The Wheels/Maintenance Assistance Program (MAP) maintains the State of Michigan's vehicles for the DMB, Vehicle Travel Services Division. There are approximately 11,000 vehicles enrolled in this program.

It is the preference of the State of Michigan that all billings and payments be coordinated as a central account on a direct basis with the tire manufacturer for all purchases of tires and tubes. Authorized local units of government, however, may make payments directly to the local distributors/service locations based upon the discretion of the primary contractor.

STATEWIDE TIRE CONTRACT #071B2001211

Any product or services purchased, which are not part of the Wheels/MAP program (vehicles which are identified by license plates beginning with 03, 04 and 11) will continue to be billed directly to the agency by the local dealer or store. If in this third party billing arrangement, the third party does not pay the Supplier, the State of Michigan accepts responsibility for payment of tires, tubes and related services for properly identified state vehicles.

For vehicles not covered under the Wheel/MAP program the driver will be responsible to obtain authorization from the *appropriate* State agency before proceeding with the purchase.

A Maintenance Assistance Program guide will identify all eligible Wheel/MAP vehicles. The supplier will call Wheel/MAP for an authorization number. If the vehicle is covered under the Wheels/Map program, the outlet will be given an authorization number and specific ship to address. The Supplier will bill MAPS Inc., who in turn will bill the State of Michigan. The bill to address will be as follows;

*MAP Inc.
P.O. Box 2897
Des Plaines, IL 60017-2897*

All tubes and tires will be billed at Contract pricing while non contract product and services will be billed at the current best Government Account Rate.

As a result of the enactment of this legislation, we have developed an Extended Purchasing Program. This programs extends the use of state contracts to local units of government. The governmental agency must enter into an agreement with the State of Michigan to become authorized to participate. Our major objective is to insure that local units of government secure a greater return for the expenditure of public funds.

Inasmuch as these are non-state agencies, all purchase orders will be submitted by, invoices will be billed to, and payment remitted by authorized local units of government on a direct and individual basis in compliance with contract terms and conditions. Orders received from non-approved local units of government shall not be considered unless prior approval is granted by DMB-Office of Purchasing.

All contracts shall be available for purchases by authorized local units of government. Therefore, all contractors shall honor orders on all contracts from State of Michigan authorized local units of government.

Estimated requirements for authorized local units of government were included in the quantities shown on the attached Invitation to Bid.
