The Honorable Marc Shulman, Chair
House Consumer and Industry Services Subcommittee
Michigan House of Representatives
P.O. Box 30014
Lansing, Michigan 48909

Dear Representative Shulman:

In compliance with Section 320 of P.A. 119 of 2001, attached is the Annual Report on the number of individuals killed and the number of individuals injured on the job within industries regulated by the Bureau of Safety and Regulation for the year 2001.

This notification may also be viewed on our web site at the following address:
http://www.cis.state.mi.us/leg_rep.htm. If you have any questions regarding this information, please feel free to contact me at 373-3892.

Sincerely,

A handwritten signature in cursive script that reads "John R. Suckow".

John R. Suckow, C.P.A.
Director, Finance and Administrative Services

REPORT TO THE LEGISLATURE
OCCUPATIONAL INJURIES, ILLNESSES
AND FATALITIES IN MICHIGAN

Developed by the Bureau of Safety and Regulation
Michigan Department of Consumer and Industry Services

February 2002

MICHIGAN OCCUPATIONAL INJURIES, ILLNESSES AND FATALITIES

February 2002

INTRODUCTION

The information that follows is presented in response to Section 320 of Public Act 119 of 2001. This section requires that the Department of Consumer and Industry Services, Bureau of Safety and Regulation, provide an annual report by February 1 of each year “. . . to the state budget office, the fiscal agencies, and the subcommittees on the number of individuals killed and the number of individuals injured on the job within industries regulated by the bureau during the preceding calendar year.”

“PROGRAM-RELATED” FATALITIES

The bureau records “program-related” fatalities. In general this means that the incident related to the fatality may have resulted from a hazard or hazards that occurred based upon a failure to adhere to one or more Michigan Occupational Safety and Health Act (MIOSHA) requirements. There were 58 such fatalities in Michigan during calendar year 2001. (See following table for data and definitions.)

WORKPLACE INJURIES AND ILLNESSES

A complete census of occupational illnesses and injuries for Michigan does not exist. However, the bureau cooperates with the U.S. Bureau of Labor Statistics to sample Michigan’s employers to produce annual estimates of the number of occurrences of work-related illness and injuries. The 2001 survey collected the 2000 illness and injury occurrences of 7,381 Michigan employers of which 5,916 were usable for estimation. The employer sample was stratified by industry and the results were used to project total occurrence estimates. The five-page table that follows the fatality data presents the results. Footnotes at the end of the table provide additional information about the methodology used. The sample excludes self-employed individuals, railroads, selected mining industries and the federal government.

INQUIRIES

Questions about these data may be directed to the MIOSHA Information Division, Bureau of Safety and Regulation, telephone (517) 322-1851.

**MIOSHA Program-Related Fatalities
Calendar Year 2001**

General Industry	30
Construction	28
<hr/>	
TOTAL	58*

*Data is current as of 1/15/02.

Source: MIOSHA Information Division,
Bureau of Safety and Regulation
Michigan Department of Consumer and Industry Services

NOTE: A fatality is recorded as "program-related" if it appears to be related to one or more of the following conditions:

1. The incident was found to have resulted from violations of MIOSHA safety and health standards or the general duty clause.
2. The incident was considered to be the result of a failure to follow a good safety and health practice that would be the subject of a safety and health recommendation.
3. The information describing the incident is insufficient to make a clear distinction between a "program-related" and "non-program-related" incident, but the type and nature of the injury indicate that there is a high probability that the injury was a result of a failure to adhere to one or more MIOSHA standards, the general duty clause, or good safety and health practice.

Table 7. Number of nonfatal occupational injuries and illnesses by industry and selected case types, 2000 -- Continued

Michigan

(In thousands)

Industry ¹	SIC code ²	2000 Annual average employment ³ (000's)	Injuries and illnesses				Injuries			
			Total cases	Lost workday cases		Cases without lost work-days	Total cases	Lost workday cases		Cases without lost work-days
				Total ⁴	With days away from work ⁵			Total ⁴	With days away from work ⁵	
Elementary and secondary schools	821	238.5	7.8	3.5	2.6	4.3	7.7	3.4	2.5	4.3
Public administration		134.7	9.7	5.0	3.8	4.8	9.4	4.8	3.6	4.6
Executive, legislative, and general	91	122.8	9.1	4.6	3.6	4.4	8.7	4.5	3.5	4.2

¹ Totals include data for industries not shown separately.

² *Standard Industrial Classification Manual*, 1987 Edition.

³ Employment is expressed as an annual average and is derived primarily from the BLS-State Covered Employment and Wages program.

⁴ Total lost workday cases involve days away from work, or days of restricted work activity, or both.

⁵ Days-away-from-work cases include those which result in days away from work with or without restricted work activity.

⁶ Excludes farms with fewer than 11 employees.

⁷ Data conforming to OSHA definitions for mining operators in coal, metal, and nonmetal mining and for employers in railroad transportation are provided to BLS by the Mine Safety and Health Administration, U.S. Department of Labor; and the Federal Railroad Administration, U.S. Department of Transportation. Independent

mining contractors are excluded from the coal, metal, and nonmetal mining industries.

⁸ Fewer than 50 cases.

NOTE: Because of rounding, components may not add to totals. n.e.c. = not elsewhere classified.

-- Indicates data not available.

SOURCE: Bureau of Labor Statistics, U.S. Department of Labor, Survey of Occupational Injuries and Illnesses, in cooperation with participating State agencies.
