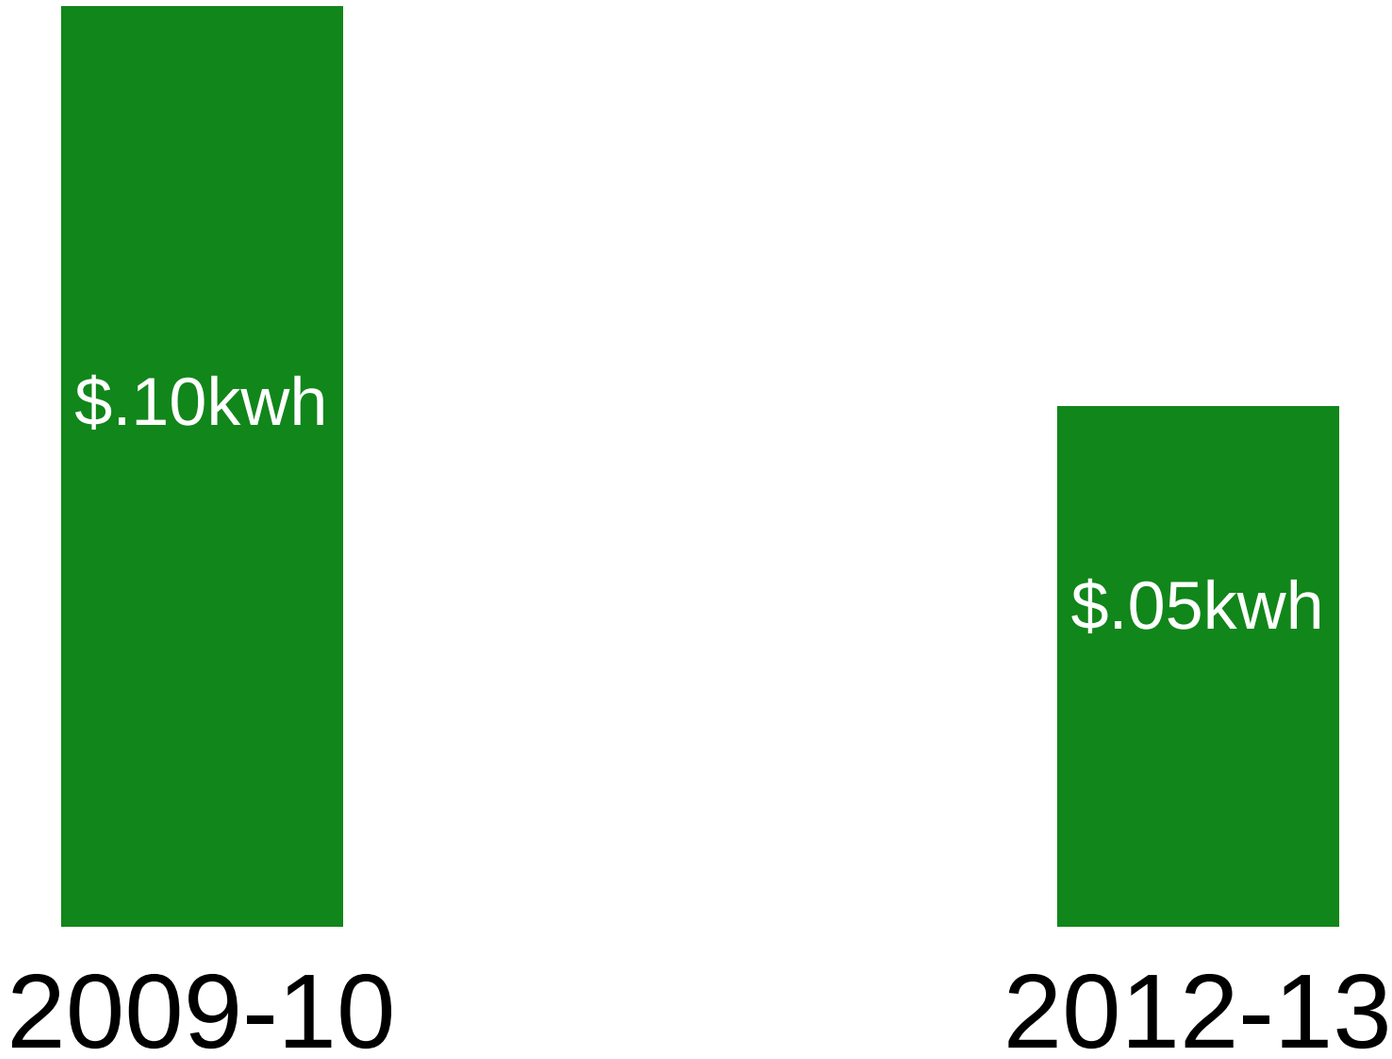
Wind Energy in Michigan - Costs Plummeting



"The most recent contracts approved by the Commission for new wind capacity have levelized costs in the $52 per MWh range which is about 10 percent less than the cheapest levelized contract prices from a year ago and half of the levelized cost of the first renewable energy contracts approved in 2009 and 2010."

Michigan Public Service Commission Feb. 15, 2013

Astraeus Wind Energy
Eaton Rapids, MI

“For every dollar spent on energy optimization, ratepayers see a return of over $3.55 in avoided energy costs”

Michigan Public Service Commission Feb. 15, 2013
