

Trenton Public Schools is requesting proposals for:

- A Server and Storage System to replace the existing building servers and provide data storage for staff and students.
- Classroom audio visual systems, large area portable audio visual systems and associated implementation services.
- Workstations, peripheral devices, mobile net-book carts and associated implementation services for Boyd Arthurs Middle School.

Requirements are detailed in each of the three Request for Proposal (RFP) documents which can be requested through the District's technology consultant: <http://rfp.plantemoran.com>

A vendors conference for the classroom audio visual system will be held on June 3, 2010 at 2:00 PM in at Trenton High School. A sealed package containing one (1) original bid, two (2) copies, and one (1) electronic copy should be submitted to the contact and address in each RFP no later than **3:00pm local time on June 14th, 2010**. All bids must contain the wording indicated in the RFP being responded to, on the envelope / package.
