1.1 Product Quality

BACKGROUND/PROBLEM STATEMENT

The Michigan Department of Corrections (MDOC), Field Operations Administration (FOA), has the exclusive statutory authority to supervise paroled offenders and enforce conditions and terms of parole as imposed by the Michigan Parole Board. Using periodic polygraph examinations will significantly increase the likelihood of detecting illegal and violation behavior and has been demonstrated to deter violation and criminal behavior as well.

Anticipated Scope:

Presently, the MDOC, Field Operations Administration (FOA), supervises approximately 325 sex offenders within Wayne County, 38 within Muskegon County, 52 within Genesee County that are currently on parole and participating under a Polygraph Monitoring Program as a condition of parole. In addition, on average there are approximately fourteen (20) additional offenders being paroled per month under a condition of polygraph testing. The Contractor will periodically examine identified parolees to determine if they are in compliance with their conditions of parole and relapse prevention plan. Polygraph examinations may be scheduled, at the discretion of the MDOC, upon receipt of polygraph reports indicating a deceptive response, or other indications of a violation of their parole conditions.

Testing will occur at three different locations operated by the MDOC in secure conference rooms provided by the MDOC located in Wayne, Genesee and Muskegon Counties. During the term of this contract, testing services may be expanded within the State of Michigan, as additional parolees agree to provisions of the testing program as terms of their parole

Actual number of tests to be performed each year will be contingent upon actions/decisions of the State Parole Board, and changes to the parole laws as enacted by the State Legislature, and may vary from estimates as listed.

OBJECTIVES

Engage a general Contractor to provide scheduled polygraph examinations for targeted paroled sex offenders in Michigan. All examinations performed under this contract shall be administered consistent with APA testing guidelines, and subject to the following specifications:

1. All examiners must be licensed by, and in good standing with, the Michigan Department of Commerce, Board of Forensic Polygraph Examiners. Further, all examiners must be active members of the American Polygraph Association (APA), and the Michigan Association of Polygraph Examiners (MAPE), and maintain membership in same during the term of this contract.
2. All examiners must have one year of documented experience in polygraphing offenders, particularly sex offenders.
3. All examinations shall consist of, but not be limited to:
 - A written pre-test interview,
 - Three issue specific test,
 - A written post-test interview.

In addition, examiners would be encouraged to include a stimulation test in the examination process.

There shall be a limit of three (3) initial examinations or four (4) follow-up examinations scheduled per examiner per day to allow for continuity of test results. Each examination shall last, at a minimum, of ninety (90) minutes.

4. All examinations performed under this contract shall be administered consistent with the American Polygraph Association (APA) Standards of Practice (attachment A), with exception of standard #3.8.8.
5. All testing shall be conducted using, as a minimum standard, a three pen recording device that measures breathing, heart rate and galvanic skin response.
6. The Contractor shall be required to participate in a quality control procedure for examinations. This may include, but is not limited to, a chart review process conducted by the Department of Corrections or its authorized agent. The Contractor shall maintain polygraph charts in storage for 12 months after the examination takes place.

STANDARDS OF PRACTICE

Statement of Purpose

It is the position of the APA that a polygraph examination, properly administered by a well trained and competent polygraph examiner and using a validated testing technique, has a high degree of accuracy in detecting truthfulness or deception. In order to ensure this high degree of accuracy, the APA establishes for its membership the following Standards of Practice.

All examinations shall be conducted in compliance with governing local, state, and federal regulations and laws.

3.1 Definitions

3.1.1 Evidentiary Examination - a polygraph examination, the written and stated purpose for which, agreed to by the parties involved, is to provide the diagnostic opinion of the examiner as evidence in a scheduled judiciary proceeding. This is not intended to prevent admission as evidence of a confession obtained during the examination.

3.1.2 Investigative Examination - a polygraph examination for which the examination is intended to supplement and assist an investigation and for which the examiner has not been informed and does not reasonably believe that the results of the examination will be tendered for admission as evidence in a court of record. Pre-employment examinations shall be deemed to be investigative examinations.

3.1.3 Validated Testing Technique - a polygraph testing technique, for which exists a body of acceptable scientific studies. A polygraph testing technique both endorsed by the APA Research and Development Committee, and published in Polygraph, shall be presumed to be a validated testing technique.

3.1.4 Specific Issue Examination Polygraph - a single-issue examination, almost always administered in conjunction with a criminal investigation.

3.2 Polygraph Examiner

3.2.1 A polygraph examiner shall meet the training and educational requirements of his or her category of membership as set forth in Division V of the By-Laws.

3.2.2 Evidentiary examinations shall be conducted only by Full or Associate members. Intern members shall conduct evidentiary examinations only by stipulation of the parties, or under the supervision of a full or associate member.

3.2.3 Polygraph examinations for clinical polygraph examinations of sex offenders shall be conducted by members who have completed specialized training for sex offender polygraphs consistent with guidelines issued by the APA.

3.2.4 A polygraph examiner shall, where applicable, be licensed (or certified) by the regulatory organization of his or her jurisdiction.

3.2.5 A polygraph examiner shall, where applicable, comply with all state continuing education requirements. A polygraph examiner conducting evidentiary examinations shall have completed a minimum of thirty (30) Continuing Education hours every two (2) years.

3.3 Polygraph Examinee

3.3.1 The examiner shall make reasonable efforts to determine that the examinee is a fit subject for testing, where allowed by law. Basic inquiries into the medical and psychological condition of the examinee as well as any recent drug use should be made where allowed by law. Mental, physical or medical conditions of the examinee that should be observable to, or that should be reasonably known by the examiner, should also be evaluated prior to testing. No test should be conducted where valid results could not be reasonably foreseen.

3.3.2 During the pretest interview, where allowed by law, the examiner will specifically inquire of the person to be examined whether or not he or she is currently receiving or has in the past received medical or psychiatric treatment or consultation.

3.3.3 If an examiner has a reasonable doubt concerning the ability of the examinee to safely undergo an examination, a release from the examinee and his or her physician shall be obtained.

3.4 Instrumentation and Recording

3.4.1 Polygraph examinations shall be conducted with APA approved instrumentation and shall record, at a minimum, the following channels or components:

3.4.1.1 Respiration patterns recorded by pneumograph components. Thoracic and abdominal patterns shall be recorded separately, using two pneumograph components.

3.4.1.2 Electrodermal activity reflecting relative changes in the conductance or resistance of current by the epidermal tissue.

3.4.1.3 Cardiograph to record relative changes in pulse rate, pulse amplitude, and relative blood volume.

3.4.2 Physiological recording during each test shall be continuous, and shall be of sufficient amplitude to be easily readable by the examiner and any reviewing examiner. Pneumograph and cardiograph tracings over one-half inch in amplitude will be considered of sufficient size to be easily readable.

3.4.3 The polygraph shall be given a functionality or calibration test consistent with manufacturer recommendations. The functionality or calibration test shall be administered prior to all evidentiary examinations. At a minimum these tests shall be maintained by the examiner for no less than one (1) year. Compliance with state and federal law shall be required.

3.5 Test Location and Conditions

3.5.1 Conditions under which testing occurs shall be free from distractions that would interfere with the ability of the examinee to appropriately focus on the issues being addressed. The examination site should be relatively free from outside noise and distraction.

3.5.2 Examiners performing live polygraph examinations in public shall not render opinions regarding the truthfulness or deception of the examinees. Examiners shall attempt to ensure that reenactments of polygraph examinations are clearly conveyed as such to viewers.

3.6 Preparation

3.6.1 An examiner shall, prior to the examination, dedicate sufficient time to identify the issues and any potential problems in any area of testing.

3.7 Pretest Practices

3.7.1 The examiner shall obtain information sufficient to identify the examinee.

3.7.2 The examiner shall obtain the consent of the examinee prior to testing.

3.7.3 Sufficient time shall be spent to ensure that the examinee has a reasonable understanding of the polygraph process and the requirement for cooperation.

3.7.4 Sufficient time shall be spent to discuss the issues to be tested and to allow the examinee to fully explain his or her answers.

1

3.7.5 Sufficient time shall be spent to ensure the examinee recognizes and understands each question. Attempts by the examinee to rationalize should be neutralized by a pretest discussion in which the examinee demonstrates he or she understands the test questions to have the same meaning as does the examiner. Questions shall be asked in a form that would prevent a reasonable person, facing a significant issue, from successfully engaging in a rationalization process to avoid culpability.

3.7.6 The examiner shall not express bias in any manner regarding the truthfulness of the examinee prior to the completion of testing.

3.8 Testing

3.8.1 A member polygraph examiner shall use a validated testing technique. Evidentiary examinations shall not materially deviate from the protocol of a validated testing technique. Where investigative examinations deviate from the format or protocol of a validated testing technique, such deviation shall, where the test is subjected to quality control by a reviewing examiner, be noted and justified in writing. For the resolution of specific issues, each polygraph examination shall use a validated testing technique.

3.8.2 A stimulation test or acquaintance test shall be required for all evidentiary examinations. A stimulation or acquaintance test should be conducted for all initial examinations for any specific issue or investigative examinations.

3.8.3 Questions shall be asked with clarity and distinctiveness.

3.8.4 Questions shall be balanced in terms of length and impact for each category of questions utilized. Questions used in the assessment of truth and deception shall be preceded and followed by time intervals of not less than 20 seconds. When approved validated research supports the use of another time interval, that time span shall prevail.

3.8.5 Examiners shall collect a sufficient number of charts so as to acquire sufficient data for proper evaluation, in conformance with a validated testing technique.

3.8.6 Nothing in these standards is intended to prevent the use of new or invalidated testing techniques for purposes of research.

3.8.7 Standardized charge markings, recognized and utilized within the polygraph profession should be employed.

3.9 Scoring

3.9.1 Examiners shall employ quantitative or numerical scoring for all evidentiary examinations and for all specific issue investigative examinations.

3.9.2 Examiner notes of the test evaluation shall have sufficient clarity and precision so that another examiner could read them.

3.9.3 Examiners shall not disclose the results of the examination until it has been adequately and sufficiently analyzed.

3.9.4 Examiners shall maintain the confidentiality of their work conducted under privilege until a release by the client is obtained.

3.9.5 An examiner subject to a quality control evaluation of a case shall fully disclose all relevant information regarding the case under review. Any doubts as to relevancy shall be resolved through disclosure.

3.10 Post Conviction Sex Offender Testing

3.10.1 The practice of post conviction sex offender testing is a specialized subdiscipline in polygraphy, unique in its application. Practitioners are required to satisfy the provisions set forth in the Standards of Practice for investigative examinations, in addition to those standards below.

3.10.2 Minimum Training.

3.10.2.1 A minimum of forty (40) hours of post conviction specialized instruction, beyond the basic polygraph examiner training course requirements, shall be requisite to those who practice sexual offender testing.

3.10.3 Written Examination

3.10.3.1 A final examination, approved by the American Polygraph Association (APA) or its designated representative, shall be given subsequent to the approved training. The student must pass this written examination to receive a diploma for the training. The written examination shall be properly controlled and protected to prevent exposure of the test questions or answers to any unauthorized persons.

3.10.4 Instructor's Knowledge of the Written Examination Content.

3.10.4.1 The instructors of the approved course shall be informed of the topic areas, along with a pool of possible test questions, for the final written examination. However, those questions specifically selected for any given final examination shall not be made known to the instructors before the administration of the test to the students.

3.10.7 In-Test Specifications

3.10.7.1 All recorded physiological data shall be retained as part of the examination file as long as required by regulation or law, but for a minimum of one (1) year.

3.10.7.2 Each single-issue examination shall employ a technique and format that has been validated through research.

3.10.7.3 Reasonable departures from validated formats are permissible, to the extent that an independent examiner/reviewer would concur that the employed method was not significantly dissimilar from the format validated in research. Any deviations from validated formats shall be fully explained and justified by the examiner in writing where this test is subjected to an independent quality control.

In any and all claims against the State of Michigan, or any of its agents or employees, by any employee of the Contractor or any of its subcontractors, the indemnification obligation under the Contract shall not be limited in any way by the amount or type of damages, compensation or benefits payable by or for the Contractor or any of its subcontractors under worker's disability compensation acts, disability benefits acts, or other employee benefits acts. This indemnification clause is intended to be comprehensive. Any overlap in sub clauses, or the fact that greater specificity is provided as to some categories of risk, is not intended to limit the scope of indemnification under any other sub clause.

Continuation of Indemnification Obligation

The duty to indemnify will continue in full force and affect not withstanding the expiration or early termination of the Contract with respect to any claims based on facts or conditions, which occurred prior to termination.

Indemnification Procedures

The procedures set forth below shall apply to all indemnity obligations under this Contract.

- (a) After receipt by the State of notice of the action or proceeding involving a claim in respect of which it will seek indemnification, the State shall promptly notify Contractor of such claim in writing and take or assist Contractor in taking, as the case may be, any reasonable action to avoid the imposition of a default judgment against Contractor. No failure to so notify Contractor shall relieve Contractor of its indemnification obligations except to the extent that Contractor can demonstrate damages attributable to such failure. Within ten (10) days following receipt of written notice from the State relating to any claim, Contractor shall notify the State in writing whether Contractor agrees to assume control of the defense and settlement of that claim (a "Notice of Election"). After notifying Contractor of a claim and prior to the State receiving Contractor's Notice of Election, the State shall be entitled to defend against the claim, at Contractor's expense, and Contractor will be responsible for any reasonable costs incurred by the State in defending against the claim during such period.
- (b) If Contractor delivers a Notice of Election relating to any claim: (i) the State shall be entitled to participate in the defense of such claim and to employ counsel at its own expense to assist in the handling of such claim and to monitor and advise the State about the status and progress of the Defense; (ii) Contractor shall, at the request of the State, demonstrate to the reasonable satisfaction of the State, Contractor's financial ability to carry out its defense and indemnity obligations under this Contract; (iii) Contractor shall periodically advise the State about the status and progress of the defense and shall obtain the prior written approval of the State before entering into any settlement of such claim or ceasing to defend against such claim and (iv) to the extent that any principles of Michigan governmental or public law may be involved or challenged, the State shall have the right, at its own expense, to control the defense of that portion of such claim involving the principles of Michigan governmental or public law. Notwithstanding the foregoing, the State may retain control of the defense and settlement of a claim by written notice to Contractor given within ten (10) days after the State's receipt of Contractor's information requested by the State pursuant to clause (ii) of this paragraph if the State determines that Contractor has failed to demonstrate to the reasonable satisfaction of the State Contractor's financial ability to carry out its defense and indemnity obligations under this Section. Any litigation activity on behalf of the State of Michigan, or any of its subdivisions pursuant to this Section, must be coordinated with the Department of Attorney General. In the event the insurer's attorney represents the State pursuant to this Section, the insurer's attorney may be required to be designated as a Special Assistant Attorney General by the Attorney General of the State of Michigan.
- (c) If Contractor does not deliver a Notice of Election relating to any claim of which it is notified by the State as provided above, the State shall have the right to defend the claim in such manner as it may deem appropriate, at the cost and expense of Contractor.

If it is determined that the claim was one against which Contractor was required to indemnify the State, upon request of the State, Contractor shall promptly reimburse the State for all such reasonable costs and expenses.

2.306 LIMITATION OF LIABILITY

Except as set forth herein, neither the Contractor nor the State shall be liable to the other party for indirect or consequential damages, even if such party has been advised of the possibility of such damages. 2.6 Breach of Contract

2.601 BREACH DEFINED

Failure to comply with articles, sections, or subsections of this agreement, or making any false statement in this agreement will be considered a material breach of this agreement giving the state authority to invoke any and all remedies available to it under this agreement.

In addition to any remedies available in law and by the terms of this contract, if the Contractor breaches Sections 2.508, 2.509, or 2.510, such a breach may be considered as a default in the performance of a material obligation of this contract.

2.602 NOTICE AND THE RIGHT TO CURE

In the event of a curable breach by the Contractor, the State shall provide the Contractor written notice of the breach and a time period to cure said breach described in the notice. This section requiring notice and an opportunity to cure shall not be applicable in the event of successive or repeated breaches of the same nature or if the State determines in its sole discretion that the breach poses a serious and imminent threat to the health or safety of any person or the imminent loss, damage or destruction of any real or tangible personal property.

2.603 EXCUSABLE FAILURE

1. Neither party shall be liable for any default or delay in the performance of its obligations under the Contract if and to the extent such default or delay is caused, directly or indirectly, by: fire, flood, earthquake, elements of nature or acts of God; riots, civil disorders, rebellions or revolutions in any country; the failure of the other party to perform its material responsibilities under the Contract (either itself or through another contractor); injunctions (provided the injunction was not issued as a result of any fault or negligence of the party seeking to have its default or delay excused); or any other cause beyond the reasonable control of such party; provided the non-performing party and its subcontractors are without fault in causing such default or delay, and such default or delay could not have been prevented by reasonable precautions and cannot reasonably be circumvented by the non-performing party through the use of alternate sources, workaround plans or other means, including disaster recovery plans. In such event, the non-performing party will be excused from any further performance or observance of the obligation(s) so affected for as long as such circumstances prevail and such party continues to use its best efforts to recommence performance or observance whenever and to whatever extent possible without delay provided such party promptly notifies the other party in writing of the inception of the excusable failure occurrence, and also of its abatement or cessation.
2. If any of the above enumerated circumstances substantially prevent, hinder, or delay performance of the services necessary for the performance of the State's functions for more than 14 consecutive days, and the State determines that performance is not likely to be resumed within a period of time that is satisfactory to the State in its reasonable discretion, then at the State's option: (a) the State may procure the affected services from an alternate source, and the State shall not be liable for payments for the unperformed services under the Contract for so long as the delay in performance shall continue; (b) the State may cancel any portions of the Contract so affected and the charges payable hereunder shall be equitably adjusted to reflect those services canceled; or (c) the Contract will be canceled without liability of the State to the Contractor as of the date specified by the State in a written notice of cancellation to the Contractor.
