Federal, State or local law as a result of asbestos or the release or threat of release of any hazardous substance on, in or below the Leased premises, except if the release or threatened release is caused solely by the Lessee.

e) The Lessor and Lessee mutually agree that they shall not release on, in, or below the Leased premises any hazardous substance. The Lessor need not indemnify or defend the Lessee if the release or threatened release is caused solely by the Lessee.

3.4 - The Lessor is responsible for defending the Lessee against any claim whether meritorious or frivolous, by any person challenging the Lessor's right to Lease the Leased premises, and shall at its sole expense satisfy any judgment against the Lessee.

3.5 - The Lessor shall begin the remodeling or construction indicated in paragraph 3.7 within **fifteen (15)** days of Lessor's receipt of a fully executed copy of this Lease. All work required under paragraph 3.7 shall meet the latest local and state building codes, fire codes, and barrier free regulations. The Lessor shall be responsible for acquisition of and payment for all necessary permits.

3.5 - The Lessor shall provide to the Lessee, within fifteen (15) days from the effective date of the Lease, written evidence from a surety company authorized to do business in the State of Michigan, that a performance bond and a payment bond have been issued each in the amount of one hundred percent (100%) of the value of construction as security for the faithful performance of all the work described in Enclosure C and C-1 and this Lease and payment of all charges in connection with the work. Lessor shall obtain such bonds in a manner consistent with Michigan law. Attorneys-in-Fact who sign bonds shall attach a certified copy of their Power of Attorney to sign such bonds and conduct business in the State of Michigan. Each bond shall assure that the Lessee is named as a third-party beneficiary thereunder with full rights and benefits to enforce the terms and conditions of each bond as if the contract(s) was made directly with the Lessee.

a) No later than **thirty (30)** days after the effective date of the Lease, the Lessor shall submit to the Lessee a detailed schedule for the design and construction of the Leased premises conforming to the Critical Path Method as outlined in Enclosure "C". Prior to commencement of construction, the Lessor shall submit detailed preliminary plans and specifications consistent with Enclosure "C" and a schedule of all permits and approvals for review by the Lessee.

b) Lessee will endeavor to use its best efforts to complete the review of the preliminary detailed plans and specifications within **two (2)** weeks of their submittal.

c) Lessee will either approve the preliminary detailed plans and specifications or make comments on them. The Lessor shall incorporate the Lessee's comments into the final design of the Leased premises. Once the final detailed plans and

# SAMPLE GROSS LEASE

specifications are complete, they shall be attached to and become part of this Lease as Enclosure "C-1". Lessor shall supply three (3) copies of the final detailed plans and specifications to the Lessee prior to commencement of construction.

d) No modification shall be made to the final detailed plans and specifications without the prior written consent of the Lessee. Lessor, in constructing the Leased premises, shall use quality materials and comply with all federal, state, and municipal laws, rules, and regulations of any governmental agencies having jurisdiction over the Leased premises. All proposals for the necessary substitution of materials because of shortage or lack of specified materials will be immediately submitted to Lessee, and Lessee may thereupon approve these substitutions, provided they do not alter the quality of the Leased premises.

e) Building plan review and approval as described in this paragraph is not for the Lessor's benefit and the Lessee is not responsible for any design error and/or omissions discovered or which could have been discovered during this review. Nor does this review waive or negate any rights of the Lessee for breach of contract and/or default based upon design error and/or omissions.

f) The Lessor shall immediately commence construction as required in paragraph 3.6 upon submission of the final detailed plans and specifications to the Office of Design and Construction.

g) All work required under paragraph 3.6 shall meet the latest local and state building codes, fire codes, and barrier free regulations. The Lessor shall be responsible for acquisition of and payment for all necessary permits.

3.6 - a) The Lessor shall complete construction in accordance with the standards and specifications found in Enclosures "C" and "C-1" by **October 30, 2009**, or **ninety (90)** days after Lessor receives a fully executed copy of this Lease whichever is later. Upon completion of construction, Lessor shall submit to the Lessee three (3) copies of the "as-built" detailed plans and specifications.

b) Time extension requests must be submitted in writing to Lessee each month in which the Lessor believes he/she is entitled to more time. Such requests shall detail the length of time extension requested and indicate why the Lessor believes more time is warranted. Lessee will respond to such requests and may extend the timeframe allowed for Substantial Completion. If no time extension is requested in writing, it will be assumed that no additional time is needed and no timeframe extension will be allowed for that month.

c) The work to be performed under Article III of this Lease shall be commenced as provided in paragraph 3.5 and shall be Substantially Completed within the timeframe required in paragraph 3.6(a). Lessor and Lessee agree that Substantial Completion by the time specified is of the essence to this Lease and that the Lessee will suffer injuries and damages if the work is not timely completed. Should the Lessor fail to Substantially Complete the work within the above-referenced timeframe, the sum of **\$100.00** per day

# SAMPLE GROSS LEASE

shall be deducted from the Lease rent payment(s) for each and every calendar day of delay. It is understood and agreed that this deduction from Lease rent payment(s) is not a penalty, but represents liquidated damages suffered by the Lessee, and is so fixed on a per diem basis because of the extreme difficulty of ascertaining the full amount of damages the Lessee will sustain if the work is not timely completed. Liquidated damages are not intended to compensate the Lessee for any other breach of this Lease.

d) See attached Enclosure "C", for construction standards and specifications. Enclosure "C-1" (final detailed construction plans and specifications) shall be incorporated and attached to this Lease upon receipt by the Office of Design and Construction pursuant to paragraph 3.5.

e) The program, design, and construction of the Leased premises shall be executed in compliance with all applicable federal, state, and local laws, permits, approvals, ordinances, standards, and regulations, including but not limited to applicable regulations of the Occupational Safety and Health Act (OSHA), and other professional practices and industry standards.

Failure to include in the complete itemized cost estimate any cost directly or indirectly incurred as a result of the change constitutes Lessor's waiver of entitlement to such costs, except in the event that the Lessor or Lessor's contractor provides a detailed reservation of its right to additional costs which cannot be reasonably calculated as of the date the cost estimate is submitted.

Such requests shall detail the length of time extension requested and indicate why the Lessor believes more time is warranted. The Lessor shall give the Lessee written notice that such party holds such lien or deed of trust, and written evidence of the date the mortgage or deed of trust was executed, together with notice of the address of Lessor's mortgagee. A lien held by a Lessor's mortgagee on the Leased premises, or any portion thereof, is herein referred to as a "Lessor's mortgage".

10.2 - Pursuant to paragraph 10.1, the Lessor has disclosed all mortgages or deeds of trust affecting the Leased premises set forth in paragraphs 2.1 and 2.2, which exist as of the execution date of this Lease. Lessor's mortgagee shall have the right (but not the obligation) to cure or remedy Lessor's default during the same time period that is permitted to the Lessor hereunder for the remedying or curing of such default. Lessee will accept such curative or remedial action taken by a Lessor's mortgagee with the same effect as if such action had been taken by the Lessor. ## Maintenance Recommendations for Armstrong Step-Master Flooring

### Maintenance

Smart maintenance programs consist of thorough dirt and grit control, removal of spills and stains and protection of the floor surface

Walk-Off mats, sweeping, mopping and vacuuming all help in the control of loose dirt and grit. Damp-Mopping, spot-cleaning and washing will remove most spills and stains.

**Proactive sealers, polishes/finishes are not recommended for Step Master.** They will fill the textured areas and cause a reduction in slip retardancy.

A recommended maintenance program is outlined below.

### Initial Maintenance After Installation

1. Sweep (with a broom) or vacuum thoroughly.
2. Damp-Mop with a dilute-neutral detergent solution, carefully removing black heel marks and excessive soil.
3. DO NOT scrub or wash floor for at least five (5) days after installation.

**WASHING OR SCRUBBING BEFORE FIVE (5) DAYS COULD CAUSE ADHESIVE BOND PROBLEMS IF WATER PENETRATES THE TILE JOINTS.**

NOTE: Over time, Step Master's gloss will dull to an even matte finish. This is perfectly normal.

### Continuing Regular Maintenance

1. Sweep (with a broom) or vacuum as necessary.
2. Damp-Mop as needed with a dilute neutral detergent solution. This will pick up the fine dirt that sweeping misses, as well as assorted spills and wet footprints. A light scrubbing with an automatic floor machine may also be performed.
3. When needed, wash or scrub with a neutral-detergent solution using an automatic floor machine (equipped with scrub brushes) or a single-disc floor machine (170 to 250 rpm) equipped with a scrub brush.

**DO NOT USE FLOOR MAINTENANCE PADS ON THIS PRODUCT.**

NOTE: The use of maintenance pads may reduce Step Master's slip-retardant features.

If cleaning manually, apply the cleaning and rinse water with nylon/raon mops. These mops minimize lint deposits. A stiff broom or deck brush will help to dislodge ground-in dirt.

## Maintenance Recommendations for Armstrong Step-Master Flooring HEAVY-DUTY CLEANING

1. Since floor sealers, polishes/finishes are not used on Step Master, stripping will not be required.

NOTE: High solvent content strippers (no-rinse and/or no-scrub) should not be used on Step Master.

2. Periodically, a heavy-duty cleaning/scrubbing may be performed using heavy-duty cleaners and a stiffer scrub brush. Rinsing is recommended after the use of heavy-duty cleaners.

Regular adherence to this type of maintenance program will assure a longer, more attractive life for the floor. Recognized quality name products should be used to ensure consistency of performance.

## PROTECTION

Static load limit is 125 psi. Floors should be protected from sharp-point loads. Recommendations for the selection of Armstrong Floor Protectors may be found in **ARMSTRONG ENGINEERED INSTALLATION SYSTEM, F-5081, Chapter X.**

NOTE: The extremely high forces exerted by stiletto or high-heeled traffic (dynamic loads of 1,000 psi or more) may visibly damage wood floors, resilient flooring and other commercial floor coverings. Armstrong will not accept claims for damage caused by stiletto or high-heeled traffic.

**DO NOT SAND, DRY SCRAPE, BEAD BLAST OR MECHANICALLY PULVERIZE EXISTING RESILIENT FLOORING, BACKING OR LINING FELT.**

These products may contain either asbestos fibers or crystalline silica, possible cancer and respiratory tract hazards by inhalation. Avoid creating dust. Smoking by individuals who have been exposed to asbestos fibers greatly increases the risk of serious bodily harm. Armstrong's Recommended Work Protection for the removal of Resilient Floor Coverings are a defined set of instructions addressed to the task of removing all resilient floor covering structures.

For detailed information on the removal of resilient flooring, please refer to **ARMSTRONG RECOMMENDED WORK PRACTICES FOR THE REMOVAL OF RESILIENT FLOOR COVERINGS, F-2822**
