IT Staff Augmentation— VMS

The State of Michigan has selected Acro Service Corporation (Acro) to provide a web-based Vendor Managed System (VMS) for handling the IT temporary staffing needs for the Department of Technology, Management, and Budget.

Vendors wishing to supply IT staff augmentation services to the State will be required to enter into a subcontractor agreement with Acro—after which they will be provided training, documentation, and access to use Acro's system to receive and respond to new staffing requests from the State electronically.

Further details about Acro, sign-up documents, and contact information can be found on the web at www.acrocorp.com/acrosom, pictured below.
