
The school district boundaries displayed on this map were created as a result of a boundary project that was jointly funded by the Michigan Department of Education (MDE), the Michigan Center for Geographic Information (CGI), and the U.S. Census Bureau, in cooperation with each school district and intermediate school district (ISD) that participated in the project. Data that is written to the statistics are voluntary and all the school districts displayed may or may not have participated.

Information provided is accurate to the best of our knowledge and contains footnotes on a regular basis. Users should be aware that errors and other inaccuracies in this data are inevitable. Therefore, do not use this information to be authoritative, complete, factual, or timely. Information represented as an "area" and as "approximate" boundaries. The State of Michigan, its agencies, officers, employees, and agents disclaim all responsibility, liability, and damage resulting from the use and application of any of the contents of this map.

Please feel free to contact CGI with questions regarding the boundary mapping process. However, it should be noted that each individual school district is responsible for determining its own school boundaries. If you believe that there may be an error in a boundary, please contact the affected school districts and ISDs to clarify and provide resolution. CGI will welcome the opportunity to incorporate authorized boundary changes into our map information when received.
