The comparison shows that a savings of approximately $10,000.00 per year could be achieved if an agency would change its use of the Regatta 2 to Integrity and Wrangle RT/S to Conquest. All of these options are currently available on the contract. No change is made to the contract as a result of this suggestion.**

TOTAL REVISED ESTIMATED CONTRACT VALUE: $6,673,099.55

REGATTA 2 VS. INTEGRITY

dept	prod code	tire info	units	cost per tire	mileage rating	cost per 1,000 miles
7925	187117026	P205/70R15 95S S1 REGATTA 2 X RPTL	377	$ 39.68	75,000	$ 0.53
7925	402117436	P205/70R15 95S S1 INTEGRITY X RPTL	176	$ 31.78	50,000	$ 0.64

If dollars savings they could switch all higher priced tires (like switching from Regatta's into Integrity's). An example of cost savings on this same example is below:

dept	prod code	tire info	units	cost per tire	units x cost per tire	
7925	187117026	P205/70R15 95S S1 REGATTA 2 X RPTL	377	$ 39.68	$ 14,959.36	
7925	402117436	P205/70R15 95S S1 INTEGRITY X RPTL	176	$ 31.78	$ 5,593.28	
					$ 20,552.64	
7925	402117436	P205/70R15 95S S1 INTEGRITY X RPTL	553	$ 31.78	$ 17,574.34	
					$ 2,978.30	savings

WRANGLER RTS VS. CONQUEST AT

dept	prod code	tire info	units	cost per tire	UTQG rating
7941	749353434	LT245/75R16 E WRL RT/S OL BSLRP	431	$ 77.59	340 rating
7941	753429102	LT245/75R16 120/116P E CONQUES ATB03TL	529	$ 59.28	320 rating

There is no mileage rating on these tires - the Uniform Tire Quality Grade Rating (UTQG Rating*) shows that against the control tire on the government test course. Example: if the control tire rated at 100, a tire rated 340 would wear 3.4 times longer than the control tire. A tire rated 320 would wear 3.2 times longer than the control tire.

Example below - switching the Wranger RTS's into the Conquest AT's

dept	prod code	tire info	units	cost per tire	units x cost per tire	
7941	749353434	LT245/75R16 E WRL RT/S OL BSLRP	431	$ 77.59	$ 33,441.29

By doing so, the Contractor warrants the product(s) as at least functionally equivalent to the bid specifications. "Recovered material" is defined as post-consumer waste (any product generated by a business or consumer which have served their intended end use, and which have been separated or diverted from solid waste for the purpose of collection, recycling, and disposition) and secondary waste (industrial by-products as in wastes generated after completion of a manufacturing process that would normally not be reused).

Police Tires	2.9%
Radial Light Truck	3.0%

SPECIFICATIONS

Definite Specifications - All commodities and services to be furnished hereunder shall conform to the specifications as noted the Contract and/or copies of specifications attached.

The State will use standards such as the current issues of the Cooperative Approved Tire List (CATL-1922 & 1923) and the Consumers Guide to Uniform Tire Quality Grading published by the U.S. Department of Transportation, to determine quality acceptance.. Tires must be listed in these references to qualify for consideration with the following exception. If tires offered have been approved by CATL, but were not included in the current publication, we will consider the tires acceptable if the contractor has provided documentation of approval by CATL to the Office of Purchasing.

PRICE

The Prices quoted are the maximum for a period of 365 days from the date the contract becomes effective.

Prices may be subject to revision at the end of each 365 day period if there are changes in the general industry. Revisions may be either increases or decreases and may be requested by either party. Evidence of general industry changes, such as revised printed price lists or notices, and evidence that the change actually affected the Contractor's costs for materials must accompany the request. Requests for price changes shall be received in writing at least thirty (30) days prior to their effective date and are subject to written acceptance before becoming effective. If proposed prices are not acceptable to either party, the contract may be cancelled. The Contractor remains responsible for performing according to the contract terms at the contract price for all orders received before price revisions are approved or before the contract is cancelled.

The postmark date on the Contract Release will determine prices to be charged on orders (requesting a single shipment to be delivered prior to the effective date of the price revision) which may already be in transit to the Contractor prior to the new price implementation date. Orders issued by agencies requesting multiple deliveries, over a specified period of time, which may overlap two price periods, shall reflect the current price at the time of delivery.

MINIMUM ORDER

The minimum order is one (1) unit.

The distribution/sales outlets must be able to provide contracted tires at the contract price. They must also be able to provide installation including mounting and balancing. These services shall be provided at prices that do not exceed the supplier's usual and customary prices.

It is understood that the contractor may not have adequate distribution and service coverage for every possible user location. It is also understood that the contractor may not have adequate stock for every immediate user need. Therefore, the State of Michigan reserves the right to buy that product from a alternate source if it is not readily available or at a reasonable distance from the user.

In order to facilitate the issuance of orders and payments that are not invoiced under the MAP Program individual authorized sales and service centers will need to establish their own mail code under the primary contractors Michigan Bidder Registration.

This will only be required when orders are issued directly to individual authorized sales and service centers, by the state or local units of government.

WARRANTIES

Limited Warranty pages for State and Local Government accounts are part of Goodyear's Federal Open Market & Net State Price List, dated February 1, 2001, which is applicable to this contract.

ELECTRONIC INVOICING

It is understood that products purchased under this program are for the exclusive use of State of Michigan vehicles throughout the useful life of the tire and or tube.

The Wheels/Maintenance Assistance Program (MAP) maintains the State of Michigan's vehicles for the DMB, Vehicle Travel Services Division. There are approximately 11,000 vehicles enrolled in this program.

It is the preference of the State of Michigan that all billings and payments be coordinated as a central account on a direct basis with the tire manufacturer for all purchases of tires and tubes. Authorized local units of government, however, may make payments directly to the local distributors/service locations based upon the discretion of the primary contractor.

Any product or services purchased, which are not part of the Wheels/MAP program (vehicles which are identified by license plates beginning with 03, 04 and 11) will continue to be billed directly to the agency by the local dealer or store. If in this third party billing arrangement, the third party does not pay the Supplier, the State of Michigan accepts responsibility for payment of tires, tubes and related services for properly identified state vehicles.

For vehicles not covered under the Wheel/MAP program the driver will be responsible to obtain authorization from the *appropriate* State agency before proceeding with the purchase.

A Maintenance Assistance Program guide will identify all eligible Wheel/MAP vehicles. The supplier will call Wheel/MAP for an authorization number. If the vehicle is covered under the Wheels/Map program, the outlet will be given an authorization number and specific ship to address. The Supplier will bill MAPS Inc., who in turn will bill the State of Michigan. The bill to address will be as follows;

MAP Inc.
P.O. Box 2897
Des Plaines, IL 60017-2897

All tubes and tires will be billed at Contract pricing while non contract product and services will be billed at the current best Government Account Rate.

After the contract award all questions from State agencies, Drivers, and Supplier dealers and/or stores should be directed to the Department of Management and Budgets Vehicle and Services Division @ 517-322-5000.

NON LISTED CATALOG ITEMS

The percentage of discount applied to the items in a given group shall also be given to non listed catalog items within the same group, though they were not specifically shown in the item listing.

The Contractor may offer "Net Price Rates" on individual line items with a discount rate that differs from other items with the group. The discount rate of the "Net Price Rate" items must be greater than or equal to the discount rate offered on non-net priced items within the group.

Goodyear's Federal Open Market & Net State Price List, February 1, 2001

NON-STATE AGENCY REQUIREMENTS

Act Number 431 of the Public Acts of 1984 permits the State of Michigan, Department of Management and Budget, to provide purchasing services to any city, village, county, township, school district, intermediate school district, non-profit hospital, institution of higher education, community, or junior college. As a result of the enactment of this legislation, we have developed an Extended Purchasing Program. This programs extends the use of state contracts to local units of government. The governmental agency must enter into an agreement with the State of Michigan to become authorized to participate. Our major objective is to insure that local units of government secure a greater return for the expenditure of public funds.

Inasmuch as these are non-state agencies, all purchase orders will be submitted by, invoices will be billed to, and payment remitted by authorized local units of government on a direct and individual basis in compliance with contract terms and conditions. Orders received from non-approved local units of government shall not be considered unless prior approval is granted by DMB-Office of Purchasing.

All contracts shall be available for purchases by authorized local units of government. Therefore, all contractors shall honor orders on all contracts from State of Michigan authorized local units of government.

Estimated requirements for authorized local units of government were included in the quantities shown on the attached Invitation to Bid.
