NOTES TO FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies

A. Accounting Practices No material changes

The financial statements of Fidelis SecureCare of Michigan Inc. are presented on the basis of accounting practices prescribed or permitted by the State of Michigan Department of Insurance.

Fidelis SecureCare of Michigan Inc is licensed and domiciled as a Health Maintenance Organization in the State of Michigan. The company is authorized to write Medicare business as a Medicare Advantage plan. The State of Michigan Department of Insurance recognizes only statutory accounting practices prescribed or permitted by the State of Michigan for determining and reporting the financial condition and results of operations of a Health Maintenance Organization, for determining its solvency under the Michigan Insurance Law. The National Association of Insurance Commissioners' (NAIC) *Accounting Practices and Procedures Manual*, (NAIC SAP) has been adopted as a component of prescribed or permitted practices by the state of Michigan. In NAIC SAP, some assets, such as prepaid expenses are not admitted. The Commissioner of Insurance has the right to permit other specific practices that deviate from prescribed practices.

Cash and Cash Equivalents – Cash and cash equivalents include highly liquid investments that are both readily convertible to known amounts of cash, and so near to their maturity that they present insignificant risk of changes in value because of changes in interest rates. Cash also includes savings accounts, and certificates of deposits with original maturities of three months or less.

Short Term Investments – Short term investments include investments with remaining maturities of one year or less at the time of acquisition.

In December 2003, the Emerging Issues Task Force (“EITF”) issued EITF 03-1, The Meaning of Other-Than-Temporary Impairment and Its Application to Certain Investments. EITF 03-1 specifies certain quantitative and qualitative disclosures for debt and marketable equity securities classified as available for sale or held-to maturity and where costs exceeds market value at the balance sheet date but for which an other-than-temporary impairment has not been recognized. As of September 30, 2006 the fair market value of securities \$545,540 exceeded the amortized cost, \$543,249 by \$2,292 for US governments due to mature between one and five years from balance sheet date. The fair value of this instrument as of September 30, 2006 is \$545,540. Given the characteristics of the security, management believes that the carrying amount of the security is recoverable as of September 30, 2006.

B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with Statutory Accounting Principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

C. Accounting Policy

Health premiums are earned monthly over the terms of the related insurance contracts or policies. Expenses incurred in connection with acquiring new insurance business, including acquisition costs such as sales commissions, are charged to operations as incurred.

The amount of dividends to be paid to policyholders is determined annually by the Company's Board of Directors. The aggregate amount of policyholders' dividends is related to actual interest, mortality, morbidity, and expense experience for the year and judgment as to the appropriate level of statutory surplus to be retained by the Company.

In addition, the company uses the following accounting policies:

- (1) Short-term investments are stated at amortized cost.
- (2) Common Stocks at market except that investments in stocks of uncombined subsidiaries and affiliates in which the Company has an interest of 10 % or more (per SSAP 88) are carried on the equity basis. Bonds not backed by other loans are stated at amortized cost using the constant yield interest method.
- (3) The Company anticipates investment income as a factor in the premium deficiency calculation.
- (4) Unpaid losses and loss adjustment expenses include an amount determined from individual case estimates and loss reports and an amount, based on past experience, for losses incurred but not reported. Such liabilities are necessarily based on assumptions and estimates and while management believes the amount is adequate, the ultimate liability may be in excess of or less than the amount provided. The methods for making such estimates and for establishing the resulting liability are continually reviewed and any adjustments are reflected in the period determined.
- (5) The Company has not modified its capitalization policy from the prior period.
