FREE ON-SITE CONSULTATION SERVICE FOR EMPLOYEES

To help employees better understand and voluntarily comply with the Michigan Occupational Safety and Health Act (MIOSHA), free ONSITE CONSULTATION programs are available to help small employers identify and correct potential safety and health hazards.

ASSISTANCE IN MEETING MIOSHA REGULATIONS

The ON-SITE program provides:

- **SAFETY AND HEALTH WALK-THROUGH SURVEYS:** At your request, a safety or health specialist will visit your business to explain our program. If you agree to participate, hazards and violations will be identified during a walk-through at your place of business. This walk-through is identical to a regular MIOSHA enforcement inspection, EXCEPT NO CITATIONS OR PENALTIES WILL BE ISSUED.
- **ABATEMENT ADVICE:** Any hazards or violations which may cause death or serious harm to your employees will be discussed during the walk-through. A written report of the findings will be presented including specific advice for eliminating existing and potential safety or health hazards.
- **TRAINING AND PLANNING:** In addition, a safety or health plan will be developed from the written report. This plan may include referral services on employee training designed to correct violations or hazards.

ADDITIONAL MIOSHA EDUCATION AND TRAINING PROGRAMS

Onsite Consultation is just part of a complete series of programs to help improve safety practices. Safety and health training consultants can provide technical assistance, training in the use of personal protective equipment, help interpret standards and provide a multitude of other training services.

NO COST TO YOU

The Onsite Consultation Program is state and federally funded...these services are offered at no cost to you.

NO PENALTY

The Onsite survey is conducted without citations or penalties. However, before a survey you must agree to correct all violations considered serious. Verification of such corrections is required within a reasonable time.

TAKING ADVANTAGE OF ONSITE CONSULTATION COULD MEAN:

- Lower worker's compensation and other accident costs
 - Increased productivity and improved morale
 - Lower risk exposure
- In addition you can achieve:**
- Compliance with MIOSHA safety and health requirements
 - Effective safety and health practices
