

# GIS Users Meeting

Agenda  
October 3<sup>rd</sup>, 2013

The morning session's **Special Topic** for October will be  
Presented by;  
Lisa Erickson, RST, Remote Sensing Specialist, Photoscience, Inc.  
and  
Brian Bower, Remote Sensing Technician, Photoscience, Inc.

The presentation will highlight several different GIS data sets and how they can be utilized by state and local resource managers. Data to be discussed range from statewide historic land cover maps, to small scale land use maps and 3D impervious data.

The afternoon session's **Educational Topic** for October will be  
Presented by;  
Sally Price, GIS Coordinator, City of Southfield  
and  
Steve Gogola, GIS Analyst, City of Southfield

Is your community operating under limited resources? Reduced budget, fewer people, but increasing expectations? This presentation will demonstrate how the City of Southfield leveraged Esri's ArcGIS for Local Government (AG4LG) solutions to quickly and efficiently extend services available to City staff and citizens alike. Deploying a select set of easy to use applications with highly focused functionality brought increased attention to and awareness of the City's GIS program both internally and externally, which has carried significant weight in gaining support for ongoing investments and initiatives. As an early adopter of Esri's Local Government Information Model (LGIM) and AG4LG, the City has also been recognized by Esri for their continued efforts to stay ahead of industry trends by adapting to and adopting new technology opportunities.

9:30 – 10:00 Networking (Coffee and doughnuts provided)

10:00 – 12:00 Morning Session

- I - Introductions and Approval of Meeting Minutes
- II - Federal, State, and Association Updates (5 minutes each)
