## Agrichemical Storage Facility Registration Application

License Year Ending: \_\_\_\_\_ Status:  New  Renewal  No Longer Needed  
 No Changes  
 Changes attached

### Facility Information

Facility Name: \_\_\_\_\_  
Facility Address: \_\_\_\_\_  
City: \_\_\_\_\_ State: \_\_\_\_\_  
County: \_\_\_\_\_ Zip: \_\_\_\_\_  
Business Phone: (\_\_\_\_) \_\_\_\_\_ Business Fax: (\_\_\_\_) \_\_\_\_\_  
Business Email: \_\_\_\_\_  
Mailing address if different from above: Street or P.O. Box: \_\_\_\_\_

Blank Space  
For Official Use Only

City: \_\_\_\_\_ State: \_\_\_\_\_ County: \_\_\_\_\_ Zip: \_\_\_\_\_

### Emergency Information

Manager/Operator Name \_\_\_\_\_ Phone: (\_\_\_\_) \_\_\_\_\_  
Second Contact Name: \_\_\_\_\_ Phone: (\_\_\_\_) \_\_\_\_\_

### Type of Storage (Check all that apply)

Bulk Liquid Pesticide  Minibulk Liquid Pesticide  Bulk Dry Pesticide  
 Bulk Liquid Fertilizer  Bulk Dry Fertilizer

Federal/Tax ID#

### Secondary Containment Information

#### Containment Area 1

Constructed  Under Construction  Proposed  Protected from Precipitation  
Dimensions: Width \_\_\_\_\_ Length \_\_\_\_\_ Curb Height \_\_\_\_\_ Capacity \_\_\_\_\_  
Construction Material:  Concrete  Synthetic liner  Earthen/clay  Other \_\_\_\_\_  
Used for:  Pesticide  Fertilizer

#### Containment Area 2

Constructed  Under Construction  Proposed  Protected from Precipitation  
Dimensions: Width \_\_\_\_\_ Length \_\_\_\_\_ Curb Height \_\_\_\_\_ Capacity \_\_\_\_\_  
Construction Material:  Concrete  Synthetic liner  Earthen/clay  Other \_\_\_\_\_  
Used for:  Pesticide  Fertilizer

Signature: \_\_\_\_\_ Date: \_\_\_\_\_

Please print your name here: \_\_\_\_\_

Title: \_\_\_\_\_

# Agrichemical Storage Facility Registration

## Information and Instructions

**Does my facility need to register?** Yes - if you store bulk pesticides or bulk fertilizers for commercial use.

**Bulk** is defined as the following individual quantities:

- **Liquid Pesticide** - greater than 55 US gallons / **Dry Pesticide** - greater than 100 pounds
- **Liquid Fertilizer** – greater than 2,500 US gallons in an individual quantity **CF** greater than 7,500 US gallons combined total
- **Dry Fertilizer** – greater than 2,000 pounds

### **NEW or PROPOSED Commercial Bulk Storage Facilities**

1. Complete the entire application
2. Attach the Site Plan Information described below
3. The Discharge Response Plan does not need to be submitted, but keep these materials on site. This will be checked for completeness during inspection.

### **RENEWALS** (*Existing Commercial Bulk Storage Facilities*)

**No changes from previous year** -Fill out page 1 and return to MDARD

**If changes** - Fill out page 1, attach any changes and return to MDARD

### **Site Plan Information** (*return the following to MDARD and keep copy at facility*)

1. Map or plot plan of the property that shows:
  - All structures and wells on site (identify containment areas)
  - Precipitation runoff routes to and from the storage facility
  - List approximate distance of any lakes, streams, drainage ditches, storm drains within 0.5 miles of facility
  - Site soil characteristics
  - Depth to ground water
2. Operational plan for containment areas showing:
  - Handling and utilization of recovered: agrichemical materials, rinsewater, precipitation accumulation

### **Follow 3 and 4 only if synthetic liners, synthetic materials, or prefabricated basins are used**

3. For synthetic liners or synthetic materials include: (from the structure manufacturer)
  - Installation instructions
  - Confirmation of compatibility with agrichemicals
4. For prefabricated basins include: (from the structure manufacturer)
  - Estimate of life expectancy of the structure
  - Confirmation of compatibility with agrichemicals

**Discharge Response Plan** (*facility does not have to submit this information to MDARD but MUST keep an updated copy of the following information on site:*)

1. Identities and phone numbers of:
  - Persons or agencies to be contacted in the event of a discharge
  - Persons responsible for the stored agrichemicals
2. Complete copy of the storage container labeling (for each bulk agrichemical)
3. Identification by location of: (*Site Plan information may be used to meet this requirement*)
  - Each bulk storage container at the facility with type of agrichemical within it
  - The general location within the facility where minibulk containers are held
4. For each type of bulk agrichemical at the facility include:
  - Procedures in controlling and recovering, responding to a discharge or spill
5. Procedures to be followed in using or disposing of a recovered discharge or spill
6. Documentation that the local police and fire departments were notified of the existence of the plan
7. Documentation that emergency and discharge response training was given to all new employees within 30 days of employment and on an annual basis with all employees
