

RICK SNYDER
GOVERNOR

STATE OF MICHIGAN
DEPARTMENT OF ENVIRONMENTAL QUALITY
LANSING

DAN WYANT
DIRECTOR

TO: US Ecology Michigan Facility Mailing List

FROM: De Montgomery, Section Chief, Office of Waste Management and Radiological Protection

DATE: September 18, 2015

SUBJECT: Extension of Public Comment Period for the Hazardous Waste Management Facility draft Operating License Renewal/Expansion (License) for US Ecology Michigan; MID 074 259 565

The Office of Waste Management and Radiological Protection (OWMRP) has received numerous public comments and two extension requests during the initial and extended public comment period for the License. Given the number of comments and requests to extend the public comment period, the OWMRP is extending the public comment period a second time to October 12, 2015.

This public comment period extension will allow additional time for the public to further review and provide significant comments on the draft License content.

Before issuing a final decision, the Michigan Department of Environmental Quality (MDEQ) will evaluate all comments received. Information regarding the final decision on the draft License will be communicated to all persons who submit written comments or are on the facility mailing list. The MDEQ will respond to all significant comments on the draft License and explain any changes made thereto.

Written comments on the draft License, requests to be placed on the facility mailing list, and all other requests for information, including requests for copies of the draft License, Fact Sheet, and Application, should be directed to Mr. Richard Conforti via e-mail at confortir@michigan.gov or mailed to the address below:

Mr. Richard A. Conforti
