ORDER ON MOTION FOR PROTECTIVE ORDER

Petitioner, in its Motion for Protective Order states that shared Exhibit 7, a structure map of the reservoir to be developed by the proposed unit, was created by the use and interpretation of 3D seismic data owned by the Petitioner. The depiction of the reservoir reflected in shared Exhibit 7 is confidential and proprietary to the Petitioner and constitutes valuable business information. In order to protect the Petitioner's confidential and proprietary data and prevent economic and competitive harm, the Petitioner asks that shared Exhibit 7 be placed under seal and not be open to the public.

Having completed my review of shared Exhibit 7 in conjunction with issuing an Opinion and Order in this matter, I find there is sufficient cause to restrict access to the Petitioner's shared Exhibit 7.

NOW THEREFORE, IT IS ORDERED:

All copies of shared Exhibit 7 in the agency's file have been destroyed. All other parts of the record associated with this cause shall remain open to the public.
