Mr. Mike Johnson
Arbor Heights
1447 Washington Heights
Ann Arbor, MI
303-2200

Dear Mr. Johnson:

On behalf of all the participants of the 2005 Tokai University Social Work Student Training Program we wish to thank you for your role as a host for our Japanese guests during their stay in March. We wish that you were there when we did the wrap-up session on Monday at the end of our program. Each student had many discoveries and questions on American service system and cultural aspects, and they became very motivated to learn more on Japanese system and services as the result. You would be surprised to learn how much your contribution meant to them.

The Tokai University students and Professor Yoko Kitano expressed sincere appreciation for having the chance to interact with you, your stimulating discussion and learn about Arbor Heights. Thank you once again for enriching the educational experiences of our Japanese guests. Your time and effort are very much appreciated.

Sincerely,

A handwritten signature in cursive script that reads 'Ruth Campbell'.
