A ground blind located on publicly owned lands anytime during the period defined in this subsection shall be considered an abandoned ground blind.

(iii) The name and address of the licensed bear hunter in the bear management unit where licensed, or, outside of the bear season, the person placing the ground blind, is permanently attached, etched, engraved, or painted on the ground blind.

(iv) Fasteners, if used to attach or anchor a temporary ground blind, shall be removed with the blind and shall not consist of any item that penetrates the cambium of a tree.

(3) This section shall not apply to blinds constructed and used for taking waterfowl as described in section 3.401 or structures constructed by a public agency upon lands administered by that public agency.

(a) The constructed structure is greater than 52 inches in height above the adjacent grade anywhere along its length and the total length of the constructed structure is more than ¼ mile and does not contain passages constructed in such a manner as to ensure the passage of wild, free ranging deer, elk, bear, or moose.

(b) The constructed structure is greater than 52 inches in height above the adjacent grade anywhere along its length and the combination of the constructed structure length and natural barrier length is more than ¼ mile in length and does not contain within the length of the constructed structure passages constructed in such a manner as to ensure the passage of wild, free ranging deer, elk, bear, or moose.

(c) The proposed fence would enclose deer, elk, bear, or moose and the person constructing or causing the construction of the fence did not obtain a permit prior to construction of the fence from the department for the temporary enclosing of animals or did not comply with the conditions of the temporary enclosing permit including the removal or flushing of deer, elk, bear, or moose or the payment of fees as directed by the permit. An application for a permit to temporarily enclose deer, elk, bear, or moose shall not be considered unless the applicant includes a proposed method and timetable for the removing or flushing the deer, elk, bear, or moose and the proposed method and timetable of removing or flushing the deer, elk, bear, or moose is approved by the department. If approved by the department, a permit shall be issued by the wildlife permit specialist.

(2) As used in this order, "passage" means a space, opening, or fence 52 inches or less in height constructed in a manner to ensure the passage of wild, free-ranging deer, elk, bear, or moose. For a passage to be constructed

in a manner to ensure the movement of wild, free ranging deer, elk, bear, or moose, all of the following shall apply:

(a) Passages shall be at least 40 feet wide and shall be spaced no more than 660 feet from the next passage.

(iii) Blocks passages with physical barriers or otherwise constructs or uses physical barriers to impede the movement of wild, free-ranging deer, elk, bear, or moose through passages.

(iv) Uses a natural or artificial visual, aural, olfactory, gustatory, or physical stimulus to affect animal behavior in order to hinder, impede, or prevent the movement of wild, free-ranging deer, elk, bear, or moose through passages.

(vi) Engages in any other act or behavior for the purpose of violating this subsection.

(4) The department may provide a written variance from these requirements for passages if the variance is deemed beneficial to wildlife and consistent with the intent of this order. Passages shall be placed along known travel lanes used by deer, elk, bear, or moose whenever practicable. It is recommended that either a minimum space of 4 inches be provided between the bottom of the fence and the adjacent grade, or that the fencing material contains 6-inch by 6-inch openings at ground level, in order to provide for the movement of other wildlife.

(5) In issuing a permit for the temporary enclosing of animals, the department shall do all of the following:

(a) If a permit is issued for a fence which would enclose wild, free-ranging elk, bear, or moose, the permit shall require the flushing or removal of all elk, bear, and moose.
