[Empty box for additional information]

TAKEBACK PROGRAM REPORT (include this information beginning with the first registration submitted after the implementation of the Takeback program)

12a. List the number of permanent collection and/or recycling locations in the state of Michigan. 0

- a(1) The number of those collection sites that are located in counties with a population of less than 20,000 people. 0

12b. The number of collection events held during previous registration year in the state of Michigan. 0

12c. List the weight of the covered electronic devices received by the Takeback program from consumers during the prior year:

0 tons thru collection locations 0 tons through collection events 0 tons through retailers 0 tons by mailback.

13. Describe the processes and methods used to recycle or reuse the covered electronic devices received from consumers: Our recycling partner dismantles old ASUS products in a manual system at one of its locations around the U.S. Products are disassembled into components, which are managed as follows: circuit boards are shipped to OECD smelters; plastics are shipped to plastics recyclers around the world; scrap metal, including hard drives, are sent to local scrap metal recovery operations for smelting and refining; batteries are shipped to battery recyclers for reclamation of metals. Any mercury-containing components such as lamps are sent to a retort facility in the U.S. for Hg reclamation. Polystyrene and cardboard from packaging are shipped to recyclers specializing in these materials.

I, the undersigned registrant, swear and affirm, UNDER PENALTY OF LAW, that the statements contained herein are true and correct. I certify under penalty of law that the information contained on this form, to the best of my knowledge and belief, is true, accurate, and complete. I am aware that there are significant penalties for submitting false information.
