

Cindy Zerkowski
Macomb County CIO

Cindy has been the CIO for Macomb County for last 12 years. She was previously in Health Care and academia for a total of over 30 years in the IT field. Her experience includes serving as an advocate for collaborative purchasing, for instance partnering on the Macomb Intermediate School District's bid to construct a private fiber network back in 2000. Through her collaborative purchasing efforts, she has been able to secure cost-sharing and cost-savings opportunities to do those things that otherwise are not affordable to do alone.
