3/3/16

Dear Boundary Commission,

I am a concerned citizen of Lapeer Township regarding Docket Number 15-AP-03 the property off Baldwin Rd wanting to build there.

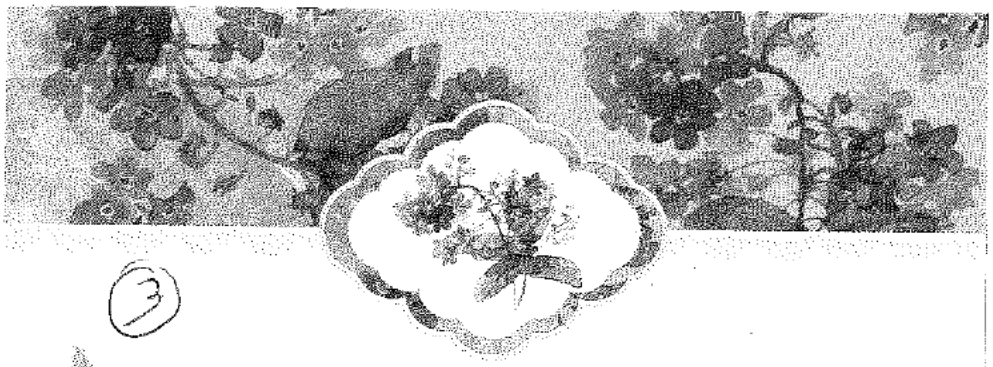
The traffic on Baldwin Rd. is very heavy now. We have many children that live along Baldwin Rd. on both sides. There are handicapped people in wheelchairs, there are children who live right across from the projected Road sight that have an autistic child plus 2 other children, other homes on the

②

Baldwin Rd. area have children also. It is a dangerous situation.

There is property available near this area that is already zoned commercial and has water and sewer on it. This property is located at M-24 Turrill Rd and I-69. this would be ideal for your project.

The effect of looking at your structure from our homes would indeed be horrible. A traffic light at Baldwin & Alice would be terrible to see, especially in an area which is not a commercial area & hope it would not be.



(3)

The additional noise and light pollution would be devasating.

We hope you consider looking for another area for your project because your suggested area is not appropriate.

Sincerely,

Linda A. Helfer
