Auger Drive & Bit Recommendations

12PH/14PH Augers—Recommended bit size 6" – 18"
20PH/25PH—Recommended bit size 6" – 30"

Auger bit combinations should be used as a guideline. Recommendations are based upon average digging conditions. Some combinations may contact machine frame.

***Requires Inset Rims**

Note: Combination Buckets are not approved for use with the Tilt-Tatch.

Note: Combination Buckets may interfere with tracks at extreme roll-back position on some loaders. Use of lift-arm stop is required if this occurs.

Note: It is recommended that a port relief be installed for use with the Combination Buckets except when used on a 463, S70, S100, T100 or MT. Installation instructions are included in the Operation Manual. Order the following from Bobcat Parts.

- 6684646 Port relief (4000 psi) – for M-Series loaders, S450/T450 and larger
- 6684645 Port relief (3500 psi) – for G-Series through K-Series loaders with one-piece control valves (started April 2004)
- 6678574 Port relief (3500 psi) – for F-Series & G-Series loaders until April 2004

Note: Older loaders listed below will require the following parts, which must be ordered separately from Bobcat Parts.

- 6513594 Port Relief (for 740s with Gresen Valve)
- 6514641 Port Relief (for 843s with Cessna Valve)
- 6658127 Check Valve (for 853s with Apitech Valve)

Pallet Forks

A new ordering method will be required for bundles of buckets and pallet forks. Instead of ordering a different part number for a bundled product, you will simply use the single part number and the 'Change Quantity' box in OSS to order the quantity that meets the requirement for a bundle discount. The OSS order system will help step you through it and alert you if the product you are ordering can be bundled, what quantity needs to be ordered to get the discount, and what the discounted price will be.

Note on use of poly fill tires and other non-pneumatic tires with steel tracks

Only pneumatic tires and tires with Superflex formula poly fill manufactured by Arnco are permitted for use inside steel tracks. Bobcat factory poly-filled tires meet this requirement. All other tires including Bobcat Solid Tires (Twin Flex, Smooth Flex, Smooth Solid, etc.) are considered non-approved. The use of non-approved tires will void the loader and track warranties. For more information, see service letter #5010 dated 15 July 2002.

A new ordering method will be required for bundles of buckets and pallet forks. Instead of ordering a different part number for a bundled product, you will simply use the single part number and the 'Change Quantity' box in OSS to order the quantity that meets the requirement for a bundle discount. The OSS order system will help step you through it and alert you if the product you are ordering can be bundled, what quantity needs to be ordered to get the discount, and what the discounted price will be.

Contractl No. 250000000221

Agricultural, Grounds, Turf, Earth Moving, and Roadside Maintenance Equipment

SCHEDULE B
SPECIFICATION PRICING

1. The Contractor must provide a pricing schedule for the proposed Contract Activities using Microsoft Excel. The pricing schedule should be submitted in a modifiable format (e.g.. Microsoft Word or Excel); however, you may also submit an additional pricing schedule in a non-modifiable format (e.g., PDF). Failure to complete the pricing schedule as requested may result in disqualification of your proposal.

2. Price proposals must include all costs, including but not limited to, any one-time or set-up charges, fees, and potential costs that Contractor may charge the State (e.g., shipping and handling, per piece pricing, and palletizing).

3. The Contractor is encouraged to offer quick payment terms. The number of days must not include processing time for payment to be received by the Contractor's financial institution.

   Quick payment terms: _____ % discount off invoice if paid within _____ days after receipt of invoice.

4. By submitting its proposal, the Contractor certifies that the prices were arrived at independently, and without consultation, communication, or agreement with any other Contractor.

5. All items below for PURCHASE shall be evaluated based on a single purchase at each prosperity region (13 single purchases). If delivery pricing is per mile, the delivery cost shall be calculated from the nearest dealer location to the estimated central location of each region. Mileage is calculated one way.

a). (Purchase price **x** 13) **+** (Delivery cost at all 13 prosperity regions) **+** (13 Hours of training) or

b). (Purchase price **x** 13) **+** (Mileage rate **x** mileage from nearest dealer to each estimated central prosperity region) **+** (13 Hours of training)

6. All items below for RENTAL shall be evaluated based on a combination of a single daily, weekly, and a monthly rental in each prosperity region. Delivery and pickup shall be calculated for each single rental (13 x 3 = 39 single purchases). If delivery/pickup pricing is per mile, the delivery/pickup cost shall be calculated from the nearest dealer location to the estimated central location of each region. Mileage is calculated one way for each pickup and delivery.

a). (Daily rental price **x** 13) **+** (Delivery and pickup cost at all 13 prosperity regions) **+** (Weekly rental price x 13) + (Delivery and pickup cost at all 13 prosperity regions) + (Monthly rental price x 13) + (Delivery and pickup cost at all 13 prosperity regions) or

b). (Daily rental price **x** 13) **+** (Delivery and pickup mileage rate **x** mileage to and from nearest dealer to each estimated central prosperity region) **+** (Weekly rental price **x** 13) + (Delivery and pickup mileage rate **x** mileage to and from nearest dealer to each estimated central prosperity region) **+** (Monthly rental price **x** 13) **+** (Delivery and pickup mileage rate **x** mileage to and from nearest dealer to each estimated central prosperity region)

7. ***Refer to "Standard Contract Terms", section 7, regarding administration fee.***
