**Source:** Manufacturing and Construction Statistics U.S. Census Bureau September 2001

Statistics are based upon reports submitted by local building permit officials in response to a mail survey. They are obtained using Form C-404, "Report of New Privately-Owned Residential Building or Zoning Permits Issued." When a report is not received, missing data are either (1) obtained from the Survey of Use of Permits (SUP) which is used to collect information on housing starts, or (2) imputed. Data for SUP are available only for about 850 places for which Census Bureau field representatives list permits. Imputations are based on the assumption that the ratio of current month authorizations to those of a year ago should be the same for reporting and nonreporting places.

**Housing Units.** A housing unit, as defined for purposes of this report, is a house, an apartment, a group of rooms or a single room intended for occupancy as separate living quarters. Separate living quarters are those in which the occupants live separately from any other individuals in the building and which have a direct access from the outside of the building or through a common hall. In accordance with this definition, each apartment unit in an apartment building is counted as one housing unit.
