1.0 Project Identification

1.001 PROJECT REQUEST

The purpose of this contract is to obtain quotations for Actuarial Services for the Medicaid Program in Michigan.

1.02 BACKGROUND

The Department of Community Health, Medical Services Administration has contracted for actuarial consulting services ever since capitated managed care for Medicaid has been a significant line of business. The major historical function has been the establishment of fair and appropriate Health Maintenance Organization (HMO) rates. This element continues to be very significant in the contractual relationship while the work functions have both broadened and deepened.

The increased depth for HMO rate-setting explicitly relates to recently enacted federal requirements that a fully qualified actuary (FSA or ASA) not only certify the rates, but also perform a rigorous review against promulgated federal standards for actuarial soundness. This is an evolving standard that creates increased risk for the State of Michigan as federal rules can limit and change the state's preferred approach to rate-setting. Another potential pitfall, where the skills and knowledge of the consulting actuary become an important factor, is the time taken by the federal government to review and approve rates. Obviously the competence of the actuary in demonstrating that the rates comply with federal requirements will speed up the approval process and enable the State to implement rates in a more orderly way.

The increased breadth of actuarial consulting relates to numerous functions that have been added over the years. Any capitated managed care contract now requires actuarial attestation and federal approval against standards (which are somewhat different for different types of managed care organizations). The Department of Community Health (which houses the Medicaid Agency along with all of public health, mental health, substance abuse and aging) has other capitated managed care contracts that fall under Medicaid requirements. By far the most prominent is the Prepaid In-Patient Health Plan (PIHP) arrangement with community mental health agencies to deliver mental health services to Medicaid beneficiaries on a statewide basis. Both major capitated managed care programs, i.e., physical health (HMO) and mental health, are operated under federal waivers that require demonstration of cost effectiveness, yet another federal financial hurdle. Clearly, just changes involving capitated managed care rate-setting requirements constitutes a significant expansion in the actuarial consulting function.

Beyond capitated rate-setting, the actuarial consulting function has broadened to include a more sophisticated budget forecasting capacity; input and project work on various federal waiver proposals; expert advice and project work on fee-for-service reimbursement policies; broader health policy analysis related to reform proposals; assessments of financial risk related to any number of policy proposals; and advice and project work to maximize federal funding and minimize exposure to disallowances.

The financial stakes associated with the actuary's work are enormous. The rates paid by Medicaid for HMO and mental health services result in over \$3 billion in expenditures per year. Obviously any miscalculation or error, even seemingly minor, can result in over or underpayments of very large sums of money. Even a tenth of one per cent error (0.1%) would, in the aggregate, amount to \$3 million. Further, as previously observed, the contractor must assure that the state qualifies for federal funding by complying with rigorous and detailed regulations (and interpretive material) relating to both "actuarial soundness", a regulatory requirement for rates, and "cost effectiveness", yet another federal requirement for these "waiver" programs. The federal funding potentially at risk is roughly 57 percent of the annual gross expenditure or roughly \$1.7 billion.

1.1 Scope of Work and Deliverables

1.101 IN SCOPE

Specific objectives to be achieved by this project:

1. Establish fair and appropriate rates for efficient and effectively operated HMOs contracting with the Michigan Medicaid Program.

2. Establish fair and appropriate rates for efficient and effectively operated Community Mental Health PIHPs contracting with the Michigan Department of Community Health (MDCH) for Medicaid and other behavioral health and developmental disability services.
3. Assure that all capitated rates for Michigan Medicaid programs comply with federal statutes and regulations and work with federal officials to obtain timely federal approval.
4. Prepare budgets for federal waivers and assure that they achieve budget neutrality as defined by the federal government.
5. Provide accurate budget forecasting, assisting the Department in preparing future budgets.
6. Provide sound, expert actuarial advice and services on a wide range of other issues and projects.

1.102 OUT OF SCOPE - RESERVED

1.103 TECHNICAL ENVIRONMENT

The Contractor shall develop and continually maintain a state approved format and software. Custom hardware and/or software will be the property of the State.

1.104 WORK AND DELIVERABLE

Contractor shall provide Services and staff, and otherwise do all things necessary for or incidental to the performance of work, as set forth below:

Tasks Include, but not limited to:

1. Actuarial services for the development of future capitation rates including trend factors, risk/reserve pools, and risk-sharing models;
2. Attestation to the actuarial soundness of the capitated rates including the methodologies and processes employed in their development;
3. Actuarial services supporting the development of federal waiver proposals that achieve budget neutrality and/or cost effectiveness as defined by the federal government;
4. Forecast future MDCH expenditures, particularly Medicaid expenditures, in conformance with timelines dictated by State of Michigan budget structures;
5. Build and maintain a database specific to Michigan to support both capitated rate-setting and budget forecasting;
6. Apply knowledge of federal statutes, regulations, and guidance to rate-setting and waiver development work under this contract;
7. On fee-for-service reimbursement policy issues, provide actuarial consulting services ranging from expert advice to full-scale development of new reimbursement methods through operational implementation.
8. Expert actuarial consulting services in the form of advice and project work as needed by DCH on an ad hoc basis, which are likely to address issues such as health system reform proposals, financial risk assessments, and methods to maximize federal or grant funding.

1.201 CONTRACTOR STAFF, ROLES, AND RESPONSIBILITIES

2.105 PERFORMANCE AND RELIABILITY EVALUATION (PARE) - RESERVED

The Performance and Reliability Evaluation will consist of two phases.

PHASE I

The first phase shall be comprised of a specification compliance review of the equipment listed on the ordering documents. Such equipment shall be checked for total compliance with all required specifications of the RFQ. In the event that the State determines that any component or feature of the delivered equipment or software does not comply with the mandatory specifications of the RFQ, the State shall so notify the Contractor, allowing 14 calendar days for rectification by the Contractor. Should the Contractor be unable to rectify the deficiency, the State reserves the right to cancel the ordering document. Should the equipment and software pass the specification conformance review, the equipment shall enter Phase II of the PARE.

PHASE II

a. Determination of System Readiness

- 1) Prior to the PARE, a committee of three persons will be formed to evaluate the system's performance on a daily basis. The committee will consist of one Contractor representative and two State personnel.
- 2) The PARE will begin on the installation dates when the Contractor certifies that the equipment is ready for use by the State.

b. During the PARE:

All rerun times resulting from equipment failure and preventive maintenance shall be excluded from the performance hours.

- 1) All reconfiguration and reload time shall be excluded from the performance hours.
- 2) If files are destroyed as a result of a problem with Contractor equipment and must be rebuilt, the time required to rebuild the files will be considered "down-time" for the system.
- 3) If the Contractor requests access to failed equipment and the State refuses, then such maintenance will be deferred to a mutually agreeable time and the intervening time will not count against the PARE.
- 4) A functional benchmark demonstration will be run for the PARE Committee to confirm that the installed system is capable of performing the same functions that were demonstrated. This run must be completed to the satisfaction of the PARE Committee.

STANDARD OF PERFORMANCE

- a. The performance period (a period of thirty consecutive calendar days) shall commence on the installation date, at which time the operational control becomes the responsibility of the State. It is not required that one thirty day period expire in order for another performance period to begin.
- b. If each component operates at an average level of effectiveness of 95 percent or more for a period of 30 consecutive days from the commencement date of the performance period, it shall be deemed to have met the State's standard of performance period. The State shall notify the Contractor in writing of the successful completion of the performance period. The average effectiveness level is a percentage figure determined by dividing the total operational use time by the total operational use time plus associated down-time. In addition, the equipment shall operate in substantial conformance with the Contractor's published specifications applicable to such equipment on the date of this Agreement. Equipment added by amendment to this contract shall operate in conformance with the Contractor's published specifications applicable to such equipment at the time of such amendment.
- c. During the successful performance period, all rerun time resulting from equipment failure and preventive maintenance time shall be excluded from the performance period hours. All reconfigurations and reload time shall be excluded from the performance hours. Equipment failure down-time shall be measured by those intervals during the performance period between the time that the Contractor is notified of equipment failure and the time that the equipment is returned to the State in operating condition.
- d. During the successful performance period, a minimum of 80 hours of operational use time on each component will be required as a basis for computation of the average effectiveness level. However, in computing the effectiveness level, the actual number of operational use hours shall be used when in excess of the minimum stated above.
- e. No more than one hour will accrue to the performance hours during any one wall-clock hour.
- f. Equipment shall not be accepted by the State and no charges will be paid by the State until the standard of performance is met.
- g. When a system involves on-line machines, which are remote to the basic installation, the required effectiveness level shall apply separately to each component in the system.
- h. Promptly upon successful completion of the performance period, the State shall notify the Contractor in writing of acceptance of the equipment and authorize the monthly payments to begin on the first day of the successful performance period.
- i. If successful completion of the performance period is not attained within 90 days of the installation date, the State shall have the option of terminating the Contract, or continuing the performance tests. The State's option to terminate the contract shall remain in effect until such time as a successful completion of the performance period is attained. The Contractor shall be liable for all outbound preparation and shipping costs for contracted items returned under this clause.
- j. The PARE will be complete when the equipment has met the required effectiveness level for the prescribed time period.

In addition, should the equipment, software, commodity, or service, or the operation thereof, become or in the Contractor's opinion be likely to become the subject of a claim of infringement, the Contractor shall at the Contractor's sole expense (i) procure for the State the right to continue using the equipment, software, commodity or service or, if such option is not reasonably available to the Contractor, (ii) replace or modify the same with equipment, software, commodity or service of equivalent function and performance so that it becomes non-infringing, or, if such option is not reasonably available to Contractor, (iii) accept its return by the State with appropriate credits to the State against the Contractor's charges and reimburse the State for any losses or costs incurred as a consequence of the State ceasing its use and returning it.

Code Indemnification

To the extent permitted by law, the Contractor shall indemnify, defend and hold harmless the State from any claim, loss, or expense arising from Contractor's breach of the No Surreptitious Code Warranty.

Indemnification Obligation Not Limited

In any and all claims against the State of Michigan, or any of its agents or employees, by any employee of the Contractor or any of its subcontractors, the indemnification obligation under the Contract shall not be limited in any way by the amount or type of damages, compensation or benefits payable by or for the Contractor or any of its subcontractors under worker's disability compensation acts, disability benefits acts, or other employee benefits acts. This indemnification clause is intended to be comprehensive. Any overlap in sub clauses, or the fact that greater specificity is provided as to some categories of risk, is not intended to limit the scope of indemnification under any other sub clause.

Continuation of Indemnification Obligation

The duty to indemnify will continue in full force and affect notwithstanding the expiration or early termination of the Contract with respect to any claims based on facts or conditions, which occurred prior to termination.

Indemnification Procedures

The procedures set forth below shall apply to all indemnity obligations under this Contract.

- (a) After receipt by the State of notice of the action or proceeding involving a claim in respect of which it will seek indemnification, the State shall promptly notify Contractor of such claim in writing and take or assist Contractor in taking, as the case may be, any reasonable action to avoid the imposition of a default judgment against Contractor. No failure to so notify Contractor shall relieve Contractor of its indemnification obligations except to the extent that Contractor can demonstrate damages attributable to such failure. Within ten (10) days following receipt of written notice from the State relating to any claim, Contractor shall notify the State in writing whether Contractor agrees to assume control of the defense and settlement of that claim (a "Notice of Election"). After notifying Contractor of a claim and prior to the State receiving Contractor's Notice of Election, the State shall be entitled to defend against the claim, at Contractor's expense, and Contractor will be responsible for any reasonable costs incurred by the State in defending against the claim during such period.
- (b) If Contractor delivers a Notice of Election relating to any claim: (i) the State shall be entitled to participate in the defense of such claim and to employ counsel at its own expense to assist in the handling of such claim and to monitor and advise the State about the status and progress of the Defense; (ii) Contractor shall, at the request of the State, demonstrate to the reasonable satisfaction of the State, Contractor's financial ability to carry out its defense and indemnity obligations under this Contract; (iii) Contractor shall periodically advise the State about the status and progress of the defense and shall obtain the prior written approval of the State before entering into any settlement of such claim or ceasing to defend against such claim, which approval shall not be unreasonable withheld or delayed, and (iv) to the extent that any principles of Michigan governmental or public law may be involved or challenged, the State shall have the right, at its own expense, to control the defense of that portion of such claim involving the principles of Michigan governmental or public law. Notwithstanding the foregoing, the State may retain control of the defense and settlement of a claim by written notice to Contractor given within ten (10) days after the State's receipt of Contractor's information requested by the State pursuant to clause (ii) of this paragraph if the State determines that Contractor has failed to demonstrate to the reasonable satisfaction of the State Contractor's financial ability to carry out its defense and indemnity obligations under this Section. Any litigation activity on behalf of the State of Michigan, or any of its subdivisions pursuant to this Section, must be coordinated with the Department of Attorney General. In the event the insurer's attorney represents the State pursuant to this Section, the insurer's attorney may be required to be designated as a Special Assistant Attorney General by the Attorney General of the State of Michigan.
- (c) If Contractor does not deliver a Notice of Election relating to any claim of which it is notified by the State as provided above, the State shall have the right to defend the claim in such manner as it may deem appropriate, at the cost and expense of Contractor. If it is determined that the claim was one against which Contractor was required to indemnify the State, upon request of the State, Contractor shall promptly reimburse the State for all such reasonable costs and expenses.

2.306 LIMITATION OF LIABILITY

The Contractor's liability for damages to the State shall be limited to two times the value of the Contract. The foregoing limitation of liability shall not apply to claims for infringement of United States patent, copyright, trademarks or trade secrets; to claims for personal injury or damage to property caused by the gross negligence or willful misconduct of the Contractor; to Contractor's indemnification obligations (2.305); or to court costs or attorney's fees awarded by a court in addition to damages after litigation based on this Contract.

2.307 CONTRACT DISTRIBUTION

Acquisition Services shall retain the sole right of Contract distribution to all State agencies and local units of government unless other arrangements are authorized by Acquisition Services.

**2.308 FORM, FUNCTION, AND UTILITY**

If the Contract is for use of more than one State agency and if the good or service provided under this Contract do not meet the form, function, and utility required by a State agency, that agency may, subject to State purchasing policies, procure the good or service from another source.

2.309 ASSIGNMENT OF ANTITRUST CAUSE OF ACTION

For and in consideration of the opportunity to submit a quotation and other good and valuable consideration, the bidder hereby assigns, sells and transfers to the State of Michigan all rights, title and interest in and to all causes of action it may have under the antitrust laws of the United States or this State for price fixing, which causes of action have accrued prior to the date of payment and which relate solely to the particular goods, commodities, or services purchased or procured by this State pursuant to this transaction.

2.310 (3.101) CONFIDENTIALITY

Contractor and the State each acknowledge that the other possesses and will continue to possess confidential information that has been developed or received by it. As used in this Section, "Confidential Information" of Contractor shall mean all non-public proprietary information of Contractor (other than Confidential Information of the State as defined below) that is marked confidential, restricted, proprietary, or with a similar designation. "Confidential Information" of the State shall mean any information which is retained in confidence by the State (or otherwise required to be held in confidence by the State pursuant to applicable federal, state and local laws and regulations) or which, in the case of tangible materials provided to Contractor by the State pursuant to its performance under this Contract, is marked as confidential, proprietary or with a similar designation by the State. In the case of information of either Contractor or the State "Confidential Information" shall exclude any information (including this Contract) that is publicly available pursuant to the Michigan FOIA.

Protection of Confidential Information

The State and Contractor will each use at least the same degree of care to prevent disclosing to third parties the Confidential Information of the other as it employs to avoid unauthorized disclosure, publication or dissemination of its own confidential information of like character, but in no event less than reasonable care. Neither Contractor nor the State will (i) make any use of the Confidential Information of the other except as contemplated by this Contract, (ii) acquire any right in or assert any lien against the Confidential Information of the other, or (iii) if requested to do so, refuse for any reason to promptly return the other party's Confidential Information to the other party; provided, however, the Contractor may retain one copy as necessary to comply with professional documentation requirements. Each party will limit disclosure of the other party's Confidential Information to employees and Subcontractors who must have access thereto in order to fulfill the purposes of this Contract. Disclosure to, and use by, a Subcontractor is permissible where (A) use of a Subcontractor is authorized under this Contract, (B) such disclosure is necessary or otherwise naturally occurs in connection with work that is within such Subcontractor's scope of responsibility, and (C) Contractor obligates the Subcontractor in a written Contract to maintain the State's Confidential Information in confidence. At the State's request, any employee of Contractor and of any Subcontractor having access or continued access to the State's Confidential Information may be required to execute an acknowledgment that the employee has been advised of Contractor's and the Subcontractor's obligations under this Section and of the employee's obligation to Contractor or Subcontractor, as the case may be, to protect such Confidential Information from unauthorized use or disclosure.

News releases

News releases (including promotional literature and commercial advertisements) pertaining to the ITB and Contract or project to which it relates shall not be made by a party without prior written approval of the other, and then only as mutually agreeable to the parties. No results of the activities associated with the ITB and Contract are to be released without prior written approval of the other and then only to persons designated.

Exclusions

Notwithstanding the foregoing, the provisions of this Section will not apply to any particular information which the State or Contractor can demonstrate (i) was, at the time of disclosure to it, in the public domain; (ii) after disclosure to it, is published or otherwise becomes part of the public domain through no fault of the receiving party; (iii) was in the possession of the receiving party at the time of disclosure to it without an obligation of confidentiality; (iv) was received after disclosure to it from a third party who had a lawful right to disclose such information to it without any obligation to restrict its further disclosure; or (v) was independently developed by the receiving party without reference to Confidential Information of the furnishing party. Further, the provisions of this Section will not apply to any particular Confidential Information to the extent the receiving party is required by law to disclose such Confidential Information, provided that the receiving party (i) promptly provides the furnishing party with notice of the legal request, and (ii) assists the furnishing party in resisting or limiting the scope of such disclosure as reasonably requested by the furnishing party.

No Implied Rights

Nothing contained in this Section shall be construed as obligating a party to disclose any particular Confidential Information to the other party, or as granting to or conferring on a party, expressly or impliedly, any right or license to the Confidential Information of the other party.

Distribution of Contractor Work Product

Contractor's work is prepared for the use and benefit of the State and its employees in accordance with its statutory and regulatory requirements. Contractor recognizes that materials it delivers to the State may be public records subject to disclosure to third parties, however, Contractor does not intend to benefit and assumes no duty or liability to any third parties who receive Contractor's work in this fashion and it may include language on its work product so stating. To the extent that Contractor's work is not subject to disclosure under applicable public records laws, the State agrees that it shall not disclose Contractor's work product to third parties without Contractor's prior written consent; provided, however, the State may distribute Contractor's work, in its entirety, to (i) its professional service providers who are subject to a duty of confidentiality and who agree to use Contractor's work solely to provide services to the State, (ii) Centers for Medicare and Medicaid Services (CMS), or (iii) any applicable regulatory or governmental agency, as required.

Remedies

Each party acknowledges that, if it breaches (or attempts or threatens to breach) its obligations under this Section, the other party may be irreparably harmed. Accordingly, if a court of competent jurisdiction should find that a party has breached (or attempted or threatened to breach) any such obligations, the non-breaching party shall be entitled to seek an injunction preventing such breach (or attempted or threatened breach).

Survival

The parties' respective obligations under this Section shall survive the termination or expiration of this Contract for any reason.

Destruction of Confidential Information

Promptly upon termination or cancellation of the Contract for any reason, Contractor shall certify to the State that Contractor has destroyed all State Confidential Information.

2.311 TRANSITION ASSISTANCE

If this Contract is not renewed at the end of this term, or is canceled prior to its expiration, for any reason, the Contractor must provide for up to 90 days after the expiration or cancellation of this Contract, all reasonable transition assistance requested by the State, to allow for the expired or canceled portion of the Services to continue without interruption or adverse effect, and to facilitate the orderly transfer of such services to the State or its designees. Such transition assistance will be deemed by the parties to be governed by the terms and conditions of this Contract, (notwithstanding this expiration or cancellation) except for those Contract terms or conditions that do not reasonably apply to such transition assistance. The State shall pay the Contractor for any resources utilized in performing such transition assistance at the most current rates provided by the Contract for Contract performance.

2.312 WORK PRODUCT

Work Products shall be considered works made by the Contractor for hire by the State and shall belong exclusively to the State and its designees, unless specifically provided otherwise by mutual agreement of the Contractor and the State. If by operation of law any of the Work Product, including all related intellectual property rights, is not owned in its entirety by the State automatically upon creation thereof, the Contractor agrees to assign, and hereby assigns to the State and its designees the ownership of such Work Product, including all related intellectual property rights. The Contractor agrees to provide, at no additional charge, any assistance and to execute any action reasonably required for the State to perfect its intellectual property rights with respect to the aforementioned Work Product.

Notwithstanding any provision of this Contract to the contrary, any preexisting work or materials including, but not limited to, any routines, libraries, tools, methodologies, processes or technologies (collectively, the "Development Tools") created, adapted or used by the Contractor in its business generally, including any and all associated intellectual property rights, shall be and remain the sole property of the Contractor, and the State shall have no interest in or claim to such preexisting work, materials or Development Tools, except as necessary to exercise its rights in the Work Product. Such rights belonging to the State shall include, but not be limited to, the right to use, execute, reproduce, display, perform and distribute copies of and prepare derivative works based upon the Work Product, and the right to authorize others to do any of the foregoing, irrespective of the existence therein of preexisting work, materials and Development Tools, except as specifically limited herein.

The Contractor and its subcontractors shall be free to use and employ their general skills, knowledge and expertise, and to use, disclose, and employ any generalized ideas, concepts, knowledge, methods, techniques or skills gained or learned during the course of performing the services under this Contract, so long as the Contractor or its subcontractors acquire and apply such information without disclosure of any confidential or proprietary information of the State, and without any unauthorized use or disclosure of any Work Product resulting from this Contract.

2.313 PROPRIETARY RIGHTS

A. Software Ownership

Ownership of Work Product by State.

All Deliverables shall be owned by the State and shall be considered works made for hire by the Contractor for the State. The State shall own all United States and international copyrights, trademarks, patents or other proprietary rights in the Deliverables.

For the purposes of this license, "site-wide" includes any State of Michigan office regardless of its physical location.

The State may modify the Software and may combine such with other programs or materials to form a derivative work. The State will own and hold all copyright, trademark, patent and other intellectual property rights in any derivative work, excluding any rights or interest in Software other than those granted in this Contract.

The State may copy each item of Software to multiple hard drives or networks.

The State will make and maintain no more than one archival copy of each item of Software, and each copy will contain all legends and notices and will be subject to the same conditions and restrictions as the original. The State may also make copies of the Software in the course of routine backups of hard drive(s) for the purpose of recovery of hard drive contents.

In the event that the Contractor shall, for any reason, cease to conduct business, or cease to support the Software, the State shall have the right to convert these licenses into perpetual licenses, with rights of quiet enjoyment, but subject to payment obligations not to exceed the then current rates.

2.314 WEBSITE INCORPORATION

State expressly states that it will not be bound by any content on the Contractor's website, even if the Contractor's documentation specifically referenced that content and attempts to incorporate it into any other communication, unless the State has actual knowledge of such content and has expressly agreed to be bound by it in a writing that has been manually signed by an authorized representation of the State.

2.503 3.103 DISCLOSURE OF LITIGATION

Assurances - In the event that such investigation, litigation, arbitration or other proceedings disclosed to the State pursuant to this Section, or of which the State otherwise becomes aware, during the term of this Contract, causes the State to be reasonably concerned about:

- b. Whether the Contractor or its subcontractor in performing services is engaged in conduct which is similar in nature to conduct alleged in such investigation, litigation, arbitration or other proceedings, which conduct would constitute a breach of this Contract or violation of Michigan or Federal law, regulation or public policy, then
