

## **System Requirements:**

Below are listed the minimum PC hardware components and standard PC software to be used for MiCJIN and LEIN services.

To operate LEIN along with other MiCJIN Services, the following requirements must be met to ensure smooth operations:

### **LEIN minimum requirements:**

Hardware minimum operating requirements are as follows:

- Intel Pentium 133 or equivalent
- Windows 32-bit Operating System (LEIN Only – 9x/NT/2000/ME/XP; NetRMS requires – NT4.0 SP4 or greater)
- 64 MB of RAM
- 250 MB available hard drive space
- VGA or Higher-resolution video adapter
- Internet Explorer Version 5.5 or newer
- JavaScript enabled
- Java Virtual Machine (JVM) 5.00.3100 or newer (We recommend not using the 5.00.3200 series)
- Microsoft Mouse or compatible pointing device
- CD-ROM drive
- Updated Virus protection software
- Dedicated or network printer, depending on whether automatic printing is desired
- Network Interface Card compatible with agency's local area network (Required for NetRMS)

### **NetRMS minimum requirements:**

- Processor Pentium Class
- Windows 2000 Professional, XP Professional
- 32 MB of RAM
- 1 GB available hard drive space
- CD-ROM and 3.5 floppy
- Microsoft compatible pointing device (mouse)
- 800 x 600 video
- High quality laser printer is recommended
- Internet Explorer v5.5 or SP2
- Updated virus protection software
- Network Interface Card (NIC) compatible with agency's local area network
- Internet access requires two-factor authentication
- LAN/WAN/Wireless connection to support TCP/IP and V.90 modem T-1 required
- Microsoft Word 2003 or later
