Act 287 requires each registered shelter to annually report specific animal statistics for the prior year by March 31 of the following year. The statistics are only a portion of the records that shelters are required to keep for at least two years. Therefore, the reports are not individually validated.

The annual report statistics focus on:

- Animal types (e.g. dogs or cats)
- Age (e.g. puppy vs. adult dog)
- If the animal was spayed or neutered at the time of adoption
- Adoption totals
- Animals transferred to other registered shelters
- Animals reunited with their owners
- Animals that were euthanized

As the report contains only part of the much bigger picture at an animal shelter, MDARD often receive questions about the reports. Here are some of the most common questions in the hopes of clarifying what the reports can or cannot tell you about a shelter's activities:

**Q**: My county's animal shelter has reported it adopted out 350 dogs to new owners, but the report lists the county only took in 310 dogs. How can the shelter adopt more dogs than it took into the shelter?

**A**: There can be several explanations, because the report is not a complete inventory of animals at the shelter:

- The number of dogs that were at the shelter on December 31 do not become "intakes" on January 1 of the next year.
- One dog might have several statistics at a shelter depending on how their recordkeeping system and software handles transactions. A dog may get adopted and subsequently returned as it doesn't get along with the adopter's cat. That same dog may then get transferred to another registered shelter where there is a better chance of it finding a new home. These movements could all be tallied in different columns for the same dog.

**Q**: What is the difference between the statistics for shelter animals euthanized and owner requested euthanasia?

**A**: Shelters are required to annually report the total number of each kind of animal euthanized each year. Many shelters provide humane euthanasia services to members of their communities. The report form allows a shelter to choose to break out the total number of animals euthanized into these two categories.

**Q:** How can I find out what the euthanasia statistics represent for my community shelter?

**A:** The policies and protocols used regarding euthanasia are developed at the shelter level. You need to contact the shelter and ask about their policies and protocols regarding which and when animals are euthanized.

**Q:** Where are animals that are transferred to animal rescue organizations recorded on the annual report form?

**A:** If the animal rescue organization operates an animal shelter, the animals are recorded under “Other Disposition” as animals “Transferred to Shelters.” Both shelters should be registered my MDARD. If the animal rescue organization does not operate an animal shelter and for example has several foster homes where people keep the dogs or cats in their home with their own children and pets, the animals are recorded as “Adoptions.”

**Q:** If I have more questions, how can I find the answers?

**A:** If you have a question about the choices, policies, procedures, personnel, and other day-to-day aspects of operating the shelter, contact the shelter directly.

If it is an animal control shelter operated by a county, city, or other municipality the shelter is in a municipal department. If it is an animal protection shelter operated by a nonprofit, there may be a board of directors for the private organization.

If you have a regulatory question about animal shelters, please contact MDARD at 800-292-3939 or animalshelters@michigan.gov.

Optional Comments

We took in fewer kittens this year than in past. Typically we are at around 40% kittens, but this year kittens were only 30% of intake. We did not do TNR 10 2020 but look to resume again in 2021. Lord willin' and the creek don't rise!

Optional Comments

3 cats and 1 dog that came into the shelter already dead - they are included in the intake numbers but not in any of the above outcome numbers. We also have 5 dogs that came into the shelter in 2020 that are included in the intake numbers but are still here at the shelter so they are not included in the outtake numbers.

Optional Comments

* The organization we use to fix our animals, All About Animals, was closed due to the COVID pandemic in late March and April 2020. All animals not fixed before adoption were fixed by owners after adoption.
**Severely ill cat was transported to a veterinary clinic. The Veterinarian and Animal Control Officer made the decision that the cats quality of life was depressed to the point that euthanization was the only humane decision.

Optional Comments

Euthanasias are only for Quality of Life. Puppies/Kittens <4 months old are sent home with deposits and we require proof of sterilization. A select few cats/dogs are deemed medically unfit by our vet to be spayed/neutered due to age/health conditions. Due to COVID veterinary closures, a number of dogs were sent home prior to being sterilized but have now ALL been altered by our vets; COVID cases are not included in our "not altered" adoption numbers.

Optional Comments

2020 was a very difficult year for us as we had to lay off two employees and one retired so we only had two employees to handle everything else. We purposely cut down on cat intakes because we physically could not handle everything with only two employees.

Optional Comments

Michigan Humane is a system of 4 shelters that engages in intra-agency transfers. MDARD has mandated that each facility submit an individual report. This results in skewed data. For aggregate MH statistics, please go to www.michiganhumane.org. Transfers include return to field programs. Business_Intelligence@MichiganHumane.org

[1] Per MCL 287.331(d), report LIVE "animals"; specifically rodents, mammals except livestock as defined in Act 284 of 1937.
[2] Per MCL 287.339a, only LIVE animals that are sold get reported in this category. Do NOT include dead animals, carcasses that are sold for research, or road kill.
[3] Per MCL 287.338a(7), shelter animals may ONLY be transferred to other REGISTERED SHELTERS, law enforcement agencies, and certain service organizations. All other transactions are ADOPTIONS.
[4] Per MCL 287.339a shelters must report the number of animals by category they euthanize each year. If you are separately reporting shelter and "owner requested" animals, then you MUST indicate below whether the number of "owner requested" euthanized animals are also included in your intake numbers.
