

All Medicaid health plans cover medically-necessary services such as:

- Ambulance
- Doctor visits
- Emergency care
- Family planning
- Health checkups for children and adults
- Hearing and speech
- Home health care
- Hospice care
- Hospital care
- Immunizations (shots)
- Lab and x-ray
- Medical supplies
- Medicine
- Mental health
- Physical and occupational therapy
- Prenatal care and delivery
- Surgery
- Vision

All Medicaid health plans are required to provide the services listed above. Some services are limited. Your doctor or health plan can tell you what Medicaid covers.

Note: The information in this pamphlet was collected from health plans by independent survey companies. The information reported by the health plans was reviewed for accuracy. Information was also collected from health plan members.

Accreditation: Checking for quality

Accreditation is another way of assessing health plan quality. An outside organization checks to see whether the plan has the right systems and people in place to do a good job providing health care.

NCQA – Accredited by the National Committee for Quality Assurance.

URAC – Accredited by the Utilization Review Accreditation Commission.

Performance compared to the average of all Michigan Medicaid Health Plans:

- ★★★★ Above Average
- ★★ Average
- ★ Below Average

The categories:

Doctors' Communication and Service:

Members in the plan believe all of their doctors and healthcare providers do a good job explaining things to them and their children, and that they spend enough time with them and their children.

Getting Care:

Members in the plan believe they get the care they need for themselves and their children and that they get the care quickly.

Keeping Kids Healthy:

Children in the plan get regular checkups and important shots that help protect them against serious illness.

Living with Illness:

The plan takes care of members with asthma, diabetes and high blood pressure by giving them tests, checkups and the right medicine.

Taking Care of Women:

Women in the plan get tests for breast and cervical cancer, and for an infection called Chlamydia. These tests help to find these diseases early. This gives women more choices for treatment and a better chance of survival. Moms in the plan also get care before and after their baby is born to help keep mom and baby healthy.
