

Round 2

Stakeholder Workshops

June 23-28, 2006

Help Shape Michigan's Transportation Future!

The Michigan Department of Transportation (MDOT) needs your help in continuing the development of the vision for the State Long Range Transportation Plan (MI Transportation Plan). Please join us for the second round of workshops for MI Transportation Plan. This second round of workshops is designed to give you an opportunity to review the ideas and comments gathered from the first round of participation activities, including the Economic Advisory Group meeting, stakeholder workshops, public meetings, stakeholder interviews, and the household participation study. Your participation is valuable to the crafting of a collective vision for MI Transportation Plan. We want to make certain that MI Transportation Plan's Vision represents everything we have heard from stakeholders and the public.

MDOT is asking for your help with this planning effort. Please bring your ideas and expertise to the stakeholder workshop that is most convenient for you.

RSVP

To RSVP for a workshop, e-mail Elaine Lutz of Howard/Stein-Hudson Associates, part of MDOT's consultant team, at elutz@hshassoc.com or call toll free **1-888-474-2786**.

When responding, please provide your name, organization, and workshop location that you plan on attending.

For more information on MI Transportation Plan, visit www.michigan.gov/slrp.

● DETROIT

Friday, June 23, 2006
9:00 A.M.–Noon
