### SECTION III WORK STATEMENT

#### A. Brief Description of Work

Michigan State Police (MSP), Criminal Justice Information Center (CJIC) plans to implement an imaging and document management solution to archive disposition documents as evidence to support the changes made to the Criminal History Records (CHR). This solution will improve the overall CHR update process and provide complete audit of the transactions. The scope of work for this initiative is to implement an imaging and document management solution using FileNet P8 platform consisting of IBM FileNet P8 Content Manager and Business Process Manager.
