517-284-6854
bertholda@michigan.gov

Program Questions:

Paul Schleusener
517-284-6800
schleusenerp@michigan.gov

Are you required to obtain an air permit for your company, or are you interested in learning more about the air permit process? If yes, this training is for you!

Attend this workshop to learn more about how to complete the air Permit-to-Install Application. You will receive:

- The Permit-to-Install Workbook
- Clarification on what constitutes an administratively complete application
- Explanation of a step-by-step process to ensure a complete application
- Answers to your questions by participating in one of the following:
 - A general question & answer session, or
 - A one-on-one session with a permit engineer for people with project-specific questions (a limited number of slots are available).

Register NOW at www.michigan.gov/deqworkshops

This training qualifies for 2 Continuing Education Hours (CEHs) for Professional Engineers.
