

STATE OF MICHIGAN

Jennifer M. Granholm
GOVERNOR

DEPARTMENT OF LABOR & ECONOMIC GROWTH
DAVID C. HOLLISTER
DIRECTOR

Michigan Occupational
Safety & Health Administration
(MIOSHA)

MEMORANDUM

DATE: January 5, 2005

TO: Brenda Perry, Financial Analyst

FROM: Douglas J. Kalinowski, Director *DJK*

SUBJECT: Legislative Report

Section 317 of the '04 budget boilerplate requires that by February 1, a report is provided to the appropriate house and senate appropriations subcommittees and the fiscal agencies "on the number of individuals killed and the number of individuals injured on the job within industries regulated by MIOSHA during the preceding calendar year."

Attached is the report that includes the 2004 "program-related" fatality counts and the number of occupational injuries and illnesses by industry projected from the 2003 U. S. Bureau of Labor Statistics (BLS) survey. As you know, employers are not required to report all occupational injuries and illnesses. Therefore, the data that most closely approximate "individuals injured" are the data from the survey that was conducted during 2004 and reports 2003 injuries and illnesses.

Please call if you have any questions or need additional information.

REPORT TO THE LEGISLATURE

**OCCUPATIONAL INJURIES, ILLNESSES
AND FATALITIES IN MICHIGAN**

Developed by
Michigan Occupational Safety and Health Administration (MIOSHA)
Michigan Department of Labor and Economic Growth

January 2005

MICHIGAN OCCUPATIONAL INJURIES, ILLNESSES AND FATALITIES

JANUARY 2005

INTRODUCTION

The information that follows is presented in response to Section 317 of Public Act 167 of 2004. This section requires that the Department of Labor and Economic Growth, Michigan Occupational Safety and Health Administration (MIOSHA), provide an annual report by February 1 of each year "...to the appropriate house and senate appropriations subcommittees and the fiscal agencies on the number of individuals injured on the job within industries related to MIOSHA during the preceding calendar year."

"PROGRAM-RELATED" FATALITIES

The agency records "program-related" fatalities. In general, this means that the incident related to the fatality may have resulted from a hazard or hazards that occurred based upon a failure to adhere to one or more Michigan Occupational Safety and Health Administration (MIOSHA) requirements. There were 44 such fatalities in Michigan during calendar year 2004. (See following table for data and definitions.)

WORKPLACE INJURIES AND ILLNESSES

A complete census of occupational illnesses and injuries for Michigan does not exist. However, the agency cooperates with the U.S. Bureau of Labor Statistics to sample Michigan's employers to produce annual estimates of the number of occurrences of work-related illness and injuries. The 2004 survey collected the 2003 illness and injury occurrences of 6,409 Michigan employers. The employer sample was stratified by industry and the results were used to project total occurrence estimates. The eight page table that follows the fatality data presents the results. Footnotes at the end of the table provide additional information about the methodology used. The sample excludes self-employed individuals, railroads, selected mining industries and the federal government.

INQUIRIES

Questions about these data may be directed to the Management Information Systems Section, MTSD, Michigan Occupational Safety and Health Administration (MIOSHA) (517) 322-1850.

**MIOSHA Program-Related Fatalities
Calendar Year 2004**

General Industry Safety and Health	22
<u>Construction Safety and Health</u>	<u>22</u>
TOTAL	44

Note: Data current as of 01/04/05.

Source: Management Information Systems Section, MTSD, Michigan Department of Labor and Economic Growth

NOTE: A fatality is recorded as "program-related" if the deceased party was employed in an occupation included in MIOSHA jurisdiction as defined in Public Act 154 of 1974, as amended, and the fatality appears to be related to one or more of the following conditions:

- 1. The incident was found to have resulted from violations of MIOSHA safety and health standards or the general duty clause.**
- 2. The incident was considered to be the result of a failure to follow a good safety and health practice that would be the subject of a safety and health recommendation.**
- 3. The information describing the incident is insufficient to make a clear distinction between a "program-related" and "non-program-related" incident, but the type and nature of the injury indicates that there is a high probability that the injury was the result of a failure to adhere to one or more MIOSHA standards, the general duty clause, or good safety and health practice.**

Industry ²	NAICS code ²	2003 Average annual employment ³	Total recordable cases	Cases with days away from work, job transfer, or restriction			Other recordable cases
				Total	Cases with days away from work ⁴	Cases with job transfer or restriction	
Public administration	92	133.5	9.4	5.2	2.8	2.4	4.2
Executive, legislative, and other general government support	921	121.5	8.5	4.8	2.7	2.1	3.8

¹ Totals include data for industries not shown separately.

² North American Industry Classification System Manual, 2002 Edition

³ Employment is expressed as an annual average and is derived primarily from the BLS-State Quarterly Census of Employment and Wages.

⁴ Days-away-from-work cases include those that result in days away from work with or without job transfer or restriction.

⁵ Excludes farms with fewer than 11 employees.

⁶ Data for mining (Sector 21 in the North American Industry Classification System, 2002 edition) include establishments not governed by the Mine Safety and Health Administration (MSHA) rules and reporting, such as those in oil and gas extraction and related support activities. Data for mining operators in coal, metal, and nonmetal mining are provided to BLS by the Mine Safety and Health Administration, U.S. Department of Labor. Independent mining contractors are excluded from the coal, metal, and nonmetal mining industries. These data do not reflect the changes OSHA made to its recordkeeping requirements effective January 1, 2002; therefore estimates for these industries are not comparable to estimates in other industries.

⁷ Data for mining operators in this industry are provided to BLS by the Mine Safety and Health

Administration, U.S. Department of Labor. Independent mining contractors are excluded. These data do not reflect the changes OSHA made to its recordkeeping requirements effective January 1, 2002; therefore estimates for these industries are not comparable to estimates in other industries.

⁸ Data for employers in rail transportation are provided to BLS by the Federal Railroad Administration, U.S. Department of Transportation. These data do not reflect the changes OSHA made to its recordkeeping requirements effective January 1, 2002; therefore estimates for these industries are not comparable to estimates in other industries.

⁹ Fewer than 50 cases.

¹⁰ Fewer than 15 cases.

NOTE: Because of rounding, components may not add to totals.
