

D-Bar-A Scout Ranch Volunteering

Ford Motor Company Van Dyke Transmission Plant,
Clinton River Watershed Council, and the Boy Scouts
of America

Employees of the Ford Motor Company Van Dyke Transmission Plant volunteer twice a year at the D-Bar-A Scout Ranch. They help to clean up the property, trim bushes, cut grass, and paint buildings. Additionally, they have donated several truckloads of wood to the Scout Ranch and have also helped to build several structures, including swimming docks.
