dosing and Intervention Cards
MI-MEDIC

The following three continuing education modules are provided for every paramedic in the State of Michigan. The Michigan Department of Community Health EMS division is requiring that all Advance Life Support vehicles will carry the new MI-MEDIC cards. The MI-MEDIC cards were developed to assist each ALS provider in pediatric drug administration and the prevention of pediatric medication errors. Inservice education has been developed to assist in the roll out of this new tool. The CE modules are FREE to access and necessary for proper use of the MI-MEDIC cards.

MI-MEDIC was developed by Western Michigan University School of Medicine's Center for EMS, Disaster, and Operational Medicine. Comments or questions, please contact Maria Willoughby-Byrwa (EMSC Coordinator) at Willoughby-byrwam@michigan.gov.

American CME has worked with the Michigan EMS for Children to create this free resource. All three courses are approved for 0.5 lecture credits each.

Required Continuing Education Courses — Live: November 2014

The 3 MI-MEDIC inservice courses are:

1. **The Realities of Pediatric Medication Administration in EMS (0.5 lecture credits)**

Introduction to the MI-MEDIC:

2. **Medication Emergency Dosing and Intervention Card PART 2 (0.5 lecture credits)**

Where to find the required education

Go to www.AmericanCME.com

1. **Login or create an account**
2. **Select a course on the "Medical CE's" page (see above for course titles)**
3. **Watch the video module**
4. **Take a 10-question quiz for assessment**
5. **Take a quick survey to provide feedback**
6. **Print or save your certificate**

Does American CME offer accounts for entire EMS agencies or Fire Departments?

YES! Agency accounts are also free to set up and simple to use. EMS administrators have the ability to access all personnel training certificates to streamline training records. Setting up your agency account is as simple as filling out our Agency Account Excel spreadsheet and emailing it to us. From there, we do the rest and your entire organization will be up and running within 24 hours. americancme@americancme.com

MI-MEDIC Cards

This project was supported in part with funding from the U. S. Department of Health and Human Service (HHS) Health Resources and Services Administration (HRSA), EMS For Children State Partnership Program
