Mr. Jeff Troyer, Chair
State 911 Committee
7150 Harris Drive
Dimondale, MI 48821

Re: SB400 and HB4651

Dear Mr. Troyer,

I am writing on behalf of the Van Buren County 911 Advisory Board in regard to SB400 and HB4651, which propose a legislative amendment to provide critical funding for Next Generation 911 (NG911) and related IP infrastructure.
At a regularly scheduled VBCO 911 Advisory meeting on July 12, 2017 the membership agreed to support this effort and the proposed bills. We further recommended to the Van Buren County Board of Commissioners to pass a resolution of support of this legislative effort and both bills.
The Van Buren County 911 Advisory Board recognizes that the future success of providing adequate 911 services is dependent upon providing and maintaining a reliably robust network and infrastructure. We look forward to working with our local community leaders and legislators regarding the support of SB400 and HB4651.
Please do not hesitate to contact either myself or Van Buren County 911 Director, Tim McGee regarding this support.

Sincerely,

Randall Peat

Randall Peat, Chairman
Van Buren County 911 Advisory Board
