**RULE 5001 GENERAL REQUIREMENTS IN PULP, PAPER, AND PAPERBOARD MILLS**

(1) General requirements.

(a) Application. This rule applies to establishments where pulp, paper, and paperboard are manufactured and converted. This rule does not apply to logging and the transportation of logs to pulp, paper, and paperboard mills. [1910.261(a)(1)]

(b) Standards incorporated by reference. Standards covering issues of occupational health which have general application without regard to any specific industry are incorporated by reference in this subsection and made applicable to pulp, paper, and paperboard mills under this rule. Such standards shall be construed according to the rules set forth in Rule 1106(3). [1910.261(a)(2)]

(c) General incorporation of standards. Establishments subject to this rule shall comply with the following standards of the American National Standards Institute:

(i) Fundamentals Governing the Design and Operation of Local Exhaust Systems, Z9.2-1960. [1910.261(a)(3)(xx)]

(ii) Installation of Blower and Exhaust Systems for Dust, Stock, and Vapor Removal or Conveying, Z33.1-1961. [1910.261(a)(3)(xxiii)]

(2) Personal protective equipment. For specific standards supplementing the general standards for personal protective equipment - see Rule 3503.

(3) Vessel entering. For specific standards supplementing the general standards for entry into confined spaces - see Rule 3303(3).

(4) Powered industrial trucks. For specific standards supplementing the general standards for operation of powered industrial trucks - see Rules 3225 and 4102.

(5) Illumination. For specific standards supplementing the general standards for illumination in mills covered by this rule - see Rule 4106(1).

(6) Contaminant control and ventilation. For specific standards supplementing the general standards for contaminant control and ventilation - see Rule 3402.

(7) Sanitary facilities. For specific standards supplementing the general standards for sanitary facilities - see Rule 4201(9)(a).

(8) Radiation. For specific standards supplementing the general standards for radiation control - see Rule 2410(17).

## **RULE 5002 GENERAL REQUIREMENTS IN TEXTILES**

(1) Application requirements.

(a) Application. The requirements of this rule for textile safety apply to the design, installation, processes, operation and maintenance of textile machinery, equipment, and other plant facilities in all plants engaged in the manufacture and processing of textiles, except those processes used exclusively in the manufacture of synthetic fibers. [1910.262(a)(1)]

(b) Standards incorporated by reference. Standards covering issues of occupational health which are of general application without regard to any specific industry are incorporated by reference in this rule and made applicable to textiles. All such standards shall be construed according to the rules of construction set out in Rule 1106(3). [1910.262(a)(2)]

(2) Housekeeping. For specific standards supplementing the general standards for sanitation - see Rule 4201(9).

(3) Lighting. For specific standards supplementing the general illumination standards - see Rule 4106(2).

(4) Ventilation. For specific standards supplementing the general ventilation and contaminant control standards - see Rule 3403.

(5) First aid. For specific information supplementing the general rules of first aid - see Rule 4401(4).

(6) Personal protective equipment. For specific requirements supplementing the general rules for personal protective equipment. See Rule 3504.

## **RULE 5003 GENERAL REQUIREMENTS IN BAKERY EQUIPMENT**

(1) General requirements.

(a) Application. The requirements of this rule shall apply to the design, installation, operation and maintenance of machinery and equipment used within a bakery. [1910.263(a)(1)]

(b) Standards incorporated by reference. Standards covering issues of occupational health which are of general application without regard to any specific industry are incorporated by reference in this rule and made applicable to bakeries.
