MEMORANDUM

TO: Local/Private Elementary School and Public School Academy Principals

FROM: Mike Flanagan, Superintendent of Public Instruction

SUBJECT: Additional Training for 2006-2007 Michigan Blue Ribbon Exemplary Schools Program - Elementary School Cycle

The Michigan Department of Education has conducted the Blue Ribbon Exemplary Schools Award Program for over 23 years. The program's purpose is to recognize highly effective schools throughout the state. The 2006-2007 Michigan Blue Ribbon Exemplary Schools Award Program is open to both public and private elementary schools who meet extremely high standards and undergo a rigorous peer review. Schools that have met the AYP requirement and received an A or B grade on their 2005-2006 report card are eligible to apply.

There are two very good reasons why a school building should consider this process:

1. Self-reflection: Research in the area of school improvement has shown that schools with a common vision are successful in increasing student achievement. The Blue Ribbon process is very effective in assisting schools to focus their efforts and vision.
2. Recognition: The program is designed to provide program analysis, a peer review, and an on-site visitation at no additional external cost to the district. Furthermore, selected school buildings receive state recognition for their efforts.

The major components that qualify a school for state recognition are: 1) the school staff has developed a number of exemplary programs, and 2) the school's performance indicates success.
