

MICHIGAN MASTER COMPUTING CONTRACT(S)
SERVER COST MODEL

SERVER PERCENTAGE DEFINITIONS

A = Discount percentage from Manufacturer Suggested Retail Price (MSRP) to the Contractor

B = Mark up percentage from the Contractor to the State of Michigan. This could be zero.

C = Net percentage discount that the State of Michigan would receive. (A-B)

D = N/A

E = N/A

F = Bidder enters additional discount the State will receive if Bidder was awarded categories 1.2 (Server) and 1.3 (Software)

G = Total discount to the State if Contractor was awarded categories: Server (1.2) & Software (1.3)

H = Bidder enters additional discount the State will receive if Bidder was awarded categories PC (1.1), Servers (1.2) and Software (1.3)

I = Total discount to the State if Contractor was awarded three categories: PC (1.1), Server (1.2), & Software (1.3)

J = Bidder enters additional discount the State will receive if Bidder was awarded all four categories: 1.1, 1.2, 1.3, & 1.4

K = Total discount to the State if Contractor was awarded all four categories: 1.1, 1.2, 1.3, & 1.4

The net percentage discounts will never decrease during the life of the contract.

SERVER COST MODEL DEFINITIONS

A = Estimated Quantity

B = Manufacturer Suggested Retail Price (MSRP) also called list price. The price any individual would pay for the product/service.

C = Discount. Contractor Discount off MSRP that the Contractor would receive.

D = Dollar Markup. This is the cost from the Contractor to the State of Michigan to deliver goods or services. Also called Value Add.

E = Total Unit Price to State of Michigan after all discount/markups have been taken.

F = Total Unit Price times the Estimated Quantity

CA Unicenter Software

Providing Pricing is optional. Please refer to RFP Section 1.2.8 for further information.

MMCC Server Discount Percentages Cost Model

NOTE: It would be impractical to itemize every product offered by the required manufacturers on the cost model; however, markup level prices similar to those quoted on the cost model must be offered on all products within a manufacturer's product line. The State will not accept multiple percentages within a product line.

Hardware maintenance and warranty offerings must be made available through the contract to the State of Michigan, even though they may not be illustrated within each product line of the cost model. The products and services on the cost model are in no way the complete offerings the State wishes to obtain through this contract, they are for costing purposes only.
