
The school district boundaries displayed on this map were created as a result of a boundary adjustment process conducted during April 2004 - The Michigan Department of Education (MDE), the Michigan Center for Geographic Information (CGI), and the U.S. Census Bureau, in conjunction with each school district and intermediate school district (ISD) that participated in the process. Districts in which no final statutory or voluntary joint all the school districts displayed may or may not have participated.

Information provided is accurate to the best of our knowledge and contained in images on a regular basis. Information is provided "as is" and is offered to provide useful and accurate information. We do not warrant the information to be authoritative, complete, factual, or timely. Information represented on an "actual" and an "approximate" basis. The State of Michigan, its agencies, officers, employees, and agents shall not be liable for any damage resulting from the use and application of any of the contents of this map.

Please feel free to contact CGI with questions regarding the boundary mapping process. However, it should be noted that as a boundary adjustment process, CGI is not in a position to determine what school boundaries, if any, are appropriate. If you believe that there may be an error in a boundary, please contact the affected school districts and ISDs to clarify and resolve the issue. CGI will welcome the opportunity to incorporate authorized boundary changes into our map information when received.
