Crime Analysis Report

Central Records Division

January, 1998

Here is the second edition of the Crime Analysis Report! The first edition, which focused on demographic information, received much positive feedback. The reports were sent to all MSP District Commanders and Post Commanders, Criminal Investigation Divisions and Teams, County Sheriffs, MSP Executive Council members, and MSP Crime Analysis Steering Committee members. This edition contains information about violent crime, including rates, trends in the past five years, and projections for how these trends are likely to move in the future. The data used in this report comes from the Michigan Uniform Crime Reports, which includes MICR reporting. Questions or comments about this report can be directed to Ms. Amy Higgins in the Central Records Division of MSP by telephone at (517)322-6025 or by email at crd_dom.crd_po.HigginsAmy@state.mi.us.

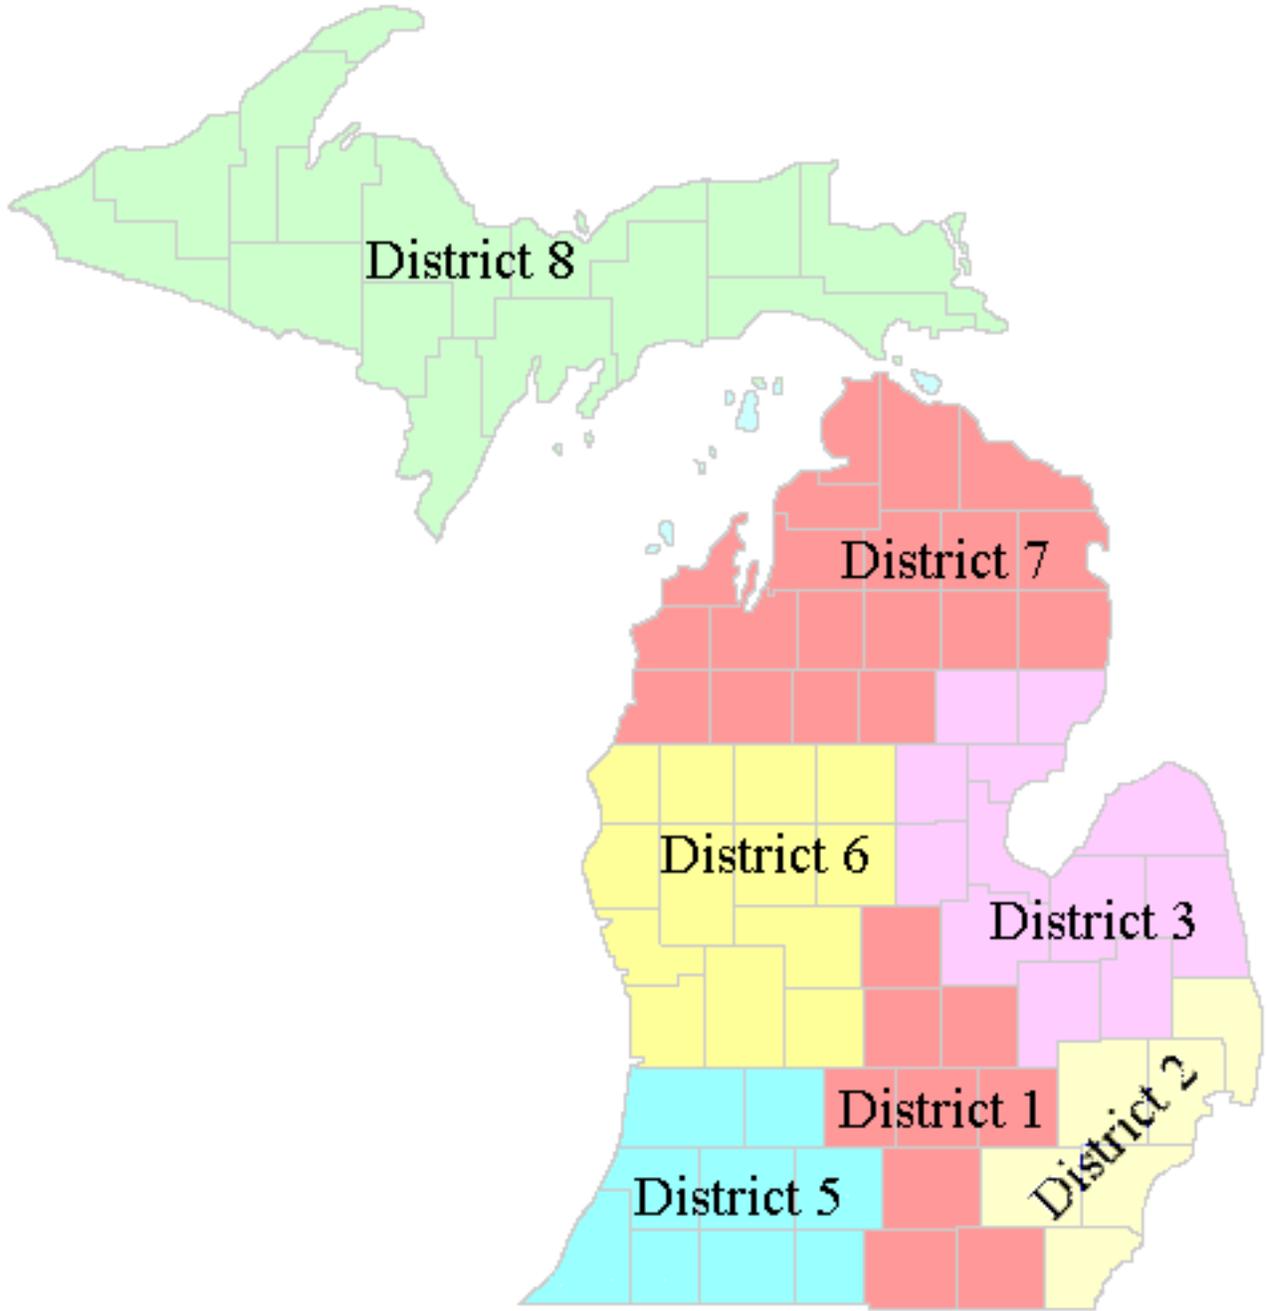

The projections were calculated using a statistical formula called Trend Line Analysis. This calculation uses actual data from past years to determine a correlation and a standard error of the estimate, and predict a range that has a 68% likelihood of occurring. The number provided with the range is the midpoint, and can be used to get an idea of what the range represents.

The rates in the report show the number of crimes based on a population of 100,000, even in counties with populations under 100,000. This means that such a county is likely to have a rate that is a larger number than the actual number of crimes. Rates are determined by dividing the number of crimes by the population, then multiplying by 100,000. The rates are all based on 100,000 so that they are comparable. Rates allow for comparison because they remove the population differences. The rates in [Eighth District](#), for example, are comparable to [Second District](#), even though the populations of these areas are much different. The violent crime rate of 796.41 per 100,000 in [Second District](#) can be compared to the rate of 131.15 per 100,000 in [Eighth District](#), and population is not a reason for the difference.

State of Michigan

Crime Analysis Report

Criminal Justice Information Center

September, 1999

Statewide Information:

- All violent crime rate categories have decreased in Michigan in the last five years
- The total Violent Crime Rate in Michigan decreased -14% over the last five years
- The Murder Rate in Michigan decreased -21% in the last five years
- The Rape Rate in Michigan decreased -18% in the last five years
- The Robbery Rate in Michigan decreased -29% in the last five years
- The Aggravated Assault Rate in Michigan decreased -6% in the last five years
- Michigan's 9,295,297 population is serviced by 20,730 officers in 600 law enforcement agencies
- Michigan is made up of 83 counties with populations ranging from 1,701 in Keweenaw County (8th District) to 2,115,159 in Wayne County (2nd District)

District Information:

- Michigan is divided into seven State Police Districts with populations ranging from 313,915 in 8th District to 4,474,823 in 2nd District
- Two of the seven districts reported an increase in Murder Rate over the last five years (7th District +43%, 1st District +19%)
- Seventh District reported the greatest decrease in Rape Rate in the last five years (-38%)
- Eighth District reported the greatest decrease in Robbery Rate in the last five years (-41%)
- Second District reported the only increase in Aggravated Assault Rate over the last five years
- Fifth District reported the greatest decrease in Violent Crime Rate over the last five years (-27%)

Eighth District

Crime Analysis Report

Criminal Justice Information Center

September, 1999

District Information:

- Eighth District reported a decrease of -75% Murder Rate over the last five years
- Eighth District reported the largest decreases of any district for Murder, Robbery, and Aggravated Assault Rates over the last five years
- Violent Crime Rate in 8th District has decreased - 24% over the last five years
- Ten of the 15 counties in 8th District reported decreases in Aggravated Assault Rate over the last five years
- Eighth District is made up of 15 counties with populations ranging from 1,701 to 70,887
- Eighth District's 313,915 population is serviced by over 500 officers in 54 agencies

County Information:

- Ontonagon County reported the only Murder for all of 8th District in 1998
- Schoolcraft County reported the largest decrease in 8th District for Rape Rate over the last five years
- Mackinac County reported the 8th largest increase in Michigan for Rape Rate over the last five years
- Marquette County reported the only increase in 8th District for Robbery Rate over the last five years
- Mackinac County reported the highest Robbery Rate in 8th District for 1998
- Luce County reported the highest Aggravated Assault Rate in 8th District for 1998
- Ontonagon County reported the 5th largest increase in Michigan for both Aggravated Assault and Violent Crime Rate over the last five years
- Luce County reported the highest Violent Crime Rate in 8th District for 1998

Sixth District

Crime Analysis Report

Criminal Justice Information Center

September, 1999

District Information:

- Sixth District reported a decrease of -24% in Violent Crime Rate over the last five years
- Sixth District reported the smallest decrease in Murder Rate and the 2nd smallest decrease in Rape Rate over the last five years
- Sixth District reported the 2nd largest decrease in Aggravated Assault Rate over the last five years
- Ten of the thirteen counties in 6th District reported decreases in Robbery Rate over the last five years
- Eight of the thirteen counties in 6th District reported a decrease in Violent Crime Rate over the last five years
- Sixth District is made up of 13 counties with populations ranging from 8,583 to 500,631
- Sixth District's 1,194,930 population is serviced by over 1600 officers in 79 agencies

County Information:

- Muskegon County reported the largest decrease in 6th District for Rape Rate over the last five years
- Kent County reported the highest Robbery Rate within 6th District in 1998
- Lake County reported the largest increase within 6th District and the 10th largest increase in Michigan for Robbery Rate over the last five years
- Clare County reported the largest increase in 6th District and the 4th largest increase in Michigan for Aggravated Assault Rate over the last five years
- Muskegon County reported the 2nd largest decrease in Michigan for both Aggravated Assault Rate and Violent Crime Rate over the last five years
- Lake County reported the 5th highest Aggravated Assault Rate in Michigan for 1998
- Lake County reported the highest Murder and Rape Rates in Michigan for 1998
- Kent County reported the 4th highest Robbery Rate in Michigan for 1998

- Rates are calculated by dividing the number of crimes by the population, then multiplying by 100,000.
- Percentages show the five year trend in crime rate.
- Crime rates control for differences in population, therefore the counties are comparable.
- Percentage changes are determined by subtracting the crime rate in 1994 from the crime rate in 1998, then dividing the total by the crime rate in 1994.
- Sources of data- Uniform Crime Reports- 1994 and 1998, U.S. Census Bureau- 1990
- Questions on this report can be directed to Amy Alderman (517)322-6025, or email at AldermaA@state.mi.us.

Fifth District

Crime Analysis Report

Criminal Justice Information Center

September, 1999

District Information:

- Violent Crime Rate for 5th District has decreased - 27% over the last five years
- Fifth District reported the second largest decrease in Murder Rate over the last five years
- Fifth District reported the highest Rape Rate in 1998
- Fifth District reported the 3rd largest decrease in Robbery Rate for the last five years
- Fifth District reported the second largest decrease in Aggravated Assault Rate over the last five years
- All but 2 counties in the 5th District (Cass and Saint Joseph) experienced a decrease in Rape Rate over the last five years
- Four of the 9 counties in 5th District reported an increase in total Violent Crime Rate over the last five years
- Fifth District is made up of 9 counties with populations ranging from 41,509 to 223,411
- Fifth District's 875,630 population is serviced by more than 1400 officers in 93 agencies

County Information:

- Van Buren County reported the only increase in 5th District for Murder Rate over the last five years
- Barry County reported the largest decrease in 5th District for Robbery Rate over the last five years
- Berrien County reported the greatest decrease in 5th District for Violent Crime Rate over the last five years
- Van Buren County reported the 9th highest Murder Rate in Michigan for 1998 and the 6th largest increase for Murder Rate over the last five years
- Saint Joseph County reported the third highest rape rate in Michigan for 1998
- Cass County reported the 4th largest increase in Michigan for Violent Crime Rate over the last five years
- Calhoun County reported the highest Robbery and Aggravated Assault Rates in 5th District and the 3rd highest in Michigan for 1998

Third District

Crime Analysis Report

Criminal Justice Information Center

September, 1999

District Information:

- Third District reported the 2nd highest rates for all violent crime categories in 1998
- Third District reported the 2nd largest decreases in both Robbery Rate and Total Violent Crime Rate over the last five years
- Three counties in 3rd District are among the 15 highest Rape Rates in Michigan for 1998 (Arenac, Gladwin, Ogemaw)
- Four counties in 3rd District reported increases in Rape Rate in the last five years (Arenac, Gladwin, Midland, Tuscola)
- Four counties in 3rd District reported increases in Robbery Rate in the last five years (Lapeer, Ogemaw, Midland, Tuscola)
- Three counties in 3rd District reported increases in both Aggravated Assault and Total Violent Crime Rates in the last five years (Arenac, Gladwin, Lapeer)
- Third District is made up of 12 counties, with county populations ranging from under 15,000 to over 430,000
- Third District's 1,120,557 population is serviced by more than 1700 officers from 110 law enforcement agencies

County Information:

- Arenac County reported the highest Rape Rate in 3rd District for 1998
- Genesee County reported the highest Robbery, Aggravated Assault, and Violent Crime Rates in 3rd District for 1998
- Sanilac County reported the 2nd highest increase in Murder Rate in Michigan over the last 5 years
- Sanilac County reported the 3rd highest Rape Rate in Michigan for 1994 and the greatest decrease between 1994 and 1998
- Genesee County reported the 2nd highest Robbery Rate in Michigan in both 1998 and 1994
- Genesee County reported the 2nd highest Aggravated Assault Rate in Michigan in 1998
- Saginaw County reported the 4th highest Aggravated Assault Rate in Michigan in 1998 and the highest in 1994
- Arenac County reported the 2nd largest increase in Aggravated Assault Rate in Michigan over the last five years
- Arenac County reported the 2nd largest increase in Violent Crime Rate in Michigan between 1994 and 1998

% Change Violent Rate	-40%	-19%	-24%	-25%	-14%	-16%	32%	0%	-12%	-13%

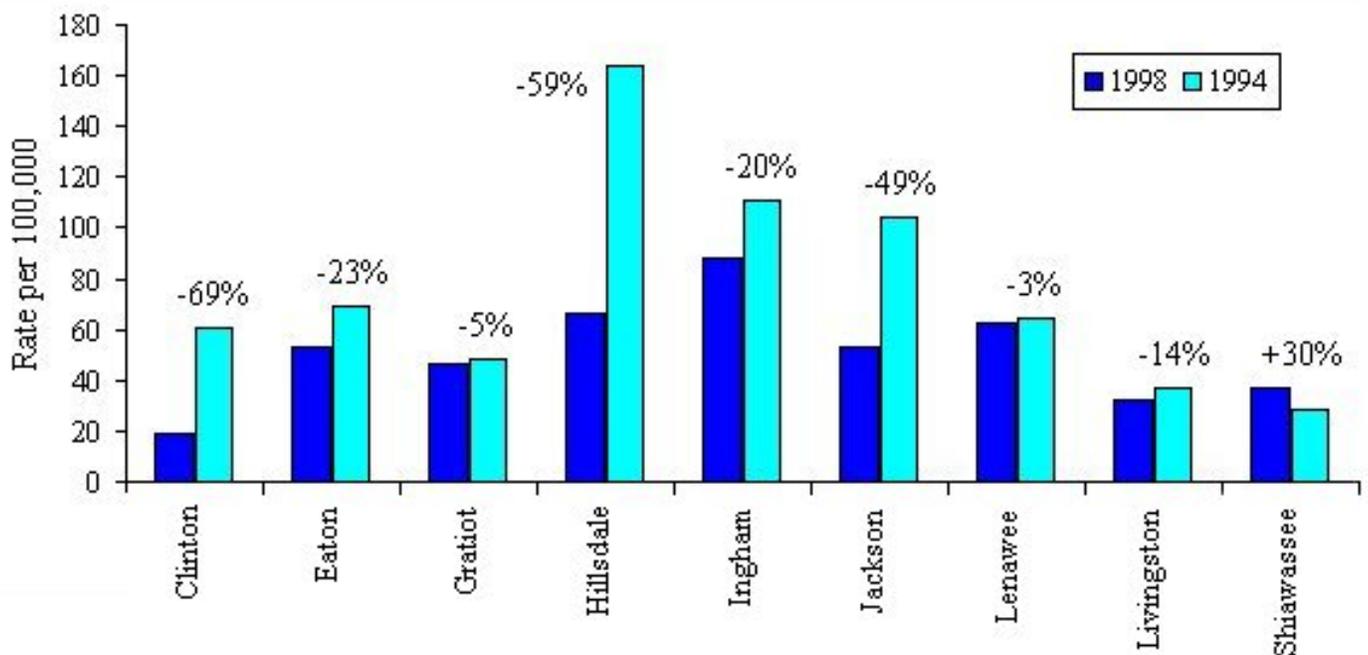

- Rates are calculated by dividing the number of crimes by the population, then multiplying by 100,000.
- Percentages show the five year trend in crime rate.
- Crime rates control for differences in population, therefore the counties are comparable.
- Percentage changes are determined by subtracting the crime rate in 1994 from the crime rate in 1998, then dividing the total by the crime rate in 1994.
- Sources of data- Uniform Crime Reports- 1994 and 1998, U.S. Census Bureau- 1990
- Questions on this report can be directed to Amy Alderman (517)322-6025, or email at AldermaA@state.mi.us.

County Rate Comparison and Five Year Percentage Change Within Each County

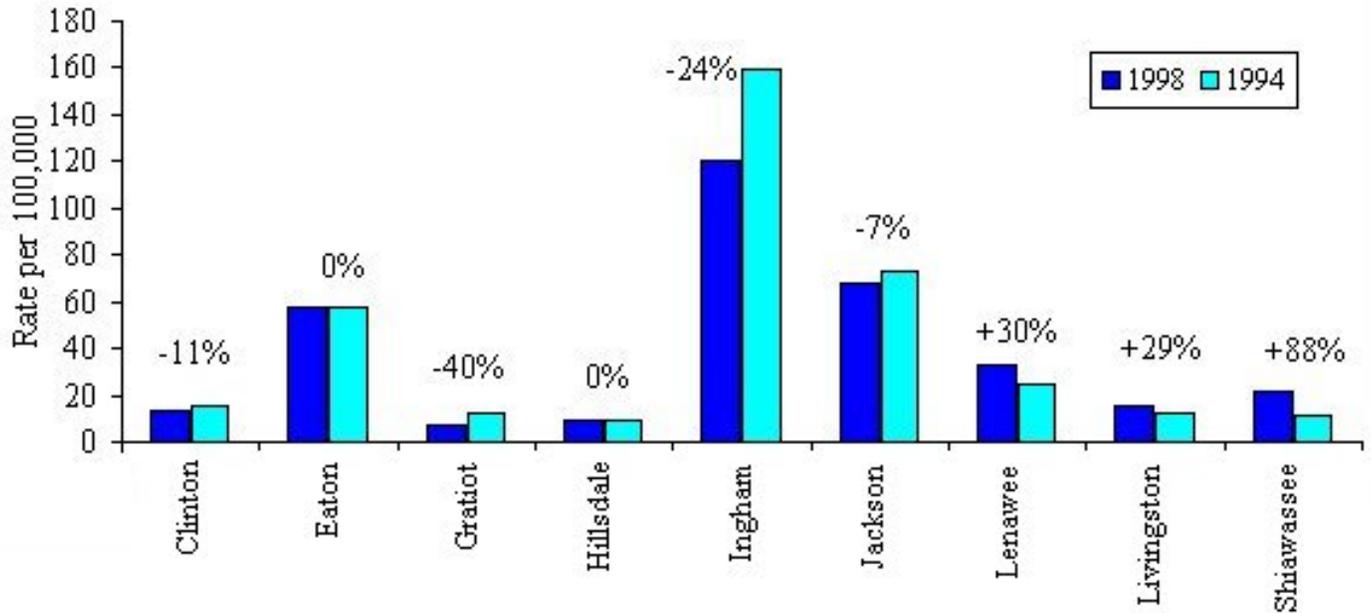

Murder Rates

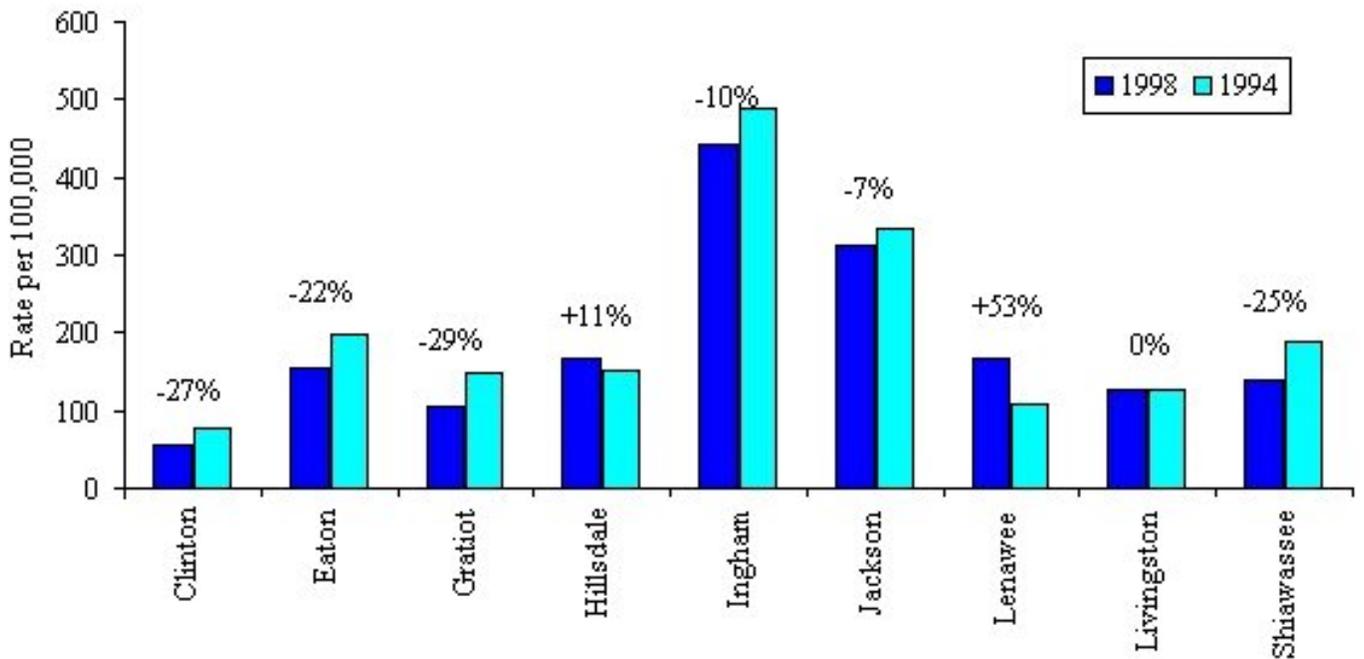

Rape Rates
