
The school district boundaries displayed on this map were created as a result of a Boundary Adjustment Project (completed April 2004) - the boundaries were based on Tiger/Line 2000 Census Boundaries (TIGER), the Michigan Center for Geographic Information (CGI), and the U.S. Census Bureau, in conjunction with each school district and intermediate school district (ISD) that participated in the project. Boundaries written by the district or via voluntary print all the school districts displayed may or may not have participated.

Information provided is accurate to the best of our knowledge and contained in things as a regular basis. Information is provided "as is" and without guarantee. It is provided useful and accurate information. We do not warrant the information to be authoritative, complete, factual, or timely. Information represented as an "area" and as "approximate" lines. The State of Michigan shall not be liable for any loss, or damage resulting from the use and application of any of the contents of this map.

Please feel free to contact CGI with questions regarding the boundary mapping process. However, it should be noted that school districts are responsible for their own boundary determinations and maintaining their school boundaries. If you believe that there may be an error in a boundary, please contact the affected school districts and ISD(s) for clarification and possible resolution. CGI will welcome the opportunity to incorporate authorized boundary changes into our map information when received.
