

**MICHIGAN DENTAL ASSOCIATION EFFORTS ON
MEMBERSHIP PARTICIPATION IN MEDICAID**

In compliance with section 1109(3) of Public Act 159 of 2003, the Michigan Dental Association is providing the following report on efforts to increase its membership's participation as Medicaid providers.

Effective October 1, 2003, the dental benefit for adults enrolled in Medicaid was eliminated. The MDA is committed to working with its membership – as well as with legislators and the administration - to assure adequate participation by dentists if/when that benefit is restored.

In the meantime, MDA and its members will continue their commitment to other dental programs, such as Healthy Kids Dental, currently available to eligible Michigan citizens.
