

REPORT TO THE LEGISLATURE

Pursuant to PA 107 of 2017

Article V, Section 907

Academic/Vocational Report

Sec. 907. The department shall report by March 1 to the senate and house appropriations subcommittees on corrections, the legislative corrections ombudsman, the senate and house fiscal agencies, and the state budget director on academic and vocational programs. The report shall provide information relevant to an assessment of the department's academic and vocational programs, including, but not limited to, all of the following:

- (a) The number of instructors and the number of instructor vacancies, by program and facility.
- (b) The number of prisoners enrolled in each program, the number of prisoners completing each program, the number of prisoners who do not complete each program and are not subsequently reenrolled, and the reason for not completing the program, the number of prisoners transferred to another facility while enrolled in a program and the reason for transfer, the number of prisoner enrolled who are repeating the program, and the number of prisoners on waiting lists for each program, all itemized by facility.
- (c) The steps the department has undertaken to improve programs, track records, accommodate transfers and prisoners with health care needs, and reduce waiting lists.
- (d) The number of prisoners paroled without a high school diploma and the number of prisoners paroled without a high school equivalency.
- (e) An explanation of the value and purpose of each program, for example, to improve employability, reduce recidivism, reduce prisoner idleness, or some combination of these and other factors.
- (f) An identification of program outcomes for each academic and vocational program.
- (g) The number of prisoners not paroled at their earliest release date due to lack of a high school equivalency, and the reason those prisoners have not obtained a high school equivalency.

Vocational Programs Not Offered at: Alger, Baraga, Cooper St., Egeler (Intake Center), Ionia, Michigan Reformatory, Oaks St. Louis, West Shoreline, and Special Alternative Incarceration.

OCF - Custodial Maintenance operated from October 2016 to February 2017.

MBP - Carpentry operated from October 2016 to January 2017.

SMT Vocational Village opened August 2017.

Start dates of the classes are: Auto Mechanics CLASS 1 - 9/18/17 and CLASS 2 - 11/14/17

Masonry/Concrete 8/25/17, Carpentry CLASS 1 - 2/17/17 and CLASS 2 -8/13/17, and Machine Tool 6/15/17 CDL classes did not start during this fiscal year.

Sec. 907 (c)

The steps the department has undertaken to improve programs, track records, accommodate transfers and students with health care needs, and reduce waiting lists.

Improving Programs

Correctional Education in Michigan is a fore runner in the nation in providing quality educational services to prisoners. Dedicated staff ensures continuous quality improvement as well as standardized processes to ensure efficiency in the following areas:

Education Orientation at Intake

Correctional Education is focused on the successful transition from the prison to the community starting at Intake. A new, coordinated process was implemented to ensure each prisoners academic, vocational, and workplace history is recorded and documented as well as allowing educational staff an opportunity to educate future students on programs offered statewide to assist in the rehabilitation process. This process includes in-depth assessments of individual aptitudes, and interest's both academically and vocationally. Additionally, prisoners develop education and employment plans with an Employment Counselor designed to maximize their potential for successful reentry. Every effort is made to ensure all prisoners reach their educational potential.

Career and Technical Education (CTE)

CTE programs provide students with specific trade instruction, technical skill and soft skill competencies critical to finding and maintaining employment. Vocational programs are responsive to labor market demands. These programs will lead to state and/or nationally recognized certification upon completion. Correctional Education provides CTE programming in a flexible schedule offering open entry and open exit enrollment. The department has taken many steps this year to improve vocational programs.

- The Vocational Village concept was expanded to Parnall Correctional Facility (SMT) in Jackson. This included an extensive remodel of a 60,000 square foot warehouse that was transformed into a state of the art hands on vocational training center. Students participating in this program simulate a full day's work by taking part in intensive vocational instruction, while living in a dedicated housing unit with other students who share the same commitment to self-improvement through vocational training. Classroom and laboratory areas were separated to allow students a positive learning environment and lab area for each trade to complete hands-on practical learning.
- Commercial Driver's License (CDL) Program was recently added as an additional stackable credential at the SMT Vocational Village. Students completing this program receive a Commercial Learners Permit (CLP). The CLP certification is the first step in students receiving a CDL license. Correctional Education partnered with Pinnacle Truck Driving School to allow returning students to complete the final road test and earn a CDL. A state of the art driving simulator in the classroom allows students an opportunity to practice driving while learning all the key components of commercial driving operations.
- Forklift Certification was added at both Vocational Villages. This is another stackable credential for each student to earn while participating in the village.
- Five FANUC robots were added to the Computer Numeric Control Machine Program (CNC) at Parnall Vocational Village. Over 80% of the manufacturing industry uses robotic technology in which FANUC is an industry leader. Certifications include Robotics Certification I and IRVision Certification II
- The statewide Horticulture curriculum was updated to include certification as a Certified Green Industry Professional (CGIP) and the State of Michigan Pesticide Core Training Manual. Six specific areas of certification in Pesticides are: Turfgrass, Vegetable Crop, Ornamental, Right of Way, Field Crop and Fruit Crop.

Employment Readiness (ER) and Workforce Development Programs (WFD) and Services

Employment Readiness is 150 hours of classroom based curricula that offers the Microsoft Digital Literacy Certification, the Federal Deposit Insurance Corporation Money Smart program, and Workforce Development Modules that cover employability soft skills training and job seeking preparation that is delivered to enhance a student's ability for successful reentry and sustainable employment in the community.

Workforce Development Referral Packet (WFD) is a compilation identifying accomplishments of prisoners earned throughout his/her incarceration. This file includes a working resume and cover letter, state or national certifications/credentials earned, a record of their institutional work history, and a record of the programming they completed while incarcerated.

- Formalized partnership with field agents and community stakeholders to ensure a smooth hand off and increased communication efforts to ensure articulation of offenders' educational achievements while incarcerated.
- Educated Community Service Providers and fiduciaries at statewide trainings to ensure comprehensive understanding of Educational services provided prerelease.
- Provided Professional Development Training to staff while identifying process improvements and best practices.
- Standardized delivery of ER and WFD curricula statewide.
- Implemented quality assurance through review and tracking of:
 - Certificate of Employability
 - Workforce Development Packets
 - Resumes
 - Vital Documents
 - Vocational Counseling
 - Career Scope
 - Work Keys testing

- Increased technology and opportunity for remediation efforts around Work Keys testing to improve National Career Readiness Credential outcomes.
- Streamlined Career Fairs statewide ensuring all relevant staff are included. Also, drafted a statewide operating procedure to ensure standardization.
 - Employment Counselors collaborate with Field Operations Administration (FOA) Staff in order to maximize the success of the events
 - 10 career fairs were planned and conducted
 - Implemented a standardized process to track the number of offenders who successfully gain employment post release as a result of the job fair

Vital Documents

Vital Documents involve assisting prisoners in obtaining their birth certificate, Social Security card and State ID/Driver's License in order to enhance a prisoner's ability to obtain employment post release.

- Reentry funds have been allocated to pay for the cost of birth certificates, increasing the prisoners' ability to obtain vital documents.
- Started the vital documents process earlier in the prisoners' incarceration period to ensure they leave prison with their documents in hand.
- Expanded a partnership with the Michigan Department of State to assist prisoners in obtaining a State ID/Driver's License.
 - November 30, 2016: Mobile Unit at Cotton Correctional Facility, assisting 64 prisoners in obtaining their State ID/Driver's License.
 - March 29, 2017: Mobile Unit at Women's Huron Valley Complex, assisting 97 prisoners in obtaining their State ID/Driver's License.

- June 21, 2017: Mobile Unit at Parnall Correctional Facility, assisting 96 prisoners in obtaining their State ID/Driver's License.
- September 6, 2017: Mobile Unit at West Shoreline Correctional Facility, assisting 99 prisoners in obtaining their State ID/Driver's License.
- Sustained an expedited Social Security card application process for prisoners who receive a Non-Fixed Date (NFD) parole and are paroling within 28 days of the Parole Board's decision.

Academic

The Michigan Department of Education continues to focus statewide on District Improvement Plans and School Improvement Plans. As a result, Correctional Education has updated the District Improvement Plan and will be implementing School Improvement Plans for each facility school.

- Piloted content specific instruction at the Thumb Correctional Facility where seven Academic Teachers provide instruction in a specific ABE/GED content area. The school schedule is set up to include quarterly marking periods in specific content areas. At the end of each month students are evaluated for potential GED testing in the specific subject area they were assigned. Students are evaluated to determine the new subject area assignments. All facilities submitted plans for Academic Teachers to implement content specific instruction in ABE/GED content areas statewide in 2018. The effectiveness of these instructional plans will be evaluated by the Academic Advisory Committee to determine best practices will be recommended for use in schools statewide.
- The 2017 Annual Academic Teacher Conference provided training in GED Social Studies and GED Science content areas to assist teachers with classroom instruction in these areas. Training was also provided in the use of Edmentum software to enhance the use of computerized instruction in MDOC classrooms.

- Follow up regional training was conducted to answer follow up questions and ensure quality assurance and implementation statewide.

Special Education

Special Education programs allow eligible students specialized instruction to meet their needs in a least restrictive environment. Goals are developed and monitored by certified Special Education teachers to best meet the needs of students.

- During the 2016-2017 program year the MDOC continued to actively participate in a Learning Disability program with Michigan Rehabilitation Services and Center for Independent Living to address job placement, parenting skills and academic needs for Corrections prisoners with learning disabilities at the Thumb Correctional Facility. During the upcoming year, we look to expand that partnership to include a group of students at Women's Huron Valley Correctional Facility.
- The MDOC continues to use various software applications to address the very low functioning and non-reader students. This computerized instruction is effective with the individualized instruction in the classroom. In addition, a web based application was purchased to allow for seamless writing, implementation, and monitoring of Individualized Education Programs (IEPs) throughout the MDOC.
- MDOC Special Education has developed book clubs to create an environment that allows for reading experiences for all reading levels, utilizing multicultural material; encouraging literacy among Special Education students.
- There has been continued accommodation testing for prisoners (who may require accommodation testing) to prepare for GED testing.
- Staff training provided Special Education instructors to enhance their skills and become more effective classroom teachers both on a department-wide basis and regionally at designated facilities. Training continues to be conducted for staff for continued improvement on the IEP process and Special Education compliance. During the 2016-2017 school years, training was provided including topics such as transition, manifestation determination, and significant disproportionality.

Post-Secondary

Correctional Education is currently partnering with a number of post-secondary providers to offer college classes inside prisons. These classes are credit-bearing and are either grant funded or self-pay.

- Pathways from Prison to Postsecondary Grant and Department of Justice Second Chance Grant (SCG) are two federal and private grants awarded to Correctional Education for college programming. The programming is offered at Cotton (JCF), Parnall (SMT), Gus Harrison (ARF), and Macomb (MRF) Correctional Facilities. Jackson Community College (JCC) collaborated with Correctional Education to deliver a computer technology certificate program at JCF and ARF. Prisoners are CompTIA certified and/or prepared for the CompTIA A+ and Network + exams to obtain sustainable entry level technology employment upon release to the community. Additionally, Correctional Education also partnered with Detroit School of Digital Technology to provide case management services and continue education/training for prisoners post-release. The Pathways grant at SMT and MRF allow prisoners to enroll in college classes to prepare for associates and bachelor degrees in general and business studies.
- Prisoners are allowed to take classes via correspondence courses or in-person from various post-secondary providers. Correspondence courses are available at all CFA facilities and are governed by Policy Directive 05.02.119.
- Jackson College, Delta College, and Mott Community College are participating in an Experimental Sites Initiative that is providing Federal Pell Grant funding to otherwise eligible students who are incarcerated, likely to be released within five years of enrollment, and who are eligible for release back into the community. These colleges are currently providing credit bearing classes to 507 eligible students at six correctional facilities. Classes vary, but generally focus on business and entrepreneurship degrees.

Track Records

The Monthly Utilization Report was revised to make data easy to enter, accurate in content, and accessible in form.

Accommodate Transfers

- Developed a centralized process to identify students who are eligible for CTE and post-secondary placement and initiate prisoner transfers to facilities to accommodate.
- Reduced unnecessary transfer of students enrolled in Core programming with the issuance of DOM 2017-17. The DOM indicates that educational programs such as Academic, CTE and Employment Readiness are considered Core Programming. Students enrolled in Core Programming must have a department detainer placed on them while enrolled. The detainer will prevent enrolled prisoners from transferring and causing a non-completion or a delay in completion with the exception of health care and security reasons.
- All correctional facilities offer academic education. Transfer of these students does not impact non completions due to the subsequent enrollment at the receiving facility.

Detainers

- Upon enrollment in Academic, Vocational, and Employment Readiness Programming, a detainer is placed in Offender Management Network Information System (OMNI) in order to hold the student at the facility where they are housed until completion of programming. At the point of completion, the detainer shall be removed.
- If a transfer becomes necessary for a student enrolled in an academic program, (such as, but not limited to security reasons or security level increase), Central Office staff are notified of the transfer as well as the secretary of the receiving facility so that student can be re-enrolled upon transfer. This will prevent a lapse in a student's education due to a transfer.
- If a transfer becomes necessary for a student enrolled in a Vocational Programming, central office staff is notified to approve or deny transfer and removal from programming. Approved reasons for transfer of a

vocational student are limited to security level increase, parole and approved security reasons, to allow the student an opportunity to complete programming without interruption.

Accommodate Prisoners with Health Care Needs

Accommodations are provided per department policies, such as providing an American Sign Language (ASL) certified interpreter as necessary to deaf/hearing impaired students enrolled in school programs.

Reduce Waiting Lists

- Defined new criteria to reduce the statewide waiting list.
- Concentrate resources on students within two years of release date.
- Monitor program hours to assure students are completing programming at an appropriate pace.
- Provided academic workshops to improve completion rates.
- Continued to identify “Fast Track” students, capable of completing the High School Equivalency (HSE) exam with minimal instruction time.
- Implemented new demand driven CTE programs including Plumbing, Electrical, Concrete, Masonry and Printing.
- Prioritized students for placement in CTE programs through the use of screening and eligibility criteria.
- Implemented a process to identify students in waiting status on a statewide basis and transfer the student to an appropriate facility that offers the trade.

Educational Technology

- Correctional Education has continued to update technology statewide. Edovo wireless tablet technology has been implemented at four prisons. Tablets are being used in the housing units at Thumb, Women’s Huron Valley, Bellamy Creek, and Baraga Correctional Facilities. The focus is allowing students on educational and vocational waiting lists, as well as post-secondary students, to have access to education while in the housing units. Edovo has an incentive program that allows students to earn rewards

(movies, games, music) minutes for every minute they spend on educational content. This is a great behavior management tool and has been well received by prisoners and staff alike.

- The Department continues to make improvements to the Prisoner Programs Information Network (PPIN). Students are now regularly utilizing the network and applications (Edmentum, Career Ready 101, Typing Ace, and Microsoft Digital Literacy) to remediate for standardized assessments and earn certifications. Easy IEP (special education software) and Aztec (academic software) will be purchased this year. HSE and Career Scope Testing both continue to be done monthly on the network.
- JPay Education tablets are being used by Jackson College and Mott Community College in Pell Grant classes. These tablets have a learning management system that allows instructors to create their own curriculum, post a class syllabus, and assign required readings. The colleges are looking to expand usage of these tablets in the future.
- The Department will be posting a Request for Proposal (RFP) to install additional computer labs at Parnall, Women's Huron Valley, and Central Michigan Correctional Facilities. These labs will be used by academic, career and technical education, and employment readiness programs.

Sec. 907 (e)

An explanation of the value and purpose of each program, for example, to improve employability, reduce recidivism, reduce prisoner idleness, or some combination of these and other factors.

OVERVIEW

Correctional Education policies ensure accountability, provide dynamic leadership for continually improving education strategy, and outline the programming and criteria for prisoners who received these educational services. Prison educators are a dedicated work force of individuals whose work is guided by the Prisoner Education Mission Statement and who strive for student success. The Education Manager acts as the school superintendent, providing leadership and direction to 280 education staff and approximately 7,500 students on any given day. The Education Section is part of the Reentry Administration, Executive Bureau.

There are many factors that contribute and/or impact recidivism. Correctional Education plays a key role in the Department's mission to ensure prisoners are prepared to enter our communities and not return to prison. One of the most important components is prisoners being job ready. The primary programmatic focus is the attainment of job preparedness skills that will lead to employment. Education is essential to recidivism reduction. Additionally, it should be noted that there are ancillary benefits to the education programs for the institution, which include a trained prisoner workforce, the development of critical thinking skills (which results in a more manageable population), and engagement in positive activities.

Explanation of Value/Purpose of Each Program

According to the US Department of Justice, Bureau of Justice Statistics, correctional populations report substantially lower educational attainment than the general civilian non-institutional population. National studies consistently show the value of correctional education and that it reduces recidivism:

2014 RAND Corporation How Effective is Correctional Education & Where do we go from Here?

- For every dollar spent on correctional education, five dollars are saved on three-year re-incarceration costs.
- Prisoners who participated in correctional education have 13% higher odds of obtaining post release employment.

According to research compiled by Michigan Economic Development Corporation Office of Adult Education and the MDOC 49-51% of prisoners arrive in prison without a high school diploma or HSE.

- Prisoners who participate in basic education programs while incarcerated have lower recidivism rates than those who do not.
- Prisoners who participate in basic education programs while incarcerated are more successful at finding and sustaining gainful employment upon release than those who do not.
- Students earning a HSE have a 22% higher earning potential than those without.**
- Persons with lower levels of education attainment are more likely to be unemployed than those with higher levels of education.**

During the 2016/17 fiscal year, MDOC prisoners passed 6,604 High School Equivalency (HSE) subtests of which, 1,236 earned a HSE.

Research shows that by improving employees' basic skills:

- Employees work smarter and better
- Employees cope well with change in the workplace
- Union/management relations improve
- Output and profitability increase

**National Center for Education Statistics

The following programs are offered through MDOC Correctional Education:

ACADEMIC EDUCATION

Adult Basic Education and High School Equivalency Preparation (including HSE Testing) are provided for prisoners without a high school diploma or HSE certificate. The curriculum focuses on math, science, social studies and reasoning through language arts. At the basic level it improves the academic functioning of the students, creating and improving their abilities to read materials such as job applications and doing mathematical operations such as counting currency and multiplication. The HSE preparation classes lead to the obtainment of the HSE.

SPECIAL EDUCATION

Special Education programming is provided to eligible prisoners in accordance with department policy and the Individuals with Disabilities Education Improvement Act (IDEA). A major purpose of Special Education services is to ensure that students with disabilities have available to them a free appropriate public education designed to meet their unique needs and to have equal access to achieve the same goals as non-disabled students.

TITLE I

Title I is a Federally-funded education support service offered to prisoners who are under 21 years of age, and are enrolled in educational programming for 15 hours per week. The Department uses Federal Consolidated Application funds for hiring Title I Aides to address the low level learners' academic deficiencies in math, reading and language by providing one-on-one supplemental instruction assigned by the academic teacher. The funding provides a fair, equal, and significant opportunity for students to obtain the HSE credential prior to paroling to the community.

ENGLISH AS A SECOND LANGUAGE (ESL)

English as a Second Language (ESL) is provided for students whose native language is other than English. It is designed to improve English language skills to the 5th grade level so that non-native speakers are better able to function in an English environment.

CAREER and TECHNICAL EDUCATION (CTE)

CTE programs provide students with specific trade instruction, technical skills and soft skills competencies critical to finding and maintaining employment. These skills are transferable into community employment or college programming. The trades programs offer state and/or nationally recognized certification upon completion. Students enrolled in select programs participate in the State Correctional Opportunities for Rehabilitation and Education (SCORE) projects. Under the supervision of CTE Instructors, students complete projects for Habitat for Humanity, Department of Natural Resources, Department of Health and Human Services as well as many local non-profit organizations. These Service Learning Projects allow students to apply the learned skills to meaningful projects that benefit the State of Michigan.

EMPLOYMENT READINESS & WORKFORCE DEVELOPMENT

Employment Readiness is a course lead by Employment Readiness Instructors and is delivered to enhance a prisoner's ability for successful reentry and sustainable employment in the community. Employment Readiness focuses on:

- Computer training
- Financial literacy
- Employability soft skills training
- Job seeking preparation
- Resume development

Employment Counselors focus on the goal of reducing recidivism and improving employability. The following steps are taken to assist with this effort:

- Maintain the WFD referral packet, which compiles records of certifications and skills
- Determine eligibility for the Certificate of Employability
- Complete vital documentation applications

- Provide Work Keys testing
- Deliver interest and aptitude assessments which are used in determining vocational recommendations
- Establish relations with employers and other stakeholders, liaising between the prisoners and the community by attending Steering Team Meetings, hosting employer tours, and hosting career fairs

VITAL DOCUMENTS

Vital documents include obtaining Social Security cards, birth certificates and State IDs/Driver License for eligible prisoners in order to assist them in obtaining sustainable employment for a successful reentry.

POST- SECONDARY

The MDOC is currently partnering with a number of post-secondary providers to offer college classes inside prisons. These classes are credit-bearing and are either grant funded or self-pay.

- Jackson College, Delta College, and Mott Community College are participating in an Experimental Sites Initiative that is providing Federal Pell Grant funding to otherwise eligible students who are incarcerated, likely to be released within five years of enrollment, and who are eligible for release back into the community. These colleges are currently providing credit bearing classes to 507 eligible students at 6 correctional facilities. Classes vary, but generally focus on business and entrepreneurship degrees
- Pathways from Prison to Postsecondary Grant (Pathways) and the Department of Justice Second Chance Grant (SCG) are new grants offerings within the Department of Corrections. These grants offer college courses at Cotton, Gus Harrison, Parnall, Women's Huron Valley, Thumb and Macomb Correctional Facilities. The colleges that collaborate with the MDOC to deliver these programs include Jackson College, Mott Community College, and Muskegon Community College
- These colleges offer postsecondary training and certifications with the goal of preparing students for employment in the areas of auto repair, carpentry, welding, custodial maintenance, and computer repair. The Pathways and SCG federal funds specifically apply to students returning to disproportionate areas within the State such as Detroit and Kalamazoo. Students will be better prepared to obtain sustainable employment with additional training and Associate's Degrees upon release to the community
- Prisoners are offered the opportunity to take correspondence classes through a number of post-secondary providers. PD 05.02.119 outlines the criteria to take classes and pay for them. MDOC education staff assists prisoners in navigating the process and proctoring

The number of prisoners not paroled at their earliest release date due to lack of a HSE, and the reason those prisoners have not obtained a HSE.
