

## **Partners in Prevention – State & National**

Each community in Michigan has a variety of organizations, agencies, and groups that could be possible partners with local Child Abuse and Neglect Councils. The formation of working partnerships with other organizations that share a common interest in children's safety and well-being strengthens prevention work. The synergy created by effective working partnerships provides us the greatest opportunity to impact the incidence of child abuse and neglect.

Below is a list of potential prevention resources and partners listed at state and national levels. You are encouraged to utilize resources from these partners and to form partnerships with other organizations in your local communities.

### **Michigan Partners**

Circle of Parents
