
The school district boundaries displayed on this map were created as a result of a boundary adjustment project during the school year 2004. The boundaries were created by the Michigan Center for Geographic Information (MCGI) and the U.S. Census Bureau, in conjunction with each school district and intermediate school district (ISD) that participated in the project. Districts or entities that chose not to participate in the project, or whose boundaries displayed may or may not have participated.

Information provided is accurate to the best of our knowledge and contained in the files as a digital representation of the boundaries of each school district. It is provided useful and accurate information. We do not warrant the information to be authoritative, complete, factual, or timely. Information represented as an "area" and an "approximation" basis. The State of Michigan and its agents, shall not be liable for any damage incurred as a consequence, indirectly, or directly, resulting from the use and application of any of the contents of this map.

Please feel free to contact CGI with questions regarding the boundary mapping process. However, it should be noted that each school district is responsible for its own boundaries and decisions which affect boundaries. If you believe that there may be an error in a boundary, please contact the affected school districts and ISD(s) for clarification and possible resolution. CGI will welcome the opportunity to incorporate authorized boundary changes into our map information when received.
