Notes: Parentheses around a PUMA geocode for 2000 indicate an approximate match (e.g. a difference between tract boundaries and community boundaries, or the inclusion or exclusion of Keego Harbor (Oakland County) or Centerline (Macomb County)).

"+" is used with a PUMA geocode when two PUMA's from 2000 were combined into one new PUMA.

"(pt.)" is used with a PUMA geocode where a single PUMA from 2000 was divided into two new PUMA's.

"(pt.)" is used with the names of two Detroit PUMA's to indicate that small portions of the indicated planning areas are part of the "I-94 Corridor" PUMA which consists of the Grosse Pointes, Harper Woods, Highland Park, Hamtramck, and a string of Detroit census tracts which links them together. (If an exemption to the Census Bureau's contiguity requirement is granted, the Detroit census tracts can be included in their proper planning regions.)
