### **1.0 Introduction**

#### **1.001 DEFINING DOCUMENT**

This is a contract for catch basin cleaning and/or curb/street sweeping for the Michigan Department of Transportation (MDOT), for location(s) identified herein Bay and University Regions in the State of Michigan. Anticipated contract effective date is listed on the Location Specification Sheet for each location. See § 2.004, Contract Term, for more information.

#### **1.002 PROJECT BACKGROUND**

In an effort to streamline state government, save taxpayer dollars, and increase efficiency, the Department of Management and Budget's Purchasing Operations is implementing [regional solicitations] for some of its Maintenance, Repair, & Operations (MRO) Service Contracts.

The MRO regionalization initiative, in its official launch, is focusing on over 700 contracts individually over \$25,000 and collectively over \$100 million dollars for Janitorial, Rubbish Removal, Grounds Maintenance, Snow Removal, and Security Guard Services.

Goals for statewide regionalization initiative of MRO services include:

- Consolidation of similar contracted services;
- Reducing duplication and administrative costs involved in the solicitation process;
- Implementation of a proactive solicitation cycle;
- Increasing the number of competitive bidders on services by expanding the State of Michigan's contractor pool; and
- Offering outreach opportunities to vendor communities and promoting doing business with the State of Michigan.

#### **1.003 PROJECT DESCRIPTION AND SCOPE OF WORK**

The Contractor shall provide clean out of specified catch basins under the jurisdiction of the Department in accordance with requirements stated herein and/or curb/street sweeping of the specified roads, bridges, and paved traffic islands, under the jurisdiction of the department in accordance with requirements of this contract. Sweeping shall be defined as a clean sweep and removal of all debris regardless of the number of times swept to obtain a clean street regardless of type of equipment necessary for total dirt and debris removal. The Contractor shall also furnish supervision and all labor, equipment, transportation, disposal of catch basin debris and/or sweepings in accordance with all Federal and State statues and incidentals necessary to satisfactorily perform the services at the frequencies and during the times as specified herein. The services shall include all functions normally considered a part of workmanlike, satisfactory public service.

The specifications contained in this Contract have been developed to establish the minimum level of catch basin cleaning and/or curb/street sweeping services required and operated by the Michigan Department of Transportation (MDOT).

##### **Catch Basin**

The Contractor shall inspect all drainage structures and catch basins scheduled for clean out in each year of this contract to determine the amount of material in each drainage structure and catch basin. The Contractor shall clean all structures and catch basins containing 2 inches or more of material. The Contractor shall prepare an inspection log each week during cleaning operations using the format provided by MDOT called the Weekly Catch Basin Inspection Report. The log shall identify each drainage structure and catch basin inspected. The log shall include the route number, trunk line name and direction of travel, the name of the nearest intersection, the catch basins distance from the intersection, the nearest street address, the depth of contents and remarks describing needed repairs. The Contractor shall update the log each week and provide copy of the log to the Contract Compliance Inspector each week during cleaning operations. The inspection log shall identify the amount of material in the catch basin or drainage structure, any repairs they may need and any blocked outlets.

One Unit shall equal one (1) catch basin as described on the Location Specification Sheet and on the pricing as an attachment to this contract.

#### Curb/Street Sweeping

The Contractor shall perform two (2) complete curb sweepings per year on the routes identified in this contract for Routine Sweeping from June 6, 2006 and ending May 2009.

Each of the two (2) routine complete curb sweepings should be scheduled as follows:

1. First week of April each year (weather permitting).
2. Immediately following the date of September 01 of each year.

The Contractor shall also perform two additional sweeping cycles on the routes identified under Areas of Increased Frequency Sweeping between July and November of each year.

Each of the two (2) Areas of Increased Frequency Sweeping complete curb sweepings should be scheduled as follows:

1. The first week of July.
2. The second week of November.

The Contractor shall sweep both sides of the median barrier walls. The paved areas shall be free of all dirt and debris. All drainage inlet tops shall be free of debris following sweeping.

One Unit shall equal one (1) mile of curb/street sweeping as described on the Location Specification Sheet and on the pricing as an attachment to this contract.

#### Non-Sweeping Debris

Any debris that can not be removed by mechanical sweeping, but can be picked up by one person, shall be collected by hand or other means before sweeping and disposed of in a class two landfill. Debris that cannot be picked up by one person shall be reported to the Contract Compliance Inspector. Examples of debris that cannot be removed by mechanical sweepers include, but are not limited to: rocks, bricks, bottles, tree limbs and sticks. Examples of debris that can be removed by mechanical sweepers include, but are not limited to: dirt, paper and leaf piles less than eight (8) inches in depth.

#### Dust Control

All sweeping shall be accomplished with using water for dust control. The Contractor shall contact the local municipality for water and hydrant use, and comply with their requirements and all applicable regulations at no additional cost to the department.

#### Emergency Requests

The Contractor shall be available 24 hours, 7 days a week. The Contractor shall organize his/her operations to respond to emergency calls for catch basin clean out and/or sweeping services from the Contract Compliance Inspector. Following a call from the Contract Compliance Inspector, the Contractor shall provide the necessary equipment for catch basin clean out and/or sweeping at the designated scene within one hour of notice. This activity is typically done in conjunction with localized flooding for catch basin clean out and an accident, which may involve removing debris contaminated with fuel, for sweeping.

Payment for emergency call outs shall be paid at an hourly rate. The billable time will begin when the Contractor arrives at the emergency scene with all personnel and equipment needed to perform the cleaning/sweeping. One (1) additional hour for travel to the job sight and one (1) additional hour for travel from the site will be paid for each emergency call out. The Contractor shall include the cost of supervision and all labor, equipment, water, transportation, fees for disposal of sweepings in accordance with all Federal and State statues, and incidentals necessary to satisfactorily perform this service.

## 1.004 PROJECT CONTROL

### Project Control

- a. The Contractor will carry out this project under the direction and control of MDOT.
- b. Although there will be continuous liaison with the Contractor, the client agency's project director will meet as needed for the purpose of reviewing progress and providing necessary guidance with the Contractor in solving any problems that may arise.

### Multiple Contracts Awarded to the Same Vendor

If a vendor is the best value bidder on more than one contract, including subcontracts with local units of government, the vendor shall demonstrate that sufficient equipment be available for each contract as described above. The vendor must therefore provide a detailed equipment list that includes, for each piece of equipment to be used on contracts with the Department, the year of manufacture, manufacturer's name, model name and serial number and any lease contracts when applicable. This documentation must be furnished to the Purchasing Unit prior to any contract award. The Department reserves the right to inspect the vendor's equipment prior to the contract award and at any time throughout the duration of this contract. The Department reserves the right to restrict the number of contracts awarded to a single vendor based on the ability of the contractor to satisfactorily perform contract work within contract time limits.

### Volume of Service

Volume of service for this Contract is identified as estimates only on the Location Specification Sheets. The Contract Compliance Inspector will determine final unit number(s) to be cleaned/swept.

## 1.005 COMMENCEMENT OF WORK

The Contractor shall show acceptance of this agreement by signing a copy of this contract and returning it to Purchasing Operations. The Contractor shall not proceed with performance of the work to be done under this agreement, including the purchase of necessary materials, until both parties have signed this agreement to show acceptance of its terms.

### **Annual Service Review and Progress Meeting**

During the first week of April for curb/street sweeping or first week of May for catch basin cleaning of each year of this contract, prior to the first curb sweeping/catch basin cleaning, the Contractor and Contract Compliance Inspector shall meet to review and update the progress schedule for the coming season, identify any personnel changes, equipment changes and exchange special event schedules.

The Contract Compliance Inspector may request an audit of the services provided each year under the specifications, terms, and conditions of this contract. The audit will be a joint activity of the Michigan Department of Transportation and the Office of Purchasing.

An unsatisfactory audit will result in cancellation of the contract under the terms of the Cancellation Clause in this contract. Further, should this contract be cancelled for cause, the Contractor so cancelled will not be allowed to participate in request(s) for continuation of this service.

The audit will consist of an evaluation of the total service quality, including responsiveness, timeliness of required reporting, and any other specifics as required under the terms of the contract. The results of the audit along with contract recommendations will be published by the Office of Purchasing and distributed to the Michigan Department of Transportation and the Contractor(s).

Should the Contractor desire, a meeting will be arranged between all concerned parties within 10 (ten) calendar days of the date the Contractor received, or could have reasonably been expected to receive, his/her copy of the audit. This meeting will provide an opportunity for the Contractor to present his/her reactions to audit recommendations.

### Detailed Progress Schedule

Work must be performed in accordance with the progress schedule submitted with the Contractor's Work Plan at the Pre-Award Meeting and described below (see §1.102).

The first failure to complete work as defined in the progress schedule without prior approval to adjust the schedule from the Contract Compliance Inspector shall result in a Vendor Performance being issued and a meeting with the Contractor to insure corrective action. The second such failure will result in termination of the contract. The progress schedule must address all work to be completed when multiple contracts are awarded to the same vendor, including work performed as a subcontractor for a local unit of government.

The progress schedule must address all services to be completed by the Contractor. (If the vendor has multiple contracts for curb/street sweeping on the State Trunk Line System, the progress schedule shall include any curb/street sweeping performed on the State Trunk Line System whether for the Department or as a Department subcontractor for a local unit of government.)

### Contractor's Work Plan

Contractor's Work Plan, which must be approved prior to commencement of work, must include the following:

- A. EQUIPMENT LIST - indicating description, age, manufacturer, model and serial number of each piece. Equipment must meet or exceed all requirements defined under "Equipment Requirements" on page 5 of this document. All equipment must be in the vendor's possession, available for use and fully operational, prior to the Pre-Award meeting. The Contractor must provide an equipment list and any lease contracts at the Pre-Award Meeting.
- B. SCHEDULE OF OPERATIONS - personnel and hours expected to complete work on this contract.
- C. Name(s) of supervisors – 24-hour contact telephone numbers and best contact times.
- D. Progress schedule listing locations where cleaning will occur including a schedule of curb miles to be swept each day. Equipment failure **WILL NOT** constitute an acceptable reason for deviating from the progress schedule. This schedule must be approved by the Department at the Pre-Award Meeting. Adjustments to this schedule, including any weather-related deviations, must be approved by the Contract Compliance Inspector or designated representative.
- E. Safety Program, including traffic control plan(s).
- F. Name/location of Class II disposal site for sweeping material.
- G. Proof of Insurance as defined in the Standard Terms and Conditions attached to this document must be provided to the Purchasing Unit prior to the Pre-Award Meeting.
- H. The Contractor is responsible for notifying the County or Municipality before starting work in their area. The Contract Compliance Inspector will provide a Directory of Municipal Offices and County Directory at the Pre-Award Meeting.
- I. Copy of Liquid Waste Hauler License.
- J. Any misrepresentation by the Contractor of its ability to perform the work described in this contract will be grounds for immediate termination. In such case, the contract will be awarded to the next best value bidder who can demonstrate the ability to perform the work.

### **Days/Hours of Operation**

All work included in this contract, except trouble/emergency calls, shall be performed during daylight hours only, unless otherwise directed by the Contract Compliance Inspector (contact CCI for authorization of nighttime work in specific locations). No work shall be allowed on weekends unless prior approval is obtained from the Contract Compliance Inspector. Work shall not be permitted during holiday periods in accordance with the 2003 Michigan Department of Transportation Standard Specifications for Construction or during special events. The Contractor shall furnish, operate and maintain suitable and adequate equipment necessary to perform the cleaning and/or sweeping operation in an approved safe, workmanlike manner without hindrance, delay or damage to the roadside. Under no circumstances shall the Department be responsible for any damage to the contractor's equipment due to obstacles encountered.

#### Type of Equipment

The Contractor shall be required to use a cleaner/sweeper with dual steering control and hold at least five (5) cubic yards of debris. All equipment shall be approved through an acceptable

demonstration of the equipment's capabilities, suitability and condition to the Department. Demonstrations will be at no cost to the Department.

#### GPS/GIS System

Each structure and/or area of curbing shall be located with a Quality Stand Alone GPS (Global Positioning System). Such as:

- \*Trimble GeoExplorer CE Series Model GeoXT, or approved equivalent.  
Accuracy - 3 feet or less.

Data from the Quality Stand Alone G.P.S. receiver for each catch basin cleaned shall be recorded on Excel Spreadsheets (sample provided at the end of this document) and supplied electronically via e-mail, disk or CD. Corrected inventory spreadsheets shall be submitted with each invoice for payment. Data shall consist of a unique number/letter for each structure with corresponding coordinate. An accuracy statement and description of coordinate system used shall be included on inventory sheets.

#### Safety

All equipment shall meet all federal, state and local safety requirements. Equipment shall be equipped with commercial type flashing amber lights plainly visible from all directions. Flashers shall have a minimum of 32 candlepower output and flash 50 to 60 times per minute.

A lighted arrow Type B or C as specified in the 2003 Michigan Department of Transportation Standard Specifications for Construction shall be mounted on, or towed behind, each vehicle.

#### Truck Mounted Attenuators (TMA)

Description: The Contractor will use truck-mounted attenuators (TMA's) to shield workers or work equipment from errant vehicles according to the following guidelines.

TMA's will be used for projects on freeways and roadways with operating speeds of 45 mph or greater where personnel or equipment are exposed to traffic and one or more of the following conditions are met:

- The vehicle is designated as a protective vehicle (shadow or barrier) as part of the maintenance of traffic plans.
- Aerial work is being performed on scaffolding, lifts, hoists, bucket trucks, etc., where workers using this equipment are exposed to moving traffic in an occupied lane or shoulder.

- Mobile/short duration operations such as pavement marking convoys, grinding in rumble strips, sign installations, luminescent installations, etc.

TMA's shall not be mounted on the vehicle or equipment used by personnel to complete aerial work. TMA's shall not be used as a temporary/permanent barrier ending except during replacement of damaged temporary/permanent barrier ending. In the event that a TMA is used as a temporary safety measure for a damaged temporary/permanent barrier ending, the maximum length of time that a TMA shall be used for this purpose shall be 48 hours or as approved by the Engineer.

Stationary Operation: This work shall consist of furnishing a vehicle with an actual gross vehicle weight of 12 tons (min. weight) and furnishing, installing and operating a truck mounted attenuator (TMA) according to the manufacturer's recommendations, the plans/proposal, and/or as directed by the Engineer. The attenuator placement shall be located as detailed in the applicable maintaining traffic typical.

Material loaded onto the vehicle to obtain the required gross weight shall be securely attached to the vehicle to prevent movement should the TMA be hit.

Mobile Operation: This work shall consist of furnishing a vehicle with an actual gross vehicle weight of 5 tons (min. weight) and furnishing, installing and operating a truck mounted attenuator

(TMA) according to the manufacturer's recommendations, and/or as directed by the Engineer. The attenuator placement shall be located as detailed in the applicable maintaining traffic typical.

Material loaded onto the vehicle for transport or during work operations shall be securely attached to the vehicle to prevent movement should the TMA be hit. Hazardous materials will not be allowed on this vehicle. Materials loaded onto the vehicle shall not be considered part of the vehicle gross weight.

Materials and Design: All TMA's used shall meet or exceed the requirements of NCHRP 350 test level II and III for work zone traffic control devices.

A TMA rated for (NCHRP 350 – Test Level II) shall be used on non-freeway roadways with a normal posted speed of 55 mph or less, which have been reduced to 45 mph or less. These TMA's shall be prohibited for use on all freeways, non-freeway roadways with posted speed limits of 65 mph or greater and all work zones posted at 50 mph or greater.

A TMA rated for (NCHRP 350 – Test Level III) must be utilized on all freeways, non-freeway roadways with posted speed limits of 65 mph or greater and all work zones posted at 45 mph or greater. The TMA's may also be used on all other roadways.

The TMA vehicle shall have a letter from the Contractor or manufacturer stating the TMA being used meets the above stated NCHRP 350 criteria, and has been installed and maintained according to manufacturers specifications. Upon request, a copy of this letter must be furnished to the Engineer.

The face of the TMA, visible to approaching traffic shall have reflectorized alternating yellow and black stripes, similar to the obstacle markers on the MMUTCD.

Operating Details and Utilization: The TMA shall be operated as per manufacturers' recommendations, the plans/proposal, and/or as directed by the Engineer. This includes, but is not limited to, the following:

- The height from the bottom of the TMA to the roadway surface shall be 12 inches ( $\pm$  1 inch).
- The TMA shall be parallel (level) with the roadway surface.
- The manufacturers of the approved TMA's recommend a shoulder harness and headrest be provided for the TMA vehicle's operator.

For stationary operations, when operating the vehicle with the attenuator installed, the vehicle shall be in gear if it has a standard transmission (park if an automatic transmission), with the brakes set and steering wheels turned away from the work area and traffic, if possible (the TMA shall be placed according to the roll ahead distance table located at the end of this section).

Measurement and payment: Truck Mounted attenuators will be furnished and operated as part of the contract at no cost to the Department. The Department will pay for repair or replacement of the attenuator on the project if struck by something other than the Contactor's own equipment, and if the following criteria are met:

- The damaged or destroyed attenuator must meet all of the manufacturing and operating criteria of this special provision.
- The Contractor shall have the attenuators inspected by the Manufacturer/Supplier to ensure that the units are in good working order. Documentation of the inspection is to be provided to the Engineer prior to the start of work.
- The Contractor shall be required to provide an accident report from the enforcement agency involved in the accident investigation.
- The attenuator repair or replacement will be for the actual unit as required by this special provision. The cost to perform the repairs or replace the attenuator including installation will be paid for by the Contractor. A detailed invoice from the Supplier showing material costs for replacement or repair shall be provided to the Engineer for payment. The repair or replacement cost will not exceed the Suppliers invoice cost for a new attenuator.
- The Department will not pay for any costs that are required to replace or repair the barrier vehicle and any other items that were used to operate the attenuator.

Notwithstanding the foregoing, the State may retain control of the defense and settlement of a claim by written notice to Contractor given within ten (10) days after the State's receipt of Contractor's information requested by the State pursuant to clause (ii) of this paragraph if the State determines that Contractor has failed to demonstrate to the reasonable satisfaction of the State Contractor's financial ability to carry out its defense and indemnity obligations under this Section. Any litigation activity on behalf of the State of Michigan, or any of its subdivisions pursuant to this Section, must be coordinated with the Department of Attorney General.

In the event the insurer's attorney represents the State pursuant to this Section, the insurer's attorney may be required to be designated as a Special Assistant Attorney General by the Attorney General of the State of Michigan.

- (c) If Contractor does not deliver a Notice of Election relating to any claim of which it is notified by the State as provided above, the State shall have the right to defend the claim in such manner as it may deem appropriate, at the cost and expense of Contractor. The Contractor agrees that the continuity of Key Personnel is critical and agrees to the continuity of Key Personnel. Removal of Key Personnel without the written consent of the State may be considered by the State to be a material breach of this Contract. The prohibition against removal or reassignment shall not apply where Key Personnel must be replaced for reasons beyond the reasonable control of the Contractor including but not limited to illness, disability, resignation or termination of the Key Personnel's employment.

## **2.509 RESERVED**

## **2.6 Breach of Contract**

### **2.601 BREACH DEFINED**

Failure to comply with articles, sections, or subsections of this agreement, or making any false statement in this agreement will be considered a material breach of this agreement giving the state authority to invoke any and all remedies available to it under this agreement.

In addition to any remedies available in law and by the terms of this contract, if the Contractor breaches Sections 2.508, 2.509, or 2.510, such a breach may be considered as a default in the performance of a material obligation of this contract.

### **2.602 NOTICE AND THE RIGHT TO CURE**

In the event of a curable breach by the Contractor, the State shall provide the Contractor written notice of the breach and a time period to cure said breach described in the notice. This section requiring notice and an opportunity to cure shall not be applicable in the event of successive or repeated breaches of the same nature or if the State determines in its sole discretion that the breach poses a serious and imminent threat to the health or safety of any person or the imminent loss, damage or destruction of any real or tangible personal property.

### **2.603 EXCUSABLE FAILURE**

1. Neither party shall be liable for any default or delay in the performance of its obligations under the Contract if and to the extent such default or delay is caused, directly or indirectly, by: fire, flood, earthquake, elements of nature or acts of God; riots, civil disorders, rebellions or revolutions in any country; the failure of the other party to perform its material responsibilities under the Contract (either itself or through another contractor); injunctions (provided the injunction was not issued as a result of any fault or negligence of the party seeking to have its default or delay excused); or any other cause beyond the reasonable control of such party; provided the non-performing party and its subcontractors are without fault in causing such default or delay, and such default or delay could not have been prevented by reasonable precautions and cannot reasonably be circumvented by the non-performing party through the use of alternate sources, workaround plans or other means, including disaster recovery plans. In such event, the non-performing party will be excused from any further performance or observance of the obligation(s) so affected for as long as such circumstances prevail and such party continues to use its best efforts to recommence performance or observance whenever and to whatever extent possible without delay provided such party promptly notifies the other party in writing of the inception of the excusable failure occurrence, and also of its abatement or cessation.

2. If any of the above enumerated circumstances substantially prevent, hinder, or delay performance of the services necessary for the performance of the State's functions for more than 14 consecutive days, and the State determines that performance is not likely to be resumed within a period of time that is satisfactory to the State in its reasonable discretion, then at the State's option: (a) the State may procure the affected services from an alternate source, and the State shall not be liable for payments for the unperformed services under the Contract for so long as the delay in performance shall continue; (b) the State may cancel any portions of the Contract so affected and the charges payable hereunder shall be equitably adjusted to reflect those services canceled; or (c) the Contract will be canceled without liability of the State to the Contractor as of the date specified by the State in a written notice of cancellation to the Contractor. The Contractor will not have the right to any additional payments from the State as a result of any excusable failure occurrence or to payments for services not rendered as a result of the excusable failure condition. Defaults or delays in performance by the Contractor which are caused by acts or omissions of its subcontractors will not relieve the Contractor of its obligations under the Contract except to the extent that a subcontractor is itself subject to any excusable failure condition described above and the Contractor cannot reasonably circumvent the effect of the subcontractor's default or delay in performance through the use of alternate sources, workaround plans or other means.

## 2.7 Remedies

### 2.701 CANCELLATION

The State may cancel this Contract without further liability or penalty to the State, its departments, divisions, agencies, offices, commissions, officers, agents, and employees for any of the following reasons:

1. Material Breach by the Contractor. In the event that the Contractor breaches any of its material duties or obligations under the Contract, which are either not capable of or subject to being cured, or are not cured within the time period specified in the written notice of breach provided by the State, or pose a serious and imminent threat to the health and safety of any person, or the imminent loss, damage or destruction of any real or tangible personal property, the State may, having provided written notice of cancellation to the Contractor, cancel this Contract in whole or in part, for cause, as of the date specified in the notice of cancellation.

In the event that this Contract is cancelled for cause, in addition to any legal remedies otherwise available to the State by law or equity, the Contractor shall be responsible for all costs incurred by the State in canceling the Contract, including but not limited to, State administrative costs, attorneys fees and court costs, and any additional costs the State may incur to procure the services required by this Contract from other sources. All excess re-procurement costs and damages shall not be considered by the parties to be consequential, indirect or incidental, and shall not be excluded by any other terms otherwise included in the Contract.

In the event the State chooses to partially cancel this Contract for cause charges payable under this Contract will be equitably adjusted to reflect those services that are cancelled.

In the event this Contract is cancelled for cause pursuant to this section, and it is therefore determined, for any reason, that the Contractor was not in breach of contract pursuant to the provisions of this section, that cancellation for cause shall be deemed to have been a cancellation for convenience, effective as of the same date, and the rights and obligations of the parties shall be limited to that otherwise provided in the Contract for a cancellation for convenience.

2. Cancellation For Convenience By the State. The State may cancel this Contract for its convenience, in whole or part, if the State determines that such a cancellation is in the State's best interest. Reasons for such cancellation shall be left to the sole discretion of the State and may include, but not limited to (a) the State no longer needs the services or products specified in the Contract, (b) relocation of office, program changes, changes in laws, rules, or regulations make implementation of the Contract services no longer practical or feasible, and (c) unacceptable prices for additional services requested by the State. The State may cancel the Contract for its convenience, in whole or in part, by giving the Contractor written notice 30 days prior to the date of cancellation. If the State chooses to cancel this Contract in part, the charges payable under this Contract shall be equitably adjusted to reflect those services that are cancelled.

3. Non-Appropriation. In the event that funds to enable the State to effect continued payment under this Contract are not appropriated or otherwise made available. The Contractor acknowledges that, if this Contract extends for several fiscal years, continuation of this Contract is subject to appropriation or availability of funds for this project. If funds are not appropriated or otherwise made available, the State shall have the right to cancel this Contract at the end of the last period for which funds have been appropriated or otherwise made available by giving written notice of cancellation to the Contractor. The State shall give the Contractor written notice of such non-appropriation or unavailability within 30 days after it receives notice of such non-appropriation or unavailability.
4. Criminal Conviction. In the event the Contractor, an officer of the Contractor, or an owner of a 25% or greater share of the Contractor, is convicted of a criminal offense incident to the application for or performance of a State, public or private Contract or subcontract; or convicted of a criminal offense including but not limited to any of the following: embezzlement, theft, forgery, bribery, falsification or destruction of records, receiving stolen property, attempting to influence a public employee to breach the ethical conduct standards for State of Michigan employees; convicted under State or federal antitrust statutes; or convicted of any other criminal offense which in the sole discretion of the State, reflects upon the Contractor's business integrity.
5. Approvals Rescinded. The State may terminate this Contract without further liability or penalty in the event any final administrative or judicial decision or adjudication disapproves a previously approved request for purchase of personal services pursuant to Constitution 1963, Article 11, section 5, and Civil Service Rule 7. Termination may be in whole or in part and may be immediate as of the date of the written notice to Contractor or may be effective as of the date stated in such written notice.

## 2.702 RIGHTS UPON CANCELLATION

### A. Rights and Obligations Upon Termination

- (1) If this Contract is terminated by the State for any reason, Contractor shall (a) stop all work as specified in the notice of termination, (b) take any action that may be necessary, or that the State may direct, for preservation and protection of Deliverables or other property derived or resulting from this Contract that may be in Contractor's possession, (c) return all materials and property provided directly or indirectly to Contractor by any entity, agent or employee of the State, (d) in the event that the Contractor maintains title in equipment and software that is intended to be transferred to the State at the termination of the Contract, Contractor will transfer title in, and deliver to, the State, unless otherwise directed, all Deliverables and other Developed Materials intended to be transferred to the State at the termination of the Contract and which are resulting from the Contract (which shall be provided to the State on an "As-Is" basis except to the extent the amounts paid by the State in respect of such items included compensation to Contractor for the provision of warranty services in respect of such materials), and (e) take any action to mitigate and limit any potential damages, or requests for Contractor adjustment or termination settlement costs, to the maximum practical extent, including terminating or limiting as otherwise applicable those subcontracts and outstanding orders for material and supplies resulting from the terminated Contract.

All completed or partially completed Deliverables prepared by Contractor pursuant to this Contract shall, at the option of the State, become the State's property, and Contractor shall be entitled to receive equitable fair compensation for such Deliverables. Regardless of the basis for the termination, the State shall not be obligated to pay, or otherwise compensate, Contractor for any lost expected future profits, costs or expenses incurred with respect to Services not actually performed for the State.

Such termination assistance will be deemed by the parties to be governed by the terms and conditions of the Contract (notwithstanding its termination) other than any terms or conditions that do not reasonably apply to such termination assistance. The State shall compensate Contractor for such termination assistance at the same rates and charges set forth in the Contract on a time and materials basis in accordance with the Labor Rates indicated within Contractor's pricing section. If the Contract is terminated by Contractor under **Section 2.0**, then Contractor may condition its provision of termination assistance under this Section on reasonable assurances of payment by the State for such assistance, and any other amounts owed under the Contract.

#### **C. Reservation of Rights**

#### **2.703 LIQUIDATED DAMAGES**

- A. The State and the Contractor hereby agree to the specific standards set forth in this Contract. It is agreed between the Contractor and the State that the actual damages to the State as a result of Contractor's failure to provide promised services would be difficult or impossible to determine with accuracy. The State and the Contractor therefore agree that liquidated damages as set out herein shall be a reasonable approximation of the damages that shall be suffered by the State as a result thereof.

Accordingly, in the event of such damages, at the written direction of the State, the Contractor shall pay the State the indicated amount as liquidated damages, and not as a penalty. Amounts due the State as liquidated damages, if not paid by the Contractor within fifteen (15) days of notification of assessment, may be deducted by the State from any money payable to the Contractor pursuant to this Contract. The State will notify the Contractor in writing of any claim for liquidated damages pursuant to this paragraph on or before the date the State deducts such sums from money payable to the Contractor. No delay by the State in assessing or collecting liquidated damages shall be construed as a waiver of such rights.

- B. Such causes may include, but are not restricted to, acts of God, fires, floods, epidemics, and labor unrest; but in every case the delays must be beyond the control and without the fault or negligence of the Contractor.

The State may, at any time, by written stop work order to the Contractor, require that the Contractor stop all, or any part, of the work called for by this Contract for a period of up to 90 days after the stop work order is delivered to the Contractor, and for any further period to which the parties may agree. The stop work order shall be specifically identified as such and shall indicate that it is issued under this section. Upon receipt of the stop work order, the Contractor shall immediately comply with its terms and take all reasonable steps to minimize the incurrence of costs allocable to the work covered by the stop work order during the period of work stoppage. Within the period of the stop work order, the State shall either:
  - a) Cancel the stop work order; or
  - b) Cancel the work covered by the stop work order as provided in the cancellation section of this Contract.
2. If a stop work order issued under this section is canceled or the period of the stop work order or any extension thereof expires, the Contractor shall resume work. The State shall make an equitable adjustment in the delivery schedule, the contract price, or both, and the Contract shall be modified, in writing, accordingly, if:
  - a) The stop work order results in an increase in the time required for, or in the Contractor's costs properly allocable to the performance of any part of this Contract; and
  - b) The Contractor asserts its right to an equitable adjustment within 30 days after the end of the period of work stoppage; provided, that if the State decides the facts justify the action, the State may receive and act upon a proposal submitted at any time before final payment under this Contract.
3. If the stop work order is not canceled and the work covered by the stop work order is canceled for reasons other than material breach, the State shall allow reasonable costs resulting from the stop work order in arriving at the cancellation settlement.
4. If a stop work order is not canceled and the work covered by the stop work order is canceled for material breach, the State shall not allow, by equitable adjustment or otherwise, reasonable costs resulting from the stop work order.

An appropriate equitable adjustment may be made in any related contract of the Contractor that provides for adjustment and is affected by any stop work order under this section. The State shall not be liable to the Contractor for loss of profits because of a stop work order issued under this section.

## 2.705 SUSPENSION OF WORK

The Contract Compliance Inspector may order the Contractor, in writing, to suspend, delay, or interrupt all or any part of the work of this contract for the period of time that the Contract Compliance Inspector determines appropriate for the convenience of the Government.

If the performance of all or any part of the work is, for an unreasonable period of time, suspended, delayed, or interrupted (1) by an act of the Contract Compliance Inspector in the administration of this contract, or (2) by the Contract Compliance Inspector's failure to act within the time specified in this contract (or within a reasonable time if not specified), an adjustment shall be made for any increase in the cost of performance of this contract (excluding profit) necessarily caused by the unreasonable suspension, delay, or interruption, and the contract modified in writing accordingly. However, no adjustment shall be made under this clause for any suspension, delay, or interruption to the extent that performance would have been so suspended, delayed, or interrupted by any other cause, including the fault or negligence of the Contractor, or for which an equitable adjustment is provided for or excluded under any other term or condition of this contract.

A claim under this clause shall not be allowed:

- (1) For any costs incurred more than 20 days before the Contractor shall have notified the Contract Compliance Inspector in writing of the act or failure to act involved (but this requirement shall not apply as to a claim resulting from a suspension order); and
- (2) Unless the claim, in an amount stated, is asserted in writing as soon as practicable after the termination of the suspension, delay, or interruption, but not later than the date of final payment under the contract.

## 2.8 Changes, Modifications, and Amendments

### 2.801 APPROVALS

### 2.802 TIME EXTENTIONS

Time extensions for contract changes will depend upon the extent, if any, by which the changes cause delay in the completion of the various elements of performance as described in the statement of work. The change order granting the time extension may provide that the contract completion date will be extended only for those specific elements related to the changed work and that the remaining contract completion dates for all other portions of the work will not be altered. The change order also may provide an equitable readjustment of liquidated damages under the new completion schedule.

### 2.803 MODIFICATION

Purchasing Operations reserves the right to modify this contract at any time during the contract term. Such modification may include changing the locations to be serviced, additional locations to be serviced, method or manner of performance of the work, number of days service is to be performed, addition or deletion of tasks to be performed, addition or deletion of items, and/or any other modifications deemed necessary. Any changes in pricing proposed by the Contractor resulting from the proposed changes are subject to acceptance by the State. Changes may be increases or decreases. **IN THE EVENT PRICES ARE NOT ACCEPTABLE TO THE STATE, THE CONTRACT SHALL BE SUBJECT TO COMPETITIVE BIDDING BASED UPON THE NEW SPECIFICATION.**

**The State reserves the right to add an item(s) that is not described on the item listing and is available from the Contract vendor.** The item(s) may be included on the Contract, only if prior written approval has been granted by Purchasing Operations.

Data may include accounting records, payroll records, employee time sheets, and other information the state deems necessary to perform a fair evaluation of the modification proposal. Contract Compliance Inspector or authorized representative of the state shall have the right to examine and audit all of the contractor's records, including computations and projections, related to:

1. The proposal for modification;
2. The discussions conducted on the proposal, including those related to negotiation;
3. Pricing of the modification; or
4. Performance of the modification.

- (a) The Contract Compliance Inspector may, at any time, without notice to the sureties, if any, by written order designated or indicated to be a change order, make changes in the work within the general scope of the contract, including changes:
  - (1) In the specifications (including drawings and designs);
  - (2) In the method or manner of performance of the work;
  - (3) In the Government-furnished facilities, equipment, materials, services, or site; or
  - (4) Directing acceleration in the performance of the work.
- (b) Any other written or oral order (which, as used in this paragraph (b), includes direction, instruction, interpretation, or determination) from the Contract Compliance Inspector that causes a change shall be treated as a change order under this clause; Provided, that the Contractor gives the Contract Compliance Inspector written notice stating:
  - (1) The date, circumstances, and source of the order; and
  - (2) That the Contractor regards the order as a change order.
- (c) Except as provided in this clause, no order, statement, or conduct of the Contract Compliance Inspector shall be treated as a change under this clause or entitle the Contractor to an equitable adjustment.

### Article 3 – Certifications and Representations

**Note:** As part of the original proposal, the Contractor has completed and responded to applicable sections in Article 3.

#### **3.1 Disclosure Issues**

##### **3.101 CONFIDENTIALITY**

As used in this Section, “Confidential Information” of Contractor shall mean all non-public proprietary information of Contractor (other than Confidential Information of the State as defined below) that is marked confidential, restricted, proprietary, or with a similar designation. “Confidential Information” of the State shall mean any information which is retained in confidence by the State (or otherwise required to be held in confidence by the State pursuant to applicable federal, state and local laws and regulations) or which, in the case of tangible materials provided to Contractor by the State pursuant to its performance under this Contract, is marked as confidential, proprietary or with a similar designation by the State. In the case of information of either Contractor or the State “Confidential Information” shall exclude any information (including this Contract) that is publicly available pursuant to the Michigan FOIA.

##### Protection of Confidential Information

The State and Contractor will each use at least the same degree of care to prevent its closing to third parties the Confidential Information of the other as it employs to avoid unauthorized disclosure, publication or dissemination of its own confidential information of like character, but in no event less than reasonable care. Neither Contractor nor the State will (i) make any use of the Confidential Information of the other except as contemplated by this Contract, (ii) acquire any right in or assert any lien against the Confidential Information of the other, or (iii) if requested to do so, refuse for any reason to promptly return the other party's Confidential Information to the other party. Each party will limit disclosure of the other party's Confidential Information to employees and Subcontractors who must have access thereto in order to fulfill the purposes of this Contract. Disclosure to, and use by, a Subcontractor is permissible where (A) use of a Subcontractor is authorized under this Contract, (B) such disclosure is necessary or otherwise naturally occurs in connection with work that is within such Subcontractor's scope of responsibility, and (C) Contractor obligates the Subcontractor in a written Contract to maintain the State's Confidential Information in confidence. At the State's request, any employee of Contractor and of any Subcontractor having access or continued access to the State's Confidential Information may be required to execute an acknowledgment that the employee has been advised of Contractor's and the Subcontractor's obligations under this Section and of the employee's obligation to Contractor or Subcontractor, as the case may be, to protect such Confidential Information from unauthorized use or disclosure.

##### News releases

News releases (including promotional literature and commercial advertisements) pertaining to the ITB and Contract or project to which it relates shall not be made without prior written State approval, and then only in accordance with the explicit written instructions from the State. No results of the activities associated with the ITB and Contract are to be released without prior written approval of the State and then only to persons designated.

##### Exclusions

Notwithstanding the foregoing, the provisions of this Section will not apply to any particular information which the State or Contractor can demonstrate (i) was, at the time of disclosure to it, in the public domain; (ii) after disclosure to it, is published or otherwise becomes part of the public domain through no fault of the receiving party; (iii) was in the possession of the receiving party at the time of disclosure to it without an obligation of confidentiality; (iv) was received after disclosure to it from a third party who had a lawful right to disclose such information to it without any obligation to restrict its further disclosure; or (v) was independently developed by the receiving party without reference to Confidential Information of the furnishing party.

Further, the provisions of this Section will not apply to any particular Confidential Information to the extent the receiving party is required by law to disclose such Confidential Information, provided that the receiving party (i) promptly provides the furnishing party with notice of the legal request, and (ii) assists the furnishing party in resisting or limiting the scope of such disclosure as reasonably requested by the furnishing party.

#### No Implied Rights

Nothing contained in this Section shall be construed as obligating a party to disclose any particular Confidential Information to the other party, or as granting to or conferring on a party, expressly or impliedly, any right or license to the Confidential Information of the other party.

#### Remedies

Each party acknowledges that, if it breaches (or attempts or threatens to breach) its obligations under this Section, the other party may be irreparably harmed. Accordingly, if a court of competent jurisdiction should find that a party has breached (or attempted or threatened to breach) any such obligations, the non-breaching party shall be entitled to seek an injunction preventing such breach (or attempted or threatened breach).

#### Survival

The parties' respective obligations under this Section shall survive the termination or expiration of this Contract for any reason.

#### Destruction of Confidential Information

Promptly upon termination or cancellation of the Contract for any reason, Contractor shall certify to the State that Contractor has destroyed all State Confidential Information.

### **3.102 FREEDOM OF INFORMATION ACT**

All information in a contractor's original proposal and the Contract is subject to the provisions of the Freedom of Information Act, 1976 Public Act No. 442, as amended, MCL 15.231, et seq

### **3.103 DISCLOSURE OF LITIGATION**
