SUBJECT: Green Project Reserve (GPR) Determination
County Farm Park Streambank Stabilization
SRF No. 5469-01

The County Farm Streambank Stabilization project is a categorical Green Project. It is a green stormwater infrastructure project the stabilizes the streambank with bioengineering practices, establishes and restores a permanent riparian buffer, floodplain, and three wetland areas on the County Farm Park Drain. These practices are designed to mimic the natural hydrologic conditions of the site.

The cost of the project's green components are $694,101, based on the as-bid amount. The total loan amount is $825,000. The GPR forgiveness amount is $412,500.
